The company offers tax planning, accounting systems, financial reporting, property tax, sales tax, and business consulting, providing small businesses and individuals with the information needed to make informed financial decisions.	

Company Name	Description	Deal Synopsis
Custom Alloy	Manufacturer of seamless and welded pipe fittings and forgings focused on servicing the time-critical maintenance and repair market. The company's critical response manufacturing, expedited delivery capabilities, and flexible production techniques for specialty alloys enable power generation and pipeline operators to minimize operational downtime through the rapid procurement of customized seamless fittings, welded fittings, and heavy forgings.	
Cypress Creek Renewables (104 MegaWatts Community Solar Portfolio in Illinois)	A portfolio of 104 megawatts of community solar assets located across Illinois. The portfolio includes 16 advanced projects spanning 14 counties in Illinois.	
Dauntless Air	Operator of an aerial firefighting company intended to protect people, land, and property from wildfires. The company operates a fleet of fire boss water-scooping aircraft and uses patented computer-controlled fire gates for aerial water and retardant delivery, while providing rapid initial attack capabilities and coordinated wildfire response support, thereby enabling efficient and cost-effective fire suppression operations.	
DB's Plumbing and Drain	Provider of plumbing services intended to maintain residential and commercial water systems. The company specializes in residential plumbing, drain and sewer cleaning, water heater repair and installation, leak detection, and repiping, enabling residential and commercial property owners to receive documented plumbing maintenance and diagnostic repairs.	
DCM BioServices	Provider of laboratory automation maintenance and repair services intended to eliminate equipment downtime. The company offers laboratory automation repair, preventive maintenance, automation integration support, service contracts, technical support, and equipment configuration, enabling biotechnology and pharmaceutical organizations to maximize instrument uptime and protect their investments in laboratory automation.	
Deerfield Agency	Provider of healthcare marketing services intended for the pharmaceutical and biopharmaceutical sectors. The company offers multi-channel marketing, digital design, media buying and planning, integration, analytics and printing, thereby helping clients with the right marketing campaign to grow their brand.	The company was acquired by Martis Capital Management through an estimated \$280 million LBO on June 25, 2026.

Company Name	Description	Deal Synopsis
Diamond Compactor Rentals	Provider of waste compaction services intended to reduce hauling costs and improve property aesthetics. The company offers self-contained compactors, stationary compactors, high-rise compactors, vertical balers, pre-crushers, and hydraulic cart dumpers, providing residential and commercial property managers with equipment to minimize refuse volume and optimize waste management efficiency.	
Diamond Roofing	Provider of commercial roofing and environmental services intended for institutional and industrial sectors. The company utilizes sheet metal fabrication and asbestos abatement capabilities to manage complex building projects, providing commercial owners and healthcare facilities with roofing, slate and tile roofing, green roofing, metal roofing, and waterproofing services.	
Directlink Logistics	Provider of international freight forwarding and supply chain management services intended for global trade and distribution purposes. The company offers comprehensive ocean and air freight, temperature-controlled logistics for sensitive cargo, customs brokerage expertise, and advanced warehousing with real-time inventory tracking and e-commerce fulfillment capabilities, enabling businesses across diverse industrial sectors to optimize their complex logistical networks through enhanced operational transparency and streamlined cross-border transportation efficiency.	
Discovery Tank Testing	Provider of environmental compliance and testing services intended for retail fueling sites and commercial operators. The company offers critical certifications, inspections, and precision testing services that help ensure the safety, compliance, and longevity of underground and aboveground storage tanks.	
Distributor Corporation of New England	Distributor of heating, ventilation, air conditioning and refrigeration equipment intended to support regional contractors. The company offers a regional distribution network with after-hours pick-up lockers, loading docks, web-based unit sizing tools, technical training programs and real-time inventory tracking, providing mechanical contractors and engineers with climate control systems, replacement parts and technical guidance to maintain stable indoor environments.	

Company Name	Description	Deal Synopsis
E2 Consulting Engineers	Provider of engineering, project management, environmental consulting, and utility infrastructure services designed for utility, transportation, environmental, and government-sector projects. The company provides engineering design, construction management, environmental planning, regulatory compliance, inspection, and technical consulting services, enabling infrastructure operators and public-sector organizations to efficiently develop, maintain, and modernize critical assets.	
ECHO Realty	Operator of retail real estate properties intended for grocery-anchored shopping, retail leasing, and commercial property management. The company offers property acquisition, development, leasing, asset management, redevelopment, and tenant relationship services, enabling retailers, grocery operators, and commercial tenants to access strategically located retail spaces and drive customer traffic.	The company was acquired by TPG, PSP Investments (Canada), La Caisse and Norges Bank Investment Management through a \$2 billion LBO on June 5, 2026. The transaction was supported by an undisclosed amount of debt financing.
Electrada	Provider of electric vehicle charging services intended to power commercial fleets. The company deploys and maintains electric vehicle (EV) charging stations in workplaces, residential and public places for drivers, property owners, developers, and employers, enabling commercial fleets to transition to electric vehicles without capital investment and with fixed energy costs.	
EMC Aerospace	Provider of aircraft component maintenance and repair services designed to support the operational reliability of aviation systems and equipment. The company offers component overhaul, inspection, testing, and repair capabilities across power generation, pneumatic, hydraulic, fuel, and related aircraft systems, enabling aviation operators and maintenance organizations to maintain airworthy components with dependable technical support.	
Entegee	Provider of engineering and technical staffing services intended for aerospace, defense, manufacturing, life sciences, and technology companies. The company's platform offers contract staffing, direct hire recruitment, workforce management, technical consulting, and talent acquisition services, enabling organizations to access qualified engineering and technical professionals for specialized projects and workforce needs.	

Company Name	Description	Deal Synopsis
Erdman Company	Provider of healthcare and senior living strategy, design and implementation services intended to build healthier communities. The company offers services including architectural design, engineering and construction as well as healthcare planning and management services, enabling patients to get access to healthcare facilities depending upon the analysis of the sub-problems from multiple perspectives.	
Euclid Design Underwriters	Provider of professional liability insurance underwriting services intended for architects and engineers. The company offers specialized errors and omissions coverage and managing general agency services, enabling design professionals to mitigate financial risks through tailored insurance policies and technical risk assessment.	
Evolve Steel	Provider of structural designing services intended to utilize the Integrated Project Delivery (IPD) workflow that allows concurrent design and construction activities. The company offers services such as steel detailing, design assist or pre-construction, estimating, project management, steel erection and other related services, thus helping owners and contractors with collaboration between the engineering and detailing teams by providing quantities early in the design and allowing early procurement and steel onsite.	
Executive Attorney Service	Provider of process serving services intended to deliver legal documents and court support. The company offers international service via the Hague Convention, matrimonial law specialization, court filings, document retrieval, legal research, and certified translations, enabling law firms to ensure legal documents are served in compliance with court timelines.	
Fabreeka	Manufacturer of shock-control materials catering to building and construction, energy, heavy equipment, industrial machinery, precision equipment, testing and transportation industry. The company offers pneumatic vibration isolation foam, bearing pads, structural thermal breaks, expansion bearings and related shock-control products which are optimally suited for low-frequency conditions, thereby helping clients to eliminate vibrations and absorption of impact shocks involved in industrial production and processes.	The company, a subsidiary of Stabilus, was acquired by The VMC Group, via its financial sponsors Bluestem Equity and Broadview Group Holdings, through a \$92 million LBO on June 29, 2026.
Fairborn Northeast	Provider of loading dock and industrial door services intended for commercial and industrial facilities. The company offers installation and maintenance of dock levelers and overhead doors, enabling warehouse operators to maintain safe, efficient material-handling environments.	

Company Name	Description	Deal Synopsis
Fairfax Software	Developer of an image and document processing software based in Tampa, Florida. The company develops document and image processing software that helps in tax remittance, image and electronic information retrieval and form processing, also offers system analysis, project management and operator and system administration services.	
Fee Navigator	Developer of a merchant statement analysis platform intended to accelerate commerce by increasing the trust and efficiency of the payment industry. The company's platform offers an enterprise-grade artificial intelligence-powered service that analyzes merchant statements, enabling acquirers, banks and technology providers to accelerate merchant acquisition and retention.	
Felgemacher Masonry & Chimney	Provider of chimney and fireplace installation, repair, cleaning and masonry services intended to maintain residential chimney systems and building safety. The company offers chimney cleaning, masonry repair, fireplace installation, roofing services and inspection work by certified technicians with industry certifications, enabling homeowners in the Buffalo and Rochester regions to maintain safe and functional heating and masonry structures.	
Fire Protection Specialists (Washington)	Distributor of fire alarm and extinguishing systems intended for commercial and industrial facilities. The company offers installation, service, and inspection of fire alarms, clean-agent fire suppression, automatic extinguishing, off-road fire suppression, industrial fire systems, and portable fire extinguishers, enabling clients to protect their properties against fire outbreaks.	
Fishbowl (Business/Productivity Software)	Developer of restaurant marketing and guest relationship management software designed to help restaurant operators unify customer data, automate marketing activities, and build customer loyalty. The company's platform combines customer data platform (CDP) capabilities, customer relationship management tools, loyalty program management, audience segmentation, campaign automation, personalized marketing, and guest analytics within a unified system that consolidates data from websites, mobile applications, reservations, and loyalty programs, enabling restaurant groups and independent restaurant operators to improve guest engagement, increase customer retention, and make data-driven marketing decisions.

The collection consists of an acclaimed roster of songwriters and producers whose work has contributed to a vast catalog of global hits, as well as compositions performed by artists.	
HAVEN Human Asset Ventures	Provider of human resources services intended to develop leadership and team performance. The company offers executive coaching, team coaching, hr advisory, leadership development programs, management training, and talent assessment, enabling biotech and tech organizations to improve leadership capabilities and align people strategies with business goals.	

Company Name	Description	Deal Synopsis
HBC Company	Provider of electrical contracting and engineering services intended for infrastructure development and electrical reliability. The company offers electrical engineering services, electrical installations, roadway lighting improvements, generator replacements, electrical infrastructure upgrades, and fiber-optic networking, enabling governmental agencies and manufacturing clients to complete complex electrical projects from pre-construction planning through project completion.	
HES Facilities Management	Provider of facilities management services focused on educational institutions. The company offers custodial, maintenance, cleaning, groundskeeping, and landscaping services, delivering clean, attractive, and safe learning environments, thereby creating tangible, long-term benefits for the clients, employees, and investors.	
Highland Tire & Auto Service (Highland Auto in Tennessee)	Portfolio of two Highland Tire & Auto Service locations in United States.	
Home Security & Management Company	Provider of wholesale alarm monitoring services intended to provide emergency monitoring and dispatch services. The company offers burglary alarm monitoring, fire alarm monitoring, environmental sensor monitoring, two-way audio verification, wholesale monitoring services, and scheduled system testing, enabling alarm dealers to receive emergency verification and dispatch coordination within seventeen seconds.	
HydroPoint (Commercial Services)	Provider of asset refurbishment services intended to serve the hydropower industry. The company offers services such as constructability review, field welding, reverse-engineering, cavitation repairs, demolition, material excavation, and more, enabling clients to address the feasibility and constructability of an intended design.	
HydroTech Environmental	Provider of environmental services intended to manage the transportation of sludge and non-sludge liquid waste. The company offers sludge hauling, non-sludge liquid waste transportation, wastewater hauling, municipal waste services, commercial liquid waste management, industrial environmental services, enabling municipal and industrial customers to manage non-hazardous liquid waste systems.	

Company Name	Description	Deal Synopsis
Hynes Plumbing Supply	Provider of plumbing, heating, ventilation, air conditioning, and water control product distribution services designed for construction and infrastructure project supply needs. The company offers an extensive inventory of piping products, septic systems, culverts, related supplies, job take-off support, and same-day delivery services, enabling clients to streamline procurement and keep projects on schedule through one-stop sourcing.	
Indiana Earth	Provider of excavation and site development services intended for municipalities and general contractors. The company provides demolition, road and highway construction, site preparation, utility installation, trucking, and snow removal services, enabling public-sector and commercial construction markets to complete infrastructure and development projects efficiently.	
Infinity Power Partners	Provider of energy management and consulting services intended to optimize procurement and risk strategies. The company offers energy procurement management, risk management, demand response programs, utility data management, sustainability consulting, and energy efficiency solutions, enabling commercial and industrial organizations to access real-time market data and reduce utility expenditures.	
Infrastructure Solutions Group (Other Commercial Services)	Provider of environmental equipment rental and sales intended for public works infrastructure. The company offers specialized utility equipment, including combination sewer cleaners, vacuum excavators, mechanical street sweepers, and pipeline inspection systems, alongside aftermarket original equipment manufacturer parts distribution, enabling regional municipalities and civil engineering contractors to maintain critical municipal infrastructure, maximize vehicle uptime, and optimize community cleaning operations with reliable localized technical support.	
INTELLYS	Provider of marketing technology services intended to optimize affiliate and performance-based advertising operations. The company offers centralized campaign management, partner tracking capabilities, and data-driven reporting tools, enabling digital advertisers and brands to manage partnerships efficiently and improve campaign performance.	
Interstate Threaded Products	Manufacturer of threaded fasteners intended for heavy construction and utility applications. The company offers custom fabrication and precision threading for anchor bolts, u-bolts, eye bolts, studs, and nuts, enabling industrial clients to secure infrastructure with specialized components.	

Company Name	Description	Deal Synopsis
Isdaner & Company	Provider of accounting services intended to help clients achieve financial objectives. The company offers accounting and auditing, business consulting, employee benefit plan audits, litigation support, tax services, and trust and estate services, providing closely held companies and high-net-worth families with financial guidance to achieve their business goals.	
Isolatek International	Manufacturer of commercial, medium, and high-density spray-applied fire-resistive materials intended for the steel construction industry and petrochemical facilities. The company specializes in high-rise products, commercial density products, fire-resistive materials, intumescent coatings, system components, and lightweight cementitious SFRMS, thereby enabling the industry with exceptional thermal performance, superior durability, and ease of application of fire-resistive products.	
J&G Lawn and Garden	Provider of landscaping services intended for property construction and maintenance. The company offers landscape design, lawn mowing, fence installation, water feature construction, pest control application, and garden renovations, enabling residential and commercial clients to enhance and preserve their outdoor environments.	
J&W Lumber	Distributor of lumber, decking, fencing, and outdoor building materials intended to support residential and commercial construction projects in Southern California. The company engages in supplying lumber, decking, fencing, siding, patio covers, and related building materials, specializing in outdoor construction products, custom milling, and building material distribution operations, enabling contractors, homeowners, manufacturers, and municipalities to support construction and property improvement activities.	
Jackson Wealth Management	Provider of wealth management services intended to help clients achieve financial freedom. The company utilizes active trend-following and tactical asset allocation through a coordinated approach involving financial planning, investment management, tax strategy, and estate planning, providing high-net-worth individuals with personalized strategies to support long-term financial goals.	

Company Name	Description	Deal Synopsis
JD Gonzalez CHB	Provider of customs brokerage services intended to support international trade and supply chain operations. The company offers customs brokerage, trade compliance services, international transportation, warehousing, logistics services, and supply chain consulting, enabling importers and exporters to navigate complex regulatory requirements and manage cross-border logistics through specialized expertise and operational resources.	
JDC Energy Services	Provider of energy engineering and construction management services intended to improve energy efficiency and infrastructure performance. The company offers energy audits, project management, design engineering, commissioning, and energy optimization services, enabling public and private sector organizations to reduce energy costs and enhance operational efficiency.	
JetBlue (13 Embraer E190 Airframes and 36 General Electric CF34-10E6 Engines)	A portfolio of airframes and General Electric engines based in the United States.	
Jimco Maintenance	Provider of equipment maintenance services intended for the retail and supermarket industries. The company offers shopping cart maintenance, rolling stock repair, pallet jack maintenance, scissor lift service, waste compactor maintenance, and replacement parts supply, enabling retail businesses to extend equipment life and improve customer safety.	
Joseph Tree Service	Provider of arborist and tree care services intended to professionalize urban forestry and maintain the long-term health of trees and landscapes. The company's services include tree removal, tree trimming, stump grinding, plant health care, commercial tree care programs, and urban forest management delivered by certified arborists and professionals using industry-standard practices, specialized equipment, and customized treatment plans, enabling residential and commercial property owners to maintain healthy trees, protect property value, and manage landscape risks safely and efficiently.	
JSC Systems	Provider of low-voltage systems integration services intended for life safety and security applications. The company offers fire alarm design, video surveillance, and emergency communication systems, enabling commercial, healthcare, and government organizations to protect personnel and assets through integrated technology and 24/7 technical support.	

Company Name	Description	Deal Synopsis
K&L Freight Management	Provider of logistics services intended to serve food, healthcare, manufacturing, and government industries. The company provides air freight, ocean freight, customs brokerage, warehousing, and transportation management services, enabling importers, exporters, and businesses to streamline international shipping operations and improve supply chain efficiency.	
Kalderos	Developer of medicine management platform intended to analyze the complex coordination of drug discount programs. The company's platform offers data management, provides clear and customizable views into the data available in the cloud with immediate access to targeted insights and offers claims verification, dispute resolution and discount monitoring, thereby enabling clients to get a streamlined process for communicating, verifying and payment.	
Kasisto	Operator of a virtual personal assistant platform designed to improve customer experiences in consumer mobile banking. The company's platform offers behavioral personalization, multi-agent coordination, analyzes spending patterns, upcoming bills, savings trajectory, and past travel expenses, and offers personalized insights, enabling financial institutions to engage and transact with customers through intelligent conversations.	
Keeping Current Matters	Operator of a real estate content platform intended to help property advisors educate and guide home buyers and sellers. The company's platform offers housing market insights, customizable content, marketing tools and educational resources, enabling real estate professionals to communicate market trends clearly and strengthen client relationships.	
Kelly Engineers	Provider of civil engineering and land surveying services intended for municipal and private development projects. The company utilizes robotic GPS equipment and computer-aided design software to deliver high-precision site planning and consulting, enabling municipalities and land developers to manage infrastructure through municipal engineering, land surveying, wastewater resource management, private land development consulting, site engineering, and civil engineering services.	

Company Name	Description	Deal Synopsis
Key Locations Outdoor (20 Static Billboards across Michigan and Indiana)	A portfolio of 20 static billboard faces located across Michigan and Indiana. The portfolio comprises billboards along Interstate 69 and U.S. Highway 131, two major transportation corridors that connect population centers, commercial districts, and distribution routes across southern Michigan and Northern Indiana and also includes a billboard along U.S. Highway 2 in Michigan's Upper Peninsula, providing exposure to travelers moving between Wisconsin and the Mackinac Bridge.	
King Bag & Manufacturing	Manufacturer of industrial sewn products designed for heavy-duty containment and protection. The company offers large and complex industrial sewn items, including bulk bags, tarps, equipment covers, dust collection filters, fabric hinges, and protective pads, enabling industrial and military clients to store and transport materials safely.	
Kirkman Engineering	Provider of construction and development consulting services intended to serve various development markets throughout Texas. The company offers civil engineering, feasibility research, site analysis, cost estimating, concept and site planning, preliminary platting, civil construction plans, construction contract reviews, and landscape services to builders.	
Kittleson Landscape	Provider of landscaping services intended to enhance outdoor living spaces. The company offers landscape architecture design, paver patio installation, retaining wall construction, water feature integration, shoreline stabilization, and seasonal property maintenance, enabling residential and commercial clients to improve property aesthetics and functionality.	
KLG Business Valuers & Forensic Accountants	Provider of business valuation and forensic accounting services intended to support financial analysis, dispute resolution, and litigation processes. The company's services include business valuation, forensic accounting, litigation , economic damage analysis, and expert witness testimony supported by investigative accounting techniques and financial analysis expertise, enabling attorneys, businesses, and individuals to resolve disputes, assess financial matters, and support legal proceedings.	

Company Name	Description	Deal Synopsis
KMK Consulting (Consulting Service)	Provider of business consulting services intended to improve the efficiency and effectiveness of your commercial analytics and sales operations. The company's teams will work with them to eliminate the complexities of your commercialization efforts and offer sound analysis to aid their decisions, also offering alternatives such as data management, data assessment, data warehouse, and master data management, enabling clients to get analytical support.

The company offers industrial-strength guards, in-rack protection systems, sidewall guards, and ceiling-mounted safety equipment, enabling facility managers and industrial operators to protect fire suppression infrastructure from physical damage across commercial and residential environments.	
SSH Real Estate	Operator of commercial property services designed for investment, brokerage, and facility management purposes. The company's platform includes tenant and landlord representation, multi-sector property acquisition, full-service building operations, financial reporting, and maintenance across office, industrial, and mixed-use assets, enabling real estate owners and institutional investors to manage portfolios with improved operational efficiency, market responsiveness, and long-term asset value.	
Star Electrical Services & General Supplies	Provider of electrical testing and high-voltage services intended for industrial and utility sectors. The company offers electrical acceptance and maintenance testing for substations, circuit breakers, and transformers, alongside Personal Protective Equipment certification and infrared thermography, enabling organizations to maintain power system reliability and comply with international electrical code standards.	
Stay Safe Traffic Control	Provider of traffic management services intended to ensure safety for workers and motorists in construction zones. The company offers flagging operations, lane closures, traffic shifts, equipment rentals, equipment sales, and safety planning, enabling construction companies to maintain secure work zones through certified technical supervision and specialized equipment.	
Stone Mountain Access Systems	Provider of scaffold access services intended to create safe working environments. The company offers professional engineering, erecting and dismantling, tie-back anchor installation, hoist repair, maintenance and reconditioning, and safety training, enabling commercial and industrial clients to execute projects at height with specialized equipment and technical support.	
Suds Brothers Express Car Wash	Operator of an express car wash facility intended for individual and fleet vehicle owners. The company offers automated tunnel washing, ceramic protection treatments, and unlimited monthly memberships, enabling customers to maintain vehicle cleanliness and surface integrity through advanced cleaning technology and self-service amenities.	

Company Name	Description	Deal Synopsis
Superior Building Services	Provider of HVAC services intended to maintain heating and cooling systems. The company offers boiler repair, chiller maintenance, cooling tower service, air handler repair, pumping system maintenance and rooftop unit service, providing commercial and industrial sectors with climate control and equipment efficiency.	
Superior Mobile Health	Provider of emergency and non-emergency medical transportation services intended to serve healthcare facilities and communities. The company offers basic life support, advanced life support, and critical care transport using specialized intensive care units and paratransit vehicles, enabling patients and hospitals to access timely emergency response, neonatal transfers, and accredited shuttle services for routine medical appointments and facility discharges.	
Superior Septic	Provider of residential and commercial septic services intended for property owners. The company offers septic tank pumping, drainfield repairs, and new system installations, enabling clients to maintain efficient wastewater management and prevent system failures through professional maintenance and 24-hour emergency response.	
Supreme NDT	Provider of nondestructive testing services intended to ensure the safety and compliance of materials. The company offers ultrasonic testing, radiographic testing, acoustic emission testing, eddy current testing, magnetic particle testing, and liquid penetrant testing, providing refineries and fabrication shops with inspection to verify the integrity of critical assets.	
Tallman Equipment	Distributor of tools, equipment, and related services intended for the construction and maintenance of electrical transmission and distribution infrastructure. The company offers equipment sales, rentals, repairs, and testing services, as well as the manufacturing of specialized components such as rope products and grounding systems, enabling utility and infrastructure markets to support safe and efficient field operations.	
Tank Wizards	Operator of a fuel tank cleaning and filtration company intended to improve the performance and reliability of the fuel systems that power communities, industries, and critical services. The company offers services such as fuel polishing, fuel system maintenance, backup power generators, flood control pumps, diesel-powered irrigation systems, bulk storage fuel systems, and more.	

Company Name	Description	Deal Synopsis
Taylor Electric	Operator of an electric utility construction and maintenance company intended to serve the needs of commercial and industrial sector clients. The company provides high-voltage transmission, underground distribution, maintenance, sub-transmission line, and overhead construction services, thereby helping people with products such as pulling equipment, fire extinguishers, and tools.	
Teleosoft	Developer of case management software designed for streamlining civil processes and court workflows. The company's technology provides centralized tools for civil process management, financial accountability tracking, legislative compliance support, online portals for e-filing, and automated deputy safety tools, enabling county sheriffs and courts to manage complex workflows through a secure digital platform.	
Televac South	Provider of sewer maintenance services intended to maintain storm drainage systems. The company utilizes closed-circuit television inspection, hydro excavating, vacuum services, root cutting, trenchless pipe repair, and sectional cured-in-place pipe technology, providing municipalities and engineering firms with a way to identify and resolve pipeline issues without extensive excavation.	
Terra Nova Technologies	Provider of materials handling design and consulting services catering to the mining and minerals processing, phosphate, waste, coal, aggregate, cement, and other bulk materials industries worldwide. The company's services include spare parts and equipment sourcing, expediting services, system debottlenecking, maintenance improvement programs, and operator training, providing customers with innovative and practical systems and services that are technologically advanced and maintain simplicity to make them work faster and cheaper.	
Tetrasolv Filtration	Manufacturer of industrial filtration systems intended for environmental, petrochemical, and municipal sectors. The company offers products such as liquid filtration, PFAS systems, activated carbon services, vessel exchanges, vapor filtration, and oil-water separators, enabling customers to improve environmental compliance and contaminant management.	

Company Name	Description	Deal Synopsis
The Carlyle Group (Knack RCM and EqualizeRCM)	Provider of healthcare revenue cycle management services intended to help healthcare providers optimize financial performance, improve operational efficiency, and focus on patient care. The company's services include medical coding, physician and durable medical equipment billing, credentialing, claims auditing, denial and accounts receivable management, staffing, strategic consulting, and healthcare information technology and analytics, providing hospitals, physician groups, clinics, and other healthcare organizations with streamlined revenue cycle operations that improve reimbursement outcomes, enhance productivity, and support operational efficiency while allowing providers to focus on patient care.	The company was acquired by The Carlyle Group through an LBO on June 5, 2026. The acquisition is part of a multi-assets transaction that includes two other companies, Knack RCM and Mammoth EqualizeRCM, with a collective round amount of \$600 million .
The Garage Automotive Solutions	Provider of auto repair and maintenance services intended to keep vehicles running smoothly. The company offers oil changes, brake repairs, engine diagnostics, transmission services, suspension work, and cooling system maintenance, enabling vehicle owners to maintain the reliability and performance of their automobiles.	
The Harloff Company	Manufacturer of medical carts designed for the organization and security of medical supplies and equipment. The company offers anesthesia carts, crash carts, medication cabinets, scope drying cabinets, isolation carts, and narcotics cabinets, enabling hospitals to utilize specialized carts and cabinets for secure medical supply storage.	
The Shops at Parkway Plaza	A 122,484 square feet grocery-anchored retail center located in El Cajon, California. The property benefits from a dense population base of more than 169,000 residents within three miles, daily foot traffic generated by the adjacent mall, and excellent visibility and access from Interstate 8 and the San Vicente Freeway, with over 260,000 vehicles per day combined.	The retail center was acquired by an unknown family office through a \$31.5 million LBO on June 5, 2026.
Tidewater Logistics	Provider of specialized logistics and operational services intended to serve the oil and gas industry. The company's services include direct and bulk storage trans-loading, terminal operations, last-mile logistics, full supply chain management, optimized alignment, and consolidated invoicing across all activities, helping clients to simplify the logistic management eliminating the excess cost and non-performing time.	The company was acquired by FTAI Infrastructure through an estimated \$45 million LBO on June 29, 2026. The transaction was supported by an undisclosed amount of debt financing.

Company Name	Description	Deal Synopsis
Total Safety Supplies & Solutions	Distributor of industrial safety equipment, tools, maintenance supplies, and related support services intended for industrial, utility, and energy sectors. The company provides procurement, inventory management, equipment rental, repair, calibration, and safety services through an integrated supply platform, enabling clients to streamline sourcing operations and maintain workplace safety and operational efficiency.	
Tower Cleaning Plus	Provider of water treatment services intended for commercial and industrial HVAC systems. The company offers cooling tower cleaning, boiler treatment, and legionella compliance management, enabling property managers and facility engineers to maintain safe and efficient water systems while meeting strict regulatory standards.	
Track Trading	Distributor of greenhouses designed for year-round protection and growing. The company offers greenhouses featuring heirloom-quality European craftsmanship, German-engineered polycarbonate walls, Belgian Victorian glass designs, British cedar wood frames, and sustainable headquarters operations, enabling residential gardeners to protect vegetation and extend growing seasons.	
USG Water Solutions	Provider of water asset management services intended to serve municipal and private water companies. The company offers asset management programs for water and wastewater infrastructure as well as maintenance services for water storage tanks, pipe networks and concrete structures in water and wastewater plants, thereby helping clients solve issues such as inadequate mixing within a storage tank, insufficient levels of chlorine residual in the distribution system and elevated levels of disinfection byproducts in distribution systems.	
Versado Training	Provider of life sciences learning and development services intended to improve workforce capability and performance. The company offers training programs, learning effectiveness assessments, change management methodologies, and customized digital learning resources, enabling pharmaceutical and biotechnology commercial teams to strengthen workforce readiness and improve field execution.	
Vertiport Simulations	The company is currently operating in stealth mode.	

Company Name	Description	Deal Synopsis
Vinli	Developer of a connectivity and mobility data intelligence platform designed for operational optimization and risk mitigation in the automotive sector. The company's platform synthesizes raw vehicle data from original equipment manufacturers, aftermarket devices, and driver behavior telematics, and utilizes a dedicated architecture to sift, organize, and correlate this information to generate concrete, actionable insights and predictive analytics, enabling fleet operators, insurance underwriters, and other mobility businesses to manage assets, assess driving risk, and develop new data-driven service offerings.	
Virtuosi League	Provider of leadership development and community experiences intended for chief marketing officers and senior marketing executives. The company offers immersive leadership programs, peer-level industry forums, and custom team workshops, enabling marketing leaders to strengthen strategic influence and navigate enterprise disruption through CEO-led education and elite community engagement.	
Vox Media	Operator of an online media publishing agency intended to support sustainable editorial and business practices and lead the responsible direction of the industry. The company owns and operates online portals in distinct vertical categories like technology, news forums, and an adult gaming community, enabling clients to have access to sports media and a network of fan-centric communities.	
Waldron H. Rand & Company	Provider of accounting services intended to help clients manage challenges and seize business opportunities. The company utilizes a collaborative service approach and partner-level attention, providing privately held businesses and individuals with accounting, auditing, tax compliance, business advisory, estate planning, and trust administration to sustain profitability and continuity.	
Walz & Krenzer	Manufacturer of flood barriers and watertight closures intended for critical infrastructure protection and flood risk management. The company offers flood barriers, watertight doors, airtight doors, watertight hatches, specialty closures, flip-up flood gates, sliding flood barriers, and inflatable gasket systems, enabling industrial facilities and municipal utilities to safeguard mission-critical assets through custom-engineered pressure-resistant closures and automated flood protection systems.	

Company Name	Description	Deal Synopsis
Waterfront Engineering	Provider of marine contracting and waterfront construction services designed for shoreline protection and waterfront property enhancement purposes. The company's platform provides seawall design and installation, docks, boat lifts, marine retaining walls, marinas, engineering services, and customized marine construction services, thereby enabling residential and commercial waterfront property owners to improve water access, protect against erosion, and enhance property value.	
WealthShield Partners	Provider of investment advisory services intended to protect and grow clients' wealth while expanding their businesses. The company specializes in business formation, asset management, retirement planning, company valuation, risk assessment and other related services, enabling advisors to achieve their operational needs and objectives of their business while mitigating future uncertainties effectively.	
Weddle & Sons	Provider of roofing services intended for residential and commercial property protection. The company offers roof replacement, roof repair, solar roof installation, seamless gutter installation, gutter guard installation, and commercial roofing systems, providing property owners with integrated exterior maintenance and renewable energy infrastructure.	
West Physics Consulting	Provider of diagnostic medical and health physics consulting and testing services intended to serve hospitals, imaging centers, and healthcare networks. The company offers consulting and testing services with a focus on solving complex regulatory challenges and diagnostic imaging problems, enabling clients with precise results and meeting industry standard requirements.	
Willakia Vineyard	A 484 acre pinot noir and chardonnay vineyard located in the northern side of Eola-Amity Hills in Portland, Oregon. The property is used as a grape vineyard, which are later processed to prepare wines and other alcoholic and non-alcoholic beverages by several wine producers.	
Wise Coatings Franchises	Provider of floor coating services intended for residential and commercial concrete surfaces. The company offers proprietary polyaspartic coatings that are flexible and resistant to yellowing, enabling property owners to protect and enhance garage, warehouse, and showroom floors with durable finishes.	

Company Name	Description	Deal Synopsis
World Distribution Services	Provider of third-party warehouse logistics services intended to optimize supply chain operations for businesses. The company's services include warehousing, distribution, container freight station (CFS) operations, cross-docking, transloading, inventory management, eCommerce fulfillment, and nationwide transportation, supported by an integrated warehouse management system with real-time inventory visibility and customized logistics capabilities, enabling manufacturers, retailers, importers, and distributors to improve inventory control, streamline product movement, and reduce supply chain costs.	
Worldwide Express	Provider of logistics services intended to offer reliable and cost-competitive shipping. The company offers services including small parcel shipping, less-than-truckload, full truckload, freight brokerage and air freight services, enabling small and medium-sized businesses to ship products around the world conveniently.	The company was acquired by Auctane, via its financial sponsors Neuberger Private Equity Partners and Thoma Bravo, through an \$5.09 billion LBO on June 1, 2026.
Wyco Services	Provider of material handling services intended to maintain automated cargo and baggage systems. The company offers emergency repair, preventative maintenance, system installation, security equipment integration, and passenger boarding bridge support, enabling airport and industrial facilities to optimize workflow and manage throughput.	
X Games (XC Park City Winter Club in United States)	Operator of a professional winter action sports team intended for league competition. The company offers athlete management and community engagement services, enabling sports fans to follow a dedicated roster of professional competitors through a season-long winter league format and local events.	
Yu & Associates	Provider of multi-disciplinary engineering consulting services intended for infrastructure and building projects. The company offers geotechnical, site civil, environmental, and hazardous materials engineering, enabling public agencies, developers, and architectural firms to design, investigate, and construct transportation, healthcare, educational, and land development projects through practical and regulation-compliant solutions.
