## Healthcare Deals for June 2026

| Company Name                       | Description                                                                                                                                                                                                                                                                                                                                                                                                                      | Deal Synopsis |
|------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
| ABC Medicare                       | Provider of Medicare consulting services intended to help individuals understand and enroll in health coverage options. The company offers independent plan comparison, doctor network verification, medication cost analysis, bilingual consultation, annual plan review, and enrollment assistance, enabling Medicare beneficiaries to identify and maintain health coverage that aligns with their medical needs and budgets. |               |
| Allegiant Experts                  | Provider of healthcare consulting services intended to navigate the complexities of medical coding, billing, and regulations. The company offers compliance auditing, fraud investigations, revenue cycle management, litigation support, contract dispute resolution, and coding education, enabling healthcare providers and attorneys to ensure regulatory compliance and realize accurate payment for services.              |               |
| Alliance Spine and Pain Management | Provider of interventional pain management services intended to serve patients with all kinds of pain. The company specializes in managing ambulatory surgery centers and multi-specialty and pain-management clinics offering from small, one-room, single-specialty ambulatory surgery centers to large, physician-hospital joint ventures, enabling its patients to get reliable treatment and care.                          |               |
| Arcos (Decision/Risk Analysis)     | Developer of blood navigator system designed to improve survivability. The company's device helps optimize fluid resuscitation for severe burn patients by providing hourly fluid therapy recommendations based on each patient's unique response to treatment, enabling physicians to achieve balanced transfusions.                                                                                                            |               |
| Atlas Clinical Research            | Operator of a therapeutically driven clinical research network intended to serve a broad population of patients across the United States. The company specializes in infectious disease, CNS, gastroenterology, cardiovascular, metabolic and general medicine, enabling patients with treatments that could improve their lives.                                                                                                |               |
| Audirie                            | Developer of AI-powered simulation software designed to help healthcare professionals practice high-stakes conversations. The company's technology utilizes conversational simulations, personalized assessment, and actionable feedback, enabling healthcare professionals to improve patient counseling and clinical communication skills.                                                                                     |               |

| Company Name                    | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Deal Synopsis |
|---------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
| BluHaven Health                 | Provider of ambulatory infusion therapy services designed for the administration of complex specialty treatments in an outpatient care setting. The company provides clinically supervised infusion services within an accessible, patient-focused environment and complements specialty pharmacy operations, enabling healthcare providers and patients to access treatment delivery and care coordination.                                                       |               |
| Children's Dental Care          | Provider of pediatric dental services intended to maintain oral health for children from infancy through their teenage years. The company offers dental examinations, teeth cleaning, dental sealants, fluoride treatments, dental fillings, and early orthodontic intervention, providing pediatric dentistry for children to ensure a positive dental experience and healthy smiles.                                                                             |               |
| Clinical Neuroscience Solutions | Provider of clinical research and trial management services intended for the pharmaceutical and biotechnology industries. The company offers patient recruitment, pharmacological data collection, and regulatory compliance management, enabling drug developers to bring new therapeutics to market through specialized multi-specialty research sites and proprietary clinical technology.                                                                      |               |
| ClinOhio Research Services      | Provider of clinical research services intended to serve pharmaceutical companies, healthcare providers, research sponsors and clinical trial participants. The company specializes in clinical trial management, protocol design, medical monitoring, clinical data management, medical writing, site identification and other services, thereby helping clients conduct ethical clinical studies and advance medical research.                                   |               |
| CMSPricer                       | Developer of a Medicare pricing and contract management software designed to help beneficiaries understand medical expenses. The company's repricing platform centralizes clinical, financial, and administrative processes to optimize and deliver the competitive edge that third-party administrators and payers require for cost-effective benefit administrations and also allows members and providers to communicate, share data, and connect in real-time. |               |

| Company Name     | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Deal Synopsis                                                                                                  |
|------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------|
| Cohero           | Developer of a case management and workflow software designed for coroners and medical examiners. The company's end-to-end system includes appraisals, market analysis reports, and maintenance facilities available via subscription and perpetual license options, and supports both on-premise and cloud hosting, enabling coroners and medical examiners to streamline case processing, improve reporting accuracy, and manage operations efficiently.                                             |                                                                                                                |
| Cooper Strategy  | Provider of healthcare savings optimization and compliance management services intended for eligible healthcare organizations participating in discounted pharmaceutical purchasing programs. The company supports savings capture, program administration, compliance oversight, and strategic advisory services, enabling hospitals and community health organizations to maximize financial benefits and reinvest resources into patient care, expanded services, and community health initiatives. |                                                                                                                |
| DCM BioServices  | Provider of laboratory automation maintenance and repair services intended to eliminate equipment downtime. The company offers laboratory automation repair, preventive maintenance, automation integration support, service contracts, technical support, and equipment configuration, enabling biotechnology and pharmaceutical organizations to maximize instrument uptime and protect their investments in laboratory automation.                                                                  |                                                                                                                |
| Deerfield Agency | Provider of healthcare marketing services intended for the pharmaceutical and biopharmaceutical sectors. The company offers multi-channel marketing, digital design, media buying and planning, integration, analytics and printing, thereby helping clients with the right marketing campaign to grow their brand.                                                                                                                                                                                    | The company was acquired by Martis Capital Management through an estimated \$280 million LBO on June 25, 2026. |
| GCANRx           | Greater Cannabis Co Inc is a clinical stage biopharmaceutical company focused on the development and commercialization of a pharma-grade therapeutic that reduces disruptive symptoms in patients suffering from neuropsychiatric disorders without the side effects of existing medications. The company is focused on developing new formulations around cannabinoid therapeutics.                                                                                                                   |                                                                                                                |

| Company Name                                 | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | Deal Synopsis |
|----------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
