ABEL TIRE DISPOSAL	Operator of undisclosed goods and services.	
Action Propane	Provider of propane delivery and installation services intended to serve residential and commercial customers in Central Texas. The company operates a walk-in propane cylinder and RV refill station, performs both above-ground and underground propane tank installations, and conducts certified propane system inspections, enabling clients to maintain a consistent fuel supply for home heating and appliances through scheduled route-based delivery services.	
Advanced Equipment and Services	Manufacturer of water purification equipment intended for industrial and commercial markets. The company offers reverse osmosis systems, seawater desalination plants, water softeners, dialysis water systems, ozone generators, and multimedia filters, enabling customers to access purified water through containerized modular units and advanced filtration technology.	

Company Name	Description	Deal Synopsis
Aegeus Inspection Solutions	Provider of non-destructive testing and inspection services intended for clients in the power and energy infrastructure, defense and aerospace sectors. The company offers various services, including industrial inspection, engineering, vendor surveillance, staff augmentation, rope access and other related services, enabling clients to get tailored inspection programs to meet cost reduction, performance enhancement and regulatory adherence objectives effectively.	
Aero Groundtek	Provider of landscaping services catering to the commercial sector. The company offers installation, maintenance, irrigation, and pest control services, enabling clients with customized landscaping at competitive prices.	
Allstate Appraisal	Provider of residential and commercial property appraisal services intended to support property valuation and financial decision-making. The company offers comprehensive valuation and specialized divorce appraisal services, enabling lenders, mortgage companies, law firms, private individuals, and other clients to obtain independent property valuations for lending, legal, and personal purposes.	
AlphaQ	Manufacturer of components and assemblies intended for the gas turbine and aerospace industries. The company specializes in tight tolerance machining, assembly and test of gearboxes, covers, housings, compressor cases, manifolds and other engine components, enabling customers to have custom manufactured parts as per their exact specifications and blueprints.	
Altman Air Conditioning	Provider of commercial HVAC and mechanical services intended to serve the South Florida market. The company operates as a certified and licensed mechanical contractor providing engineering design services, specializes in the installation and maintenance of complex thermal storage and custom glycol systems, and provides mechanical piping and welding, enabling clients to maintain operational continuity in complex commercial environments through specialized HVAC design and rapid repair services.	
Alumistar	Provider of aluminum sand-casting and foundry services intended to provide components for various products. The company offers aluminum sand-casting, raw castings, product development support, finishing services, and cast and machined aluminum products, providing manufacturers with custom components produced from aluminum ingots to meet specific requirements.	

Company Name	Description	Deal Synopsis
Amici Engineering Contractors	Provider of underground construction and civil contracting services intended to support infrastructure development for governmental and private sectors. The company offers underground utility installation, road construction, and horizontal directional drilling, providing earthwork, pump station construction, and box culvert installation, enabling local municipalities to execute complex infrastructure upgrades and manage large-diameter pipe installations in challenging environmental conditions.	
Arktos Environmental	Provider of environmental consulting and engineering services intended for industrial, commercial, and public sectors. The company specializes in environmental assessments, regulatory compliance support, site investigation, remediation planning, and sustainability-related consulting, thereby helping organizations manage environmental risks and meet operational requirements.	
ARRI Rental	Provider of motion picture equipment rental services intended to realize creative visions for film and program makers. The company offers digital cameras, cinema lenses, lighting fixtures, grip equipment, remote heads, and crane vehicles, providing the motion picture industry with proprietary technology and customized hardware configurations to facilitate professional content production.	
Artium Technologies (Software Development Applications)	Provider of software development services intended to build and deploy enterprise-grade agents. The company utilizes forward-deployed engineers, continuous alignment techniques and agentic software engineering methods to automate code generation, providing enterprises with secure agents that deliver measurable return on investment.	
Asphalt Express Enterprises	Provider of bulk liquid transportation and transloading services intended for the asphalt and energy industries. The company's services include tanker-truck hauling, rail-to-truck transfer, tank storage, and product blending, enabling hot-mix asphalt producers and crude oil suppliers to manage the logistics and inventory of industrial liquids at a rail-served terminal.	

Company Name	Description	Deal Synopsis
Asset Living	Operator of a third-party property management firm intended to foster thriving communities nationwide. The company's residential property management platform services include property management, asset management, receivership, and investment services, with a multitude of properties across the country in the multifamily, single-family home rentals, affordable housing, build-to-rent, active adult, and student housing divisions, helping clients explore new horizons, grow their capabilities, and turn challenges into opportunities.	The company was acquired by New Mountain Capital, Alberta Investment Management and Mr. Ryan McGrath through an LBO for an estimated \$2 billion in August 2026.
Astralis (Business/Productivity Software)	Developer of Salesforce consulting and customer relationship management software designed for high-tech, manufacturing, and life sciences organizations. The company's platform offers automated workflows, real-time data synchronization, modular dashboards, sales cloud configuration, and API integrations, enabling businesses to manage sales, marketing, and customer support activities within a centralized cloud environment.	
Atlantic Aviation FBO	Provider of a wide range of aircraft ground handling and corporate flight support services to the corporate and private jet segment of the general aviation industry. The company offers fuel and fuel-related services, de-icing, aircraft parking, hangar rental, ground transportation, catering and ramp space facilities services, thereby helping companies with aircraft maintenance.	
Atlantic Coast Landscape	Provider of landscape and hardscape design services intended to transform and maintain outdoor spaces. The company offers landscape management, mowing services, turf care, landscape design, hardscape installation, and water features, providing specialized property maintenance through route optimization software and organic herbicide applications.	
Attilius Technologies	Developer of a proprietary intelligence platform designed for national security applications. The company offers data intelligence solutions, analytic software, and end-to-end intelligence services, enabling the intelligence community and the Department of War to detect and respond to evolving threats through vertically integrated data collection and deployment.	
Aven International	Manufacturer of precision tools designed for optical inspection and assembly applications. The company offers microscopes, video inspection systems, digital cameras, lenses, illuminated magnifiers, and assembly tools, providing industrial manufacturing clients with equipment to perform detailed component analysis and technical assembly tasks.	

Company Name	Description	Deal Synopsis
Azimuth Renewables (188-MWp Cypress Pointe Solar Project in Texas)	188 MWp solar photovoltaic (PV) project located in Texas, United States. It will provide zero-emission electricity to the regional grid along with reliable clean energy in partnership with the local community.	
Baker Refrigeration Systems	Provider of full-service industrial refrigeration contract services intended to serve customers with innovative and effective refrigeration designs and installation tailored to their needs. The company specializes in emergency ammonia refrigeration service, renovations, installation, risk management, drafting, manufacturers parts and pumping out units, thereby enabling clients with maximized value for the price paid.	
Balda C. Brewer	Provider of plastic injection molding services intended for medical, diagnostic, life sciences, and industrial applications. The company offers precision injection molding, tooling, cleanroom manufacturing, assembly, and supply chain support, enabling original equipment manufacturers (OEMs) to efficiently manufacture high-quality plastic components and finished products.	
Barnett Millworks	Manufacturer and distributor of residential millwork products designed for residential construction and renovation. The company offers exterior doors, interior doors, windows, mouldings, stairparts and columns, providing local dealers with customized building materials and immediate shipping from an extensive stocked inventory.	
Barracuda Specialty Services	Provider of industrial inspection and asset management services intended to serve the pipeline, manufacturing, petrochemical, refinery, marine and fabrication industries. The company specializes in nondestructive testing, pipeline inspection, radiography, ultrasonic testing, visual inspection and other inspection services, thereby helping clients assess asset integrity, safety and quality.	
Bearings Enterprises	Distributor of industrial bearings designed for friction reduction and motion transfer. The company maintains a worldwide sourcing network and a technical resource library to provide ball bearings, roller bearings, super-precision bearings, mounted units, cam followers, and rod ends, enabling industrial manufacturing clients to access a global inventory of motion components for diverse mechanical applications.	

Company Name	Description	Deal Synopsis
Beeson & Associates	Provider of commodity risk management services intended to help organizations navigate complex markets. The company offers customized risk management and procurement strategies for agricultural and energy markets, including position reporting, volatility analysis and proprietary cost reporting software, enabling healthcare, manufacturing and education organizations to implement data-backed solutions to protect margins and manage volatile energy and ingredient costs.	
Big Yellow Enterprises	Provider of waste management and sanitation services intended for residential and commercial projects. The company's technology utilizes roll-off logistics and driveway-safe placement processes, providing homeowners and contractors with dumpster rentals and portable sanitation units to support construction and home renovation activities.	
Bilz Vibration Technology	Distributor and manufacturer of machine leveling and vibration isolation equipment intended to stabilize and precisely position industrial machinery. The company offers leveling feet, mounts, precision wedges, isolation pads, air springs, and vibration-isolated tables with maintenance-free designs and adjustable configurations, enabling manufacturers and industrial facilities to reduce vibration and structure-borne noise while maintaining accurate machine positioning.	
Black Fire & Security Services	Provider of fire and security services intended to serve businesses and homeowners. The company specializes in fire and security system installation, repair and replacement; access control; surveillance camera installation and repair; 24-hour monitoring; fire extinguisher inspections and active shooter training, thereby helping clients improve safety and protection.	
BOOMSLANG Aerospace	Developer of unmanned aerial systems and counter-uas technology designed for defense and security applications. The company's technology features modular counter-uas architecture, sensor fusion engines, frequency-modulated continuous wave radar, kinetic effector mechanisms, sonobuoy-launched deployment, and autonomous flight transition, built for the department of defense and federal government to detect, track, and neutralize unmanned aerial threats in contested environments	

Company Name	Description	Deal Synopsis
Boston Industries	Distributor of refurbished laboratory equipment designed for scientific research and analysis. The company operates a service facility to inspect, repair and test pre-owned scientific instruments, providing universities and hospitals with a diverse inventory of liquid handlers, microscopes and analyzers that meet functional standards while adhering to budgetary constraints.	
Boulter Industrial Contractors	Provider of industrial contracting services intended to serve manufacturing, healthcare, education, food and beverage, and other industrial customers. The company specializes in rigging, production line installation, steel fabrication, preventative maintenance, professional relocation and trucking, thereby helping customers move, install, maintain, transport and store heavy equipment.	
Brado (Digital and Insight Practices)	Provider of strategic market research and digital marketing services intended to serve Fortune 100 companies. The company utilizes a team of nontraditional strategists to uncover intimate understandings of consumer beliefs, employs a brief-centric approach for evaluation and optimization, and uses a component-based process for brand storytelling, enabling clients to identify the specific moments when an audience is most receptive to brand messaging through detailed journey mapping.	
Brookside Artist Management	Provider of artist management services aimed at supporting creative talent and building sustainable careers. The company focuses on developing artists into independent entrepreneurs through guidance in branding, career strategy and revenue expansion.	
Bryant Hammett & Associates	Provider of civil engineering and land surveying services intended to minimize the effects of natural disasters. The company offers civil engineering, land surveying, hazard mitigation planning, construction management, environmental consulting and cost estimating, providing governmental and private sector clients with disaster resilience and infrastructure services.	
Buckley Belcher & Company	Provider of elevator and escalator consulting services intended to enhance the design and operation of transportation systems. The company offers engineering expertise, elevator assessments, modernization planning, and operational advisory services, enabling commercial property owners, institutions, and public sector organizations to maintain reliable transportation infrastructure and improve system performance.	

Company Name	Description	Deal Synopsis
CaliberMind	Developer of a b2b marketing intelligence platform intended to provide deep customer journey insights and attribution modeling. The company's platform unifies marketing, sales, and revenue operations data, enabling enterprise revenue teams to measure marketing effectiveness, optimize lead generation, and identify high-impact channels through AI-driven attribution and account-based analytics.	
California Motor Controls	Manufacturer of pump controllers intended for municipal, commercial, and agricultural water applications. The company's systems combine level control, pressure booster, and well pump controls into touchscreen panels, providing standardized and custom motor control solutions for the water, wastewater, oil, gas, food, and beverage industries.	
CapFlo	Distributor of construction materials intended for the water and wastewater treatment industry. The company offers ductile and plastic pipes, storm drain systems, valves and valve automation, providing technical support through takeoff listings and value engineering to assist heavy civil and mechanical contractors with infrastructure projects.	
Capital Construction Services	Provider of disaster restoration and property remodeling services for residential and commercial buildings damaged by fire, water, or storms. The company offers emergency mitigation, structural drying, and full-scale reconstruction, providing property owners with specialized repairs and interior remodeling to return damaged structures to pre-loss condition.	
Carson+Doyle	Provider of creative marketing services intended to connect brands with younger consumer demographics. The company operates as a specialized agency staffed by members of the target demographic, utilizes a global network of creators across seven time zones, and provides specialized short-form video content production, enabling clients to develop marketing campaigns informed by direct generational consumer insights.	
CASM (Gilbert)	Provider of commercial refrigeration, heating, ventilation and air conditioning services intended to ensure functional refrigeration for businesses. The company specializes in light commercial refrigeration maintenance and repair, focusing on self-contained and small remote systems while performing electrical troubleshooting, mechanical system diagnostics, and refrigerant leak repairs in compliance with regulatory standards, providing retail and restaurant sectors with refrigeration maintenance, equipment repair, system installation, troubleshooting services, inspection services, and refrigerant charging.	

Company Name	Description	Deal Synopsis
Chateau San Jose Apartments	A 47-unit multifamily community in Northwest Fresno, United States.	The chateau san jose apartments were acquired by undisclosed investor through a \$8.15 million LBO in approximately August 2026.
Chemway (Environmental Services)	Provider of water treatment services intended to manage industrial and institutional water systems. The company develops, implements, and manages water management plans, performs onsite information gathering, utilizes customized procedures, and provides evidence-based recommendations, enabling industrial and institutional facilities to protect equipment investments and control operational costs.	
Citadel Roofing & Solar	Operator of a roofing and solar contracting firm intended to provide integrated energy solutions. The company offers solar panels, roofing systems, battery backups, inverters, mounting equipment, and electric vehicle chargers, providing homeowners and homebuilders with system design, installation, maintenance, and financing assistance, enabling clients to access renewable energy and energy storage solutions.	
Civil Infrastructure Associates	Provider of engineering and surveying services intended for water and wastewater infrastructure projects. The company offers site feasibility studies, utility design, and land surveying utilizing robotic total stations and drone lidar technology, enabling government and commercial clients to optimize and maintain community infrastructure through professional engineering and construction administration.	
Cloudco Entertainment (Care Bears Media Intellectual Property in United States)	The media intellectual property is located in the United States.	
CMC Business Systems	Provider of office equipment services intended to provide office equipment and document management solutions to businesses. The company operates as an authorized dealership for specialized office equipment, utilizes factory-trained technicians with industry-specific certifications, and provides document management and scanning technology, enabling clients to acquire professional office machinery through flexible rental and leasing agreements.	
Coast To Coast Contracting	Provider of commercial and healthcare construction services intended for businesses nationwide. The company offers project management, healthcare facility construction, and fabric shelter installation, enabling clients in the aviation, industrial, and medical sectors to deliver durable structures and renovated spaces through a streamlined turnkey process.	

Company Name	Description	Deal Synopsis
CoastTec	Provider of uninterruptible power supply reconditioning services intended to extend the life of power backup equipment. The company offers factory-certified refurbishment, repair, and recycling for uninterruptible power supply units, enabling business enterprises to maintain equipment fleets through advanced-exchange options, comprehensive protection plans, and technical recalibration that ensures units meet original engineering specifications.	
Coil Specialty Company	Manufacturer of custom miniature chokes and transformers designed for radio frequency and power applications. The company offers miniature chokes, inductors, power transformers, distribution transformers, isolation transformers, and autotransformers, enabling aerospace and industrial clients to convert through-hole designs into surface-mount alternatives.	
Comperemedia	Developer of a marketing intelligence platform designed to provide insights into competitive marketing strategies. The company's platform offers a daily insight engine and a historical data repository for tracking competitor spend, frequency, and volume across 13 marketing channels, enabling brands in the financial services and telecom sectors to identify market opportunities and optimize campaign performance.	
Comsec Associates	Provider of public safety compliance services intended to ensure reliable in-building radio communications for emergency personnel. The company offers third-party inspection, annual system testing, plan checking, system commissioning, troubleshooting, and interference elimination, providing commercial and government clients with unbiased assessments to verify building compliance with fire codes and prevent interference with public safety radio networks.	
Courtyard Shelton Hotel	Operator of a hotel located in Shelton, Connecticut. The hotel has 161 rooms with amenities such as car rental, on-site laundry, food delivery, mobility-accessible rooms, valet dry cleaning, a daily newspaper, and deposit boxes.	
Cozy Inn Pet Resort & Spa	Provider of pet care services intended to offer personalized wellness and boarding for companion animals. The company offers pet boarding, grooming, daycare, spa services, and access to a dog park, enabling pet owners to ensure the comfort, health, and social well-being of their animals in a safe and natural environment.	

Company Name	Description	Deal Synopsis
Crowe	Provider of accounting services intended to support public accounting, consulting and technology firms. The company offers accounting and consulting services such as audit and assurance, taxation, bankruptcy and insolvency consulting, forensic investigations, restructuring advisory, mergers and acquisitions, valuation services and risk management services, thereby enabling its customers to avail the solution for taking and implementing wise tax and financial decisions.	The company was acquired by Kohlberg Kravis Roberts through an estimated \$3 billion LBO on August 7, 2026.
CSC Of Salinas	Provider of hydraulic products and repair services intended for the agricultural and industrial sectors. The company offers hydraulic hoses, fittings, Parker-certified products, equipment maintenance expertise, and a broad inventory of industrial components, enabling agricultural producers and industrial operators to maintain equipment reliability and operational continuity.	
D.I.J. Construction	Provider of road marking and roadway maintenance services intended to serve roadway infrastructure across Texas. The company specializes in pavement markings, pavement marking removal, chip seal, thermoplastic road striping material manufacturing, and related roadway services, thereby helping clients maintain safe, durable, and clearly marked roadways.	
Dave's Garage Doors	Provider of garage door services for residential properties. The company provides door construction, track measurement and placement, panel installation, opener synchronization, system lubrication, and door balancing for residential homeowners.	
Diamond Expedited	Provider of expedited delivery services intended for time-sensitive transport. The company utilizes a dispatching system, mobile application communication, distance calculation software, driver screening, driver training and photo identification, providing the healthcare and e-commerce industries with immediate transport for urgent packages and secure delivery of sensitive materials.	
Dick's Roof Repair Service	Provider of residential and commercial roofing services intended to protect properties through roofing installations and repairs. The company offers residential roofing, commercial roofing, roof repair, roof replacement, gutter installation, and siding installation, providing GAF master elite certified installations and lifetime warranties for homeowners and commercial property owners.	

Company Name	Description	Deal Synopsis
DMR CPAs	Provider of accounting and advisory services intended to assist businesses and individuals with financial management. The company offers tax services, audit services, accounting services, payroll services, business consulting and advisory services, enabling clients in the construction, manufacturing and professional services sectors to manage financial compliance and operational requirements.	
Dowell Pest Control	Provider of pest management services intended to protect residential and commercial properties from infestations. The company offers termite inspections, residential pest control, and commercial treatments through customized monthly, quarterly, or one-time service plans, enabling property owners to eliminate unwanted pests and protect structures from wood-destroying insects without the requirement of long-term service contracts.	
Dukane	Manufacturer of advanced plastic welding and ultrasonic processing equipment. The company's systems incorporate patented ultrasonic, vibration, laser, infrared, and hot plate technologies, servo-controlled welding, melt-match capabilities, food cutting blades, and film processing tools, enabling industrial manufacturers to enhance production quality and operational efficiency.	
Dyna Scan Technical Services	Provider of infrared thermography and predictive maintenance services designed to increase the efficiency of electrical systems and protect assets. The company offers infrared thermography inspections, arc flash studies, energy management, electrical mapping, roof inspections, and predictive maintenance services, enabling hospitals and industrial plants to identify energy waste and prevent equipment failures through non-destructive testing and secure online reporting.	
eMedCert	Provider of medical certification services intended for healthcare professionals. The company offers ACLS certification, ACLS recertification, PALS certification, PALS recertification, BLS certification, and BLS recertification, enabling medical students and practitioners to earn accredited credentials through a self-paced online platform with 24/7 access and instant digital documentation.	

Company Name	Description	Deal Synopsis
Engage Fi	Provider of data-informed consulting services intended to serve credit unions and community banks. The company offers core banking advisory, payments consulting, and digital banking strategy along with vendor negotiation and technology assessment services, enabling financial institutions to optimize operational efficiency and maximize savings on technology contracts.	
Environmental Management Services (Rockville)	Provider of environmental management and waste disposal services intended for the life sciences and healthcare sectors. The company offers hazardous waste management, lab decontamination, chemical relocation, and environmental consulting, enabling research and medical facilities to maintain regulatory compliance and safety through specialized on-site staffing and waste minimization programs.	
Envision Technology Group	Provider of technology infrastructure and life-safety systems intended to serve commercial, institutional, and public-sector clients across local, regional, and national markets. The company specializes in the design and installation of structured cabling, fire alarm and life-safety systems, security systems, intercom and audio-visual systems and CATV/MATV systems, thereby enabling clients with code-compliant, professionally designed and installed technology and safety infrastructure	
Escape Fire Protection	Provider of repair and installation services intended for fire protection equipment intended to serve retail, office, warehouse, industrial, residential, sensitive computer applications, hi-rise, medical, municipal and technical occupancies. The company is a service-based contractor that specializes in existing construction, inspections, design and maintenance of all types of sprinkler systems, thereby assisting with fire protection for new construction.	
Factbird	Developer of a manufacturing intelligence platform designed to help manufacturers find and fix losses on the shop floor. The company's platform offers real-time visibility, downtime analytics, and live production dashboards, providing manufacturers with actionable insights to increase productivity and reduce waste.	
Fangman Associates	Provider of infrastructure advisory and energy consulting services intended to complete complex district energy and real estate projects. The company utilizes technical, operational, and financial perspectives to optimize project delivery and manage risks, providing public and private sector partners with strategic guidance to navigate challenges and make informed decisions throughout the project lifecycle.	

Company Name	Description	Deal Synopsis
Ferrovia Services	Provider of railroad vegetation management services intended for state departments of transportation, industrial railroad customers and utility providers. The company specializes in eco-friendly, environmentally safe vegetation management, preventative maintenance, dust control, inspection and abatement services, thereby helping clients to save time and money while allowing passengers and freight to be moved safely and efficiently across North America.	
FirstLight (U.S. Assets)	A portfolio of hydroelectric generation, energy storage, and renewable energy assets in Massachusetts, Connecticut, and Pennsylvania, United States. The portfolio includes the Allegheny Hydro portfolio and has an installed capacity of approximately 1.4 gigawatts, consisting of a mix of hydroelectric facilities, energy storage systems, and renewable energy infrastructure, and is connected to regional wholesale electricity markets and grid operators in the United States.	
Fisher Shipping	Provider of nationwide auto transport services intended to facilitate safe and timely vehicle delivery. The company offers open and enclosed vehicle transport, dealership transfers, corporate fleet relocation, personal vehicle shipping and specialty vehicle transport, providing automotive clients with door-to-door delivery through a managed carrier network and all-inclusive pricing.	
FlightServ (Fixed Base Operations At Trenton-Mercer Airport In Trenton, New Jersey)	Operator of a fixed-base operator facility intended to serve general and business aviation customers at Trenton-Mercer Airport in Trenton, New Jersey. The company specializes in 24/7 fueling, hangar services, ground handling, aircraft detailing, and passenger and crew amenities, thereby providing clients with a full-service aviation support facility in the New York metropolitan market.	
Foresight Planning & Engineering Services	Provider of consulting and engineering services intended for public infrastructure and transportation projects. The company offers transportation planning, geotechnical and structural engineering, project controls, and risk management, enabling public-sector agencies to develop and implement high-value infrastructure projects through specialized technical expertise and strategic project oversight.	

Company Name	Description	Deal Synopsis
Fortra Search	Operator of a retained executive search firm intended to find sales and business development leaders to fuel growth for client companies. The company offers retained executive search services, sales leadership placement, business development executive recruitment, executive-level talent acquisition, portfolio company hiring support and diverse team building services, providing a partners-only engagement model and over fifty years of combined operating experience for venture capital and private equity portfolio companies.	
Frank's Marina	Operator of a marina facility intended to serve recreational boaters and visitors on Lake Belton in Central Texas. The company specializes in slip rentals, boat rentals, fuel sales, and a marina store, thereby providing clients with a long-established, full-service boating destination and community gathering place on Lake Belton.	
Fulcrum Acoustic	Manufacturer of professional loudspeakers and digital signal processing systems designed for sound reinforcement. The company offers coaxial loudspeakers, immersive processors, and acoustic simulation software, enabling system designers to achieve precise pattern control and audio clarity through proprietary technologies like passive cardioid directional control and temporal equalization for stadiums, performance venues, and worship spaces.	
Gierke-Robinson	Distributor of light construction equipment intended to serve concrete and paving contractors. The company offers concrete preparation equipment, concrete placement tools, concrete finishing machinery, concrete sawing systems, concrete curing products and industrial pumps and mixers, enabling professional contractors to execute specialized construction projects.	
Gold Coast Valet	Provider of hospitality services intended to create luxury guest experiences. The company offers professional valet operations, guest services, parking management, and hospitality-focused staff, enabling hotels, restaurants, country clubs, residential properties, and event venues to deliver guest interactions and operational efficiency.	
Gold Landscape	Provider of landscape management services for homeowners' associations, multi-family properties, commercial properties, and individual homeowners in Northern Texas. The company offers landscape maintenance, irrigation, design and installation as well as drainage and erosion control services to customers.	

Company Name	Description	Deal Synopsis
Gray, Gray & Gray	Provider of accounting, tax, audit, and business advisory services intended to serve businesses across New England and beyond. The company provides consulting, audit and assurance, tax strategy and compliance, outsourced accounting, private wealth management, investment banking, transaction advisory, employee benefit plan audits, cybersecurity consulting, and strategic business planning services.	
Hainesport Transportation Group	Provider of waste logistics services intended for companies involved with solid waste streams. The company offers a wide range of cradle-to-grave disposal and recycling facilities for multiple waste streams through a transportation network coordinated with both truck and rail, enabling the waste management industry to reduce costs and improve efficiency.	
Halmar Boiler Parts	Manufacturer and distributor of replacement boiler parts intended to serve the industrial and commercial heating sectors. The company offers refractory tiles, gasket kits, fuel oil controllers, diffusers, blower motors, and safety relief valves, enabling boiler service companies to access precision-engineered aftermarket components and minimize equipment downtime through same-day shipping and extensive inventory availability.	
Helix Architecture + Design	Provider of architecture and interior design services intended to create interdisciplinary arts and health education environments. The company offers architecture, interior design, renovation, adaptive reuse, and historic preservation services, enabling clients in the academic, cultural, and workplace sectors to develop modern facilities through the transformation of historic buildings.	
Higgins Transport Service	Operator of an intermodal transportation agency intended to provide port drayage and freight logistics services. The company utilizes a fleet of owner-operator units and private chassis to handle various container sizes, providing steamship lines and railroads with customs-bonded transport, reefer drayage, and overweight hauling across regional ports.	
HKX	Manufacturer of auxiliary hydraulic kits and control-system solutions for excavators and other heavy equipment. The company offers engineered, install-ready kits and application-focused hydraulic, electro-hydraulic, and control-system solutions for construction equipment, providing clients with an engineering-centric business focused on install-ready kits that let machines run attachments.	

Company Name	Description	Deal Synopsis
Hocker Family Insurance	Provider of personal and commercial insurance services intended to protect individuals and businesses. The company offers auto, home, life, and business insurance through an independent agency model representing multiple carriers, enabling clients to access tailored coverage plans and professional risk management services.	
Houston Fire & Security	Provider of fire protection services intended to safeguard commercial, residential, and industrial properties. The company offers system design, professional installation, regular maintenance, system testing, evacuation procedure development, and safety training, enabling clients to protect lives and property through customized fire detection and suppression systems.	
Hulcher Services	Operator of a railroad service contracting platform designed to provide emergency response and maintenance. The company's technology utilizes specialized heavy equipment and a network of regional divisions, providing railroads and industrial clients with derailment clearing and track repair services to support operational safety and infrastructure reliability.	
Hull Street Energy (1,267 Megawatt of Peaking Capacity in Dixon, Illinois)	A portfolio of two peaking plants located in Dixon, Illinois.	Two power plants were acquired by Hull Street Energy through a \$675 million LBO on August 26, 2026.
Hussung Mechanical Contractors & HMC Service Company	Provider of commercial mechanical design, construction, and maintenance services catering to industrial/manufacturing, education, entertainment, hospitality, and healthcare sectors. The company offers mechanical design and construction, plumbing system installation, comprehensive service and maintenance, building automation integration, and industry-specific systems, enabling clients to maintain precise operations across diverse facility types.	
Hylomar	Manufacturer of sealants and adhesives designed for industrial and engineering applications. The company offers non-setting jointing compounds, silicone sealants, anaerobic adhesives, structural adhesives, sealing putties, and cleaning fluids, providing the transportation and aerospace sectors with materials for sealing engines and gearboxes.	
Ice Systems (Ice Machine Leasing and Subscription Division)	Provider of ice machine leasing and subscription services in Pennsylvania, United States.	

Company Name	Description	Deal Synopsis
Imagine Technology	Provider of managed technology services intended to support businesses across Arizona. The company offers document management systems, VoIP phone systems, multifunction devices, digital workspaces and managed IT services through a single point of contact, enabling streamlined office operations and improved technology efficiency.	
INCIN.ai	Provider of artificial intelligence advisory services intended to scale agentic systems. The company utilizes proprietary advisory and operator methodologies focused on workflow orchestration and data readiness, enabling enterprise organizations to implement AI readiness assessments, target operating model design, governance establishment, AI worker refinement, managed agent operations and AI orchestration services.	
Industrial Electronic Systems	Provider of electronic system services intended to serve commercial, institutional, healthcare, education, government, and other facilities. The company specializes in fire alarm systems, access control, security systems, video surveillance, sound and paging, and mass notification, thereby helping clients design, monitor, inspect, upgrade, and maintain their electronic systems.	The company was acquired by SFS Security Fire Systems, via its financial sponsors Blackford Capital and Prospect Capital Corporation BDC, through a \$24 million LBO on August 19, 2026.
INE	Provider of technical training services focused on networking, cyber security, cloud and data science domains. The company offers technical learning that includes advanced networking technologies, security and infrastructure programming and development, enabling information technology professionals to reach their goals with ease through a proven method of hands-on training experiences.	
INPAX Shipping Solutions	Provider of courier and freight services intended for businesses requiring time-sensitive delivery services. The company offers on-demand courier, scheduled route delivery, dedicated fleet services, and same-day freight transportation, enabling medical, financial, and industrial clients to manage last-mile logistics and time-critical shipments through specialized handling and certified drivers.	
Interactive Forums	Provider of strategic engagement services intended to connect life sciences organizations with key opinion leaders. The company offers specialized moderation, meeting facilitation, and post-meeting analysis, providing life sciences organizations with actionable insights from clinical experts to inform strategic planning.	

Company Name	Description	Deal Synopsis
Intercontinental Bearing Supply	Distributor of precision bearings designed for industrial machinery and aerospace systems. The company offers ball bearings, roller bearings, rod ends, bushings, spherical bearings, and miniature bearings, providing aerospace and robotics manufacturers with cleanroom relubrication services and inventory management programs to maintain operational reliability.	
Intrinsic Digital	Provider of location-based digital marketing services intended for the multifamily, hospitality, and retail sectors. The company utilizes proprietary geofencing technology and ai-driven creative services to deliver hyper-local advertising and streaming tv commercials, enabling businesses to target specific audiences based on where they live, work, and play.	
IPower Alliance	Provider of solar-integrated hail protection and renewable energy services intended to serve car dealerships, commercial, and nonprofit organizations. The company offers hail protection canopies, solar integration, energy storage, and electric vehicle chargers, providing clients with asset protection and renewable energy generation.	
Iron Horse Environmental	Provider of manufacturers' representation and technical support services intended for the water and wastewater treatment industry. The company offers equipment procurement, system design assistance, and installation coordination using genuine OEM and aftermarket components, enabling municipal and industrial facilities to maintain compliant operations through specialized solids handling, odor control, and disinfection solutions across Pennsylvania, New Jersey and Delaware.	
Jillson & Roberts	Manufacturer of gift packaging designed for environmental sustainability. The company utilizes recycled and FSC-certified materials, soy-based inks, and chlorine-free processes to produce wrapping paper rolls, gift bags, tissue paper packs, paper raffia ribbons, decorative mailers, and packaging accessories, providing retailers with fashion-oriented and eco-friendly merchandise to enhance consumer gifting experiences.	
JRI-TMI	Manufacturer of tools designed to use in validation and control of industrial processes. The company's tools and measurement systems include electronic data loggers for the control and validation of industrial processes, enabling industries to get accountable measurement accuracy and a series of application-driven software packages.	

Company Name	Description	Deal Synopsis
Key Collision (A Collision Repair Service Center in Southaven, Mississippi)	A collision repair service center in Southaven, Mississippi.	
Kingwire	Distributor of cable and wire products intended for the residential and commercial building wire markets. The company supplies aluminum building wire, bare aluminum, 600-volt UD, portable cord, extension cord and temporary lighting sets as well as service drop cables.	
Kleiss High Precision	Manufacturer of precision injection-molded components designed for complex and tight-tolerance applications. The company utilizes all-electric molding equipment, automated production cells, in-house toolmaking, coordinate measuring machines, and high-performance polymer expertise, providing the industrial and medical sectors with micro-molded parts, plastic gears, plungers, dosing chambers, nozzles, and injection-molded components to overcome complex design challenges.	
KREWE Anesthesia	Provider of anesthesia staffing services intended to connect healthcare facilities with qualified clinicians. The company offers prn shifts, temporary staffing, permanent placement, managed services, transition assistance, and functional optimization, enabling healthcare facilities to maintain consistent care delivery and operational stability through a nationwide network of vetted anesthesia providers.	
Lake Region Trailers	Manufacturer of custom trailers intended to serve the material handling and waste industries. The company offers roll-off trailers, pole trailers, reel trailers, tilt decks, snow plows, and salt spreaders, enabling commercial trucking and utility operators to acquire specialized hauling equipment and professional truck body installations.	
Lamart	Manufacturer of custom coatings and laminates designed for flexible substrates. The company offers pressure-sensitive tapes, aluminum foil tapes, copper foil tapes, lead foil tapes, stainless steel foil tapes, and shielding laminates, providing aerospace, automotive, and medical industries with specialized adhesive solutions for material bonding and surface protection.	
Lawn Butler	Provider of landscaping and snow removal services intended for commercial, retail, and hospitality markets among others. The company offers services including landscape maintenance, development, snow and ice removal, water management and tree care, thereby ensuring its clients keep the community green.	

Company Name	Description	Deal Synopsis
LEER Group	Manufacturer of truck caps and tonneaus based in Elkhart, Indiana. The company offers rolling tonneau covers, retractable tonneau covers, fiberglass tonneau covers, cab high truck caps, high-rise truck caps, commercial truck caps, and more.	
Legrande's Enterprises	Manufacturer of specialized lifting equipment designed to support HVAC maintenance and facility management for professional technicians. The company specializes in ladder cranes and compressor hoists, thereby helping professionals lift heavy tools, compressors, tanks, and equipment onto roofs while reducing trips up and down ladders.	
Lever1	Operator of a human resource outsourcing portal intended to provide administrative and management solutions for small business owners. The company offers various services such as recruiting, background checking, HR-related compliance, attendance tracking, retirement plans, and benefits management, thereby enabling business owners to cost-effectively outsource the management of human resources, payroll, employee benefits, and workers' compensation.	
Look Walls & Interiors	Manufacturer of custom wallcoverings designed for interior design and architectural applications. The company utilizes proprietary print technology to produce multi-dimensional surfaces with reflective accents and gold details, providing designers with fully customizable wallpaper options in specific sizes and textures that enable the transformation of commercial and residential walls into artistic installations.	
Lucky's Trailer Sales	Retailer of commercial trucks and trailers intended for the transportation and trucking industry. The company offers new and used trucks, dump trailers, flatbeds, transfer trailers, and vehicle parts, enabling fleet operators and truck drivers to acquire specialized equipment and access full-service repair and fabrication through its regional service centers.	
M Group Investment Advisor	Provider of wealth management services intended to help clients achieve investment goals. The company offers wealth management, investment strategies, portfolio management, and financial consultations, enabling clients to navigate their financial journey with confidence.	

Company Name	Description	Deal Synopsis
MAK Steel Services	Provider of steel fabrication and erection services intended for structural and ornamental construction projects. The company offers drafting, design, heavy structural steel fabrication, miscellaneous steel work, custom metalworking, and on-site erection, enabling construction contractors and commercial developers across the Midwest to execute building projects with tailored metal components.	
Massachusetts Central Railroad	Operator of a short-line railroad intended to provide rail freight transportation services. The company offers rail direct delivery, distribution operations, reload operations, transloading, rail-to-truck services, and warehousing, providing industrial customers with a method to transport commodities through a dedicated regional rail network and integrated material handling facilities.	
McMurray Technical Services	Provider of technical consulting services intended for highly regulated industries. The company offers instrument calibration, computer systems validation, thermal mapping, humidity mapping, metrology program development and automation programming, designed to ensure regulatory compliance and operational accuracy for pharmaceutical and biotechnology clients.	
Merrimack River Estate	A French-inspired manor base in Tyngsborough, Massachusetts. It comprises four event spaces, on-site guest lodging, and full-service planning, all under one roof.	
Michigan CFO Associates	Provider of fractional CFO services intended to support small and medium-sized businesses. The company offers virtual and in-person financial leadership, providing financial planning, cash flow optimization, and operational process improvements to enable entrepreneurs to transform decision-making from reactionary to intentional and achieve healthy business growth.	
MJ Systems	Distributor of industrial equipment intended for chemical injection and fluid handling applications. The company offers metering pumps, process pumps, flow meters, pulsation dampeners, filtration equipment, engineering, installation, and maintenance services, and more, enabling upstream, midstream, and downstream industrial operators to achieve fluid handling under pressure conditions.	

Company Name	Description	Deal Synopsis
Mobile Bay Financial Services	Provider of retirement planning and wealth management services intended for retirement lifestyle fulfillment and financial security. The company offers retirement planning, wealth management, financial advisory, investment strategies, protection products and legacy planning, providing families with personalized financial blueprints and a proprietary process to help them build and protect their wealth.	
Monticciolo Family and Sedation Dentistry (Portfolio of Nine Practices across Tampa Bay Region)	A portfolio of nine dental practice assets across the Tampa Bay region of Florida.	
Myers Tire Supply	Distributor of tire supplies catering to auto dealers, fleet supplies, government, and schools, retreaders, and tire dealers. The company offers tire supplies, valve hardware, patches, changers, tools, back shop supplies, balancers, lifts, alignment systems, air compressors, wheel service equipment, repair products, sealants, lubricants, valve stems, and oil service products, thereby helping customers with product selection, application guidance, and troubleshooting production challenges.	The company, a subsidiary of Myers Industries, was acquired by Lion Equity Investment Advisors through a \$30 million LBO on August 31, 2026.
National Fire & Life Safety	Provider of fire protection and life safety services intended for commercial and industrial environments. The company offers fire sprinkler systems, fire alarm systems, fire extinguishers, suppression systems, alarm monitoring, and emergency services, providing businesses with expert design, installation, and maintenance to ensure safety code compliance.	
National Performance Warehouse	Distributor of parts and components intended to serve the automotive sector. The company offers traditional, performance-related heavy-duty components with cutoff times, online ordering, and drop-ship fulfillment, enabling clients to place orders at almost any time of day while still receiving next-day service.	
NexPoint Materials	Provider of engineering thermoplastics services across Europe and the Americas. The company offers polycarbonate resin production, acrylonitrile butadiene styrene resin and compound manufacturing, and polybutylene terephthalate resin and compound manufacturing.	The company, a subsidiary of Saudi Basic Industries, was acquired by Mutares through a \$450 million LBO on August 3, 2026.

Company Name	Description	Deal Synopsis
Nonwovens Industry	Provider of trade publishing and information services intended for the global nonwovens industry. The company offers a trade magazine, industry news, technical data sheets, advertising space, event promotion, and a supplier directory, providing global industry news and technical information for nonwoven materials manufacturers and hygiene product suppliers to stay informed about market developments and access supplier documentation.	
NORESCO	Provider of integrated energy consulting services intended to serve healthcare, government, wastewater, education and other markets. The company specializes in the design, construction, financing and operation of environmental efficiency projects, thereby helping clients adapt to and mitigate the impacts of climate change by decarbonizing and electrifying aging infrastructure to be sustainable and resilient.	
NRVTA	Operator of a vocational training academy intended to serve the recreational vehicle industry. The company offers RV service technician training, RV inspector training, RV fundamentals courses, solar and generator technician training, and technical certifications, enabling aspiring professionals and RV owners to develop practical repair, maintenance, and diagnostic skills through hands-on instruction.	
NutriScience Innovations	Distributor of specialty nutritional ingredients intended to help manufacturers develop science-backed health and wellness products. The company's ingredients include branded nutraceutical ingredients, specialty raw materials, formulation support, technical and regulatory assistance, global sourcing, and supply chain services, utilizing exclusive manufacturing partnerships, clinically supported ingredients, and formulation expertise to provide dietary supplement, functional food and beverage, pharmaceutical, animal health, and personal care manufacturers with innovative ingredient solutions for new product development.	
O&A Landscaping	Provider of landscaping services intended for commercial properties. The company offers landscape design, installation, and maintenance, enabling property owners to enhance aesthetic appeal and property value through lawn care, arbor services, irrigation repairs, and hardscape construction.	

Company Name	Description	Deal Synopsis
Octex	Manufacturer of technically complex plastic parts designed for markets. The company utilizes a data-driven scientific injection molding methodology and an in-house metrology branch to optimize manufacturing processes in real-time, enabling medical and electronics firms to receive high-precision components with minimal variability and zero defects.	
OptionMetrics	Developer of historical options data and analytics products platform designed for institutional investors, risk managers, and academic researchers. The company offers products to construct and test investment strategies, perform empirical research, and assess risk, enabling portfolio managers, traders, and quantitative researchers to make informed, improved, and profitable investment decisions.	
Orangeburg Fiber (A Portfolio of Fiber-Optic Network Assets in Orangeburg, South Carolina)	A portfolio of fiber-optic network assets in Orangeburg, South Carolina.	
Ozark Mountain Propane	Provider of propane distribution and installation services intended to serve residential, commercial, industrial, and agricultural customers. The company operates six full-service offices to manage regional energy distribution, maintains over six hundred cylinder exchange locations for portable energy needs, and provides full-service refueling and tank installation, enabling clients to maintain a reliable energy supply for home and business operations through a regional network of full-service offices.	
Panoche Energy Center	A 427-megawatt natural gas-fired simple-cycle generating facility located in Firebaugh, California. The facility uses heavy-duty aero-derivative gas turbine technology with its 4 GE LMS100 combustion turbines.	The power plant was acquired by Middle River Power, via its financial sponsor Partners Group, through an LBO on August 14, 2026 for an undisclosed amount.
Paradigm HSE	Provider of safety management services intended to improve workplace safety and productivity. The company offers safety management, technical services, and equipment distribution, providing turnkey safety support to industrial organizations, enabling them to create safer and more productive work environments.	
Paramount Placement	Provider of recruitment and talent sourcing services intended to alleviate hiring challenges for businesses. The company utilizes a network of over three hundred thousand candidates and a performance-based fee structure, providing employers with skilled labor, healthcare, and professional services recruitment that reduces time-to-hire and mitigates financial risk through a guarantee-backed placement model.	

Company Name	Description	Deal Synopsis
Parr Public Safety Equipment	Operator of emergency vehicle equipment and repair services based in Galloway, Ohio. The company offers a range of products, including lighting equipment, console equipment, police uniforms, K9 products, and vehicle accessories, installation and servicing, radar certification, upfitting, graphics and tint, and automotive services.	
PaveMasters	Operator of a paving company intended to provide asphalt paving and maintenance services. The company offers asphalt paving, seal coating, and pavement repair services, enabling residential and commercial clients to maintain durable and safe surfaces through a centralized network of contractors.	
Pax Environmental	Provider of environmental consulting services intended to assist with infrastructure projects and regulatory compliance. The company offers ecological restoration, biological monitoring, archaeological surveying, water quality analysis, environmental regulatory permitting and GIS drone services, enabling clients to complete complex infrastructure and development projects in compliance with environmental standards.	
Pegasus Supply Group	Distributor of industrial products designed for wire management and automotive power applications. The company offers cable ties, heat-shrink tubing, mounting bases, wire connectors, cable clamps, and wire harnesses, enabling automotive and industrial customers to maintain and repair electrical systems.	
Peterson Structural Engineers	Provider of structural engineering services intended to support municipal and commercial infrastructure projects. The company offers structural analysis, seismic strengthening, foundation design, building evaluation, renovation design, and forensic engineering, enabling municipal and commercial clients to ensure the safety and integrity of infrastructure in high seismic and high wind zone regions.	
Phillips Fire & Life Safety	Provider of fire protection services intended to protect lives and property. The company offers fire extinguishers, kitchen suppression systems, fire alarms, sprinkler systems, security products, and co2 systems, enabling commercial and industrial clients to maintain fire suppression equipment and access specialized life safety professionals through a national service platform.	

Company Name	Description	Deal Synopsis
Pindler	Manufacturer of decorative fabrics and trims intended to serve the interior design industry. The company operates a specialized quick-ship program, maintains an extensive library of unique textiles, and utilizes advanced performance fabric technologies, enabling clients to access a vast global collection of exclusive textiles and trims to create customized interior environments.	
Pixel Health	Provider of technology consulting and managed services intended for the healthcare industry. The company utilizes a human-centered design approach to assess, implement, and manage technology infrastructure, including network virtualization and hyperconverged architecture, enabling health systems to optimize clinical workflows, improve patient engagement, and enhance overall operational efficiency.	
Pneumatic Cylinders & Couplers	Manufacturer of aluminum and stainless steel pneumatic cylinders intended for industrial automation. The company utilizes NFPA tie rod construction, precision machining and hard coat anodizing, providing aluminum cylinders, corrosion-resistant stainless steel cylinders, repairable round body cylinders, non-rotating dual rod cylinders, air-oil tanks and mounting accessories to industrial clients seeking reliable motion control solutions.	
Powell Electric	Provider of electrical services intended for residential and commercial properties. The company offers electrical troubleshooting, same-day repairs, lighting installation, panel upgrades, EV charger installation, and whole-home generators, enabling clients to maintain safe and functional electrical systems through professional maintenance and emergency support.	
Powers of Oklahoma and Mississippi/Louisiana	Provider of building automation and HVAC services intended to improve building performance and occupant comfort. The company offers building automation controls, HVAC equipment installation, mechanical service, air distribution balancing, and energy management, enabling commercial and industrial clients to optimize energy consumption and access national-scale managed services for mission-critical facilities.	
Priority Dispatch	Operator of a transportation and logistics company intended to provide same-day and next-day delivery services. The company offers on-demand delivery, scheduled delivery, out-of-town delivery, and after-hours delivery services, providing reliable logistics services for healthcare, parts, e-commerce, and government sectors to meet critical delivery requirements.	

Company Name	Description	Deal Synopsis
Priority Systems	Provider of fire, security and special system services intended to ensure the safety of residential and commercial properties. The company offers system installation, maintenance, inspection and alarm monitoring services, providing clients with certified technical expertise to maintain property safety and security.	
Pro-Vigil	Provider of remote video surveillance and monitoring services for large outdoor properties. The company provides both on-premise and mobile intelligent video monitoring systems and remote monitoring services by combining equipment with human monitoring to car dealerships, construction sites, utilities as well as oil and gas companies.	
ProCure Heating & Air	Provider of HVAC services intended to serve residential homeowners. The company offers air conditioning repair, furnace installation, heat pump replacement, seasonal tune-ups, heater repair, and residential maintenance, featuring licensed technician background checks, streamlined online booking, multi-option solution guarantees, seasonal maintenance plans, and modern diagnostic tools to restore indoor comfort.	
ProHome Metro DC	Provider of warranty management services intended to serve residential builders and developers. The company utilizes a proprietary platform for real-time tracking and reporting, provides twenty-four-seven emergency support for residential unit owners, and conducts detailed punch walks and verified back walks during turnover, enabling clients to outsource reactive warranty claims and homeowner communication to maintain internal focus on construction delivery.	
Prospectus	Developer of an outplacement platform designed to provide career transition support and labor market intelligence. The company's platform utilizes live labor market data to generate demand-validated career pathways and real-time return-on-investment dashboards, enabling enterprise employers to facilitate faster employee placement while protecting brand reputation.	
Provisio (Accounting, Audit and Tax Services)	Provider of accounting and business services intended for the senior living industry. The company offers accounting, financial reporting, technology and systems integration, business office management, fractional chief financial officer, compliance reporting and other services, enabling senior living operators, owners and developers to streamline financial operations, improve business management and make informed business decisions.	

Company Name	Description	Deal Synopsis
Pure Clean Systems	Provider of passivation and high-purity cleaning services intended for industrial stainless steel applications. The company offers chemical cleaning, citric acid passivation, orbital welding, custom fabrication, boroscopying, and technical testing, enabling pharmaceutical and aerospace clients to maintain validated piping and storage systems.	
R. Michael Brown	Provider of marketing, public relations and communication consulting services intended to enhance brand visibility and customer engagement. The company offers culting, public relations services, brand identity development, content marketing, digital advertising and search engine marketing, providing integrated planning and storytelling capabilities to help businesses increase leads and sales.	The company was acquired by Prudent Growth Partners through a \$3.7 million LBO on August 14, 2026.
Radwick & Lightle	Provider of employee benefit services intended to simplify benefits management and optimize plan designs for businesses. The company offers benefits strategy, plan design, and hr advisory services, providing portal implementation and administrative support for small and mid-sized businesses.	
Rail Modal Group	Provider of intermodal rail services intended to facilitate international markets for American producers. The company offers shipping, freight, export and import, drayage, and supply chain management services, enabling its customers with timely logistics services that have reduced emissions impact.	
ReadyLIFT Suspensions	Manufacturer of leveling, mild, and complete 'big' lift kit systems intended to improve the stance, ride quality, handling, and load stability of vehicles. The company's suspension products focus on key features like ride, handling, turning circle, bump steer, reliability, and durability, enabling truck and other vehicle owners to be able to "level" their vehicle in order to install plus-size wheels and tires.	
Relevate Health Group	Provider of omnichannel marketing and data analytics services intended to drive engagement with healthcare providers and improve clinical decisions. The company offers proprietary data analytics, machine learning-driven multichannel marketing, medical video games for behavior change, electronic health record targeting, key opinion leader content, access and health system strategies, providing pharmaceutical and biotechnology companies with personalized outreach to improve brand engagement.	

Company Name	Description	Deal Synopsis
Resodyn	Operator of a research and development firm with a focus on engineering and design. The company specializes in high-displacement acoustic fields for mixing, processing, material testing and underground extraction technologies, increasing the availability of certain strategic materials, powder coating and surface protection, chemical and materials engineering and other related services, helping clients to solve technical problems, achieve business goals and boost profits.	
Revenew International	Provider of cost recovery and cost containment services intended to uncover financial value for enterprise organizations. The company offers contract compliance, supplier payment review, and performance improvement services, enabling clients in the energy and utility sectors to recover overbilled amounts and uncollected credits through proprietary automation software, gainIQ analytics, and a technology-enabled delivery model.	
Rich Feuer Anderson	Provider of government affairs and policy advisory services intended to help clients navigate regulatory and political environments. The company offers government affairs strategies, advocacy services, regulatory engagement, legislative analysis, reputational risk management, and coalition building, enabling clients in the financial services, technology, energy, and tax sectors to navigate complex legislative and regulatory environments through bipartisan expertise and actionable intelligence.	
River City Sprinklers	Provider of fire protection services intended to ensure building safety and regulatory compliance. The company utilizes licensed technicians and in-house fire protection engineering to deliver 3d cad design coordination, nitrogen corrosion control, and 24/7 emergency response, providing commercial and industrial sectors with fire sprinkler systems, fire pump systems, backflow prevention devices, fire extinguishers, fire alarm systems, and special hazards systems to maintain building safety and achieve regulatory compliance.	
Ryan Family Amusements	Operator of family entertainment centers intended to provide recreational activities. The company operates entertainment venues and provides route operations through arcade gaming, candlepin bowling, axe throwing, laser tag, and virtual reality, enabling families and commercial partners to access managed recreational equipment and technical maintenance services.	

Company Name	Description	Deal Synopsis
Scarsdale Security Systems	Provider of security monitoring services intended for commercial and residential properties. The company's technology facilitates remote access control and video alarm verification, enabling retail stores and government facilities to monitor intruder, fire, and smoke alarms; video surveillance systems; access control systems; environmental hazard monitoring; and virtual concierge and remote doorman services.	
Security Pest Elimination	Provider of pest management services intended to eliminate structural and environmental infestations. The company offers termite elimination, carpenter ant control, bed bug extermination, rodent exclusion, bat removal and tick spraying, enabling residential and commercial property owners to maintain pest-free environments through specialized treatment and prevention programs.	
SenSource Global Sourcing	Provider of global sourcing and supply chain management services intended for original equipment manufacturers. The company offers end-to-end support for engineered components including gears, machined shafts and castings, utilizing in-country teams in China, Taiwan and India to enable manufacturing companies to optimize product development, quality control and international logistics.	
ServerLIFT	Manufacturer of material handling and lifting equipment intended for critical IT infrastructure in the data center, electronics manufacturing, communications, technology, and other end-markets. The company's devices make the physical handling of rack-mounted IT equipment that can be used to transport, position, install, or deliver optimal value, moving seamlessly across floors including raised tiles and cord protectors, enabling companies to relocate equipment safely and efficiently.	
ServiceMaster Restoration Services by KRS	Provider of disaster restoration services intended to restore properties after water, fire, or mold damage. The company offers a five-step restoration process and utilizes specialized technology for mold removal, providing residential and commercial clients with water mitigation, fire restoration, smoke cleanup, property reconstruction, and vandalism cleanup to facilitate property recovery after emergency events.	

Company Name	Description	Deal Synopsis
Sherwood Design Engineers	Provider of civil engineering services intended to promote systemic change through sustainable infrastructure. The company offers engineering and design services across sustainable infrastructure, water resources, ecological systems, urban development, resilient infrastructure, and innovative water and wastewater systems, providing government and private clients with solutions that integrate natural systems into the built environment.	
Sherwood Partners	Provider of restructuring advisory services intended to assist businesses during financial transitions. The company offers assignments for the benefit of creditors, receiverships, liquidating trust oversight, Article 9 foreclosures, managed liquidations, and intellectual property monetization, enabling organizations in the technology and finance sectors to manage asset recovery and stabilize operations during periods of instability.	
Signature Engineered Solutions	Distributor of engineered fasteners designed for product assembly efficiency. The company offers self-retaining nuts, metal clips, plastic solutions, hose products, rivets and inserts, providing original equipment manufacturers with fastening methods to reduce labor requirements and improve assembly efficiency.	
Silverstrand Technologies	Provider of security and technology installation services intended to serve commercial, residential, and government sectors. The company utilizes specialized security cameras equipped with advanced software to assess movement, provides twenty-four-hour remote monitoring services, and offers a unique combination of sophisticated equipment and technical knowledge, enabling clients to protect commercial and residential properties through integrated surveillance and alarm systems that provide real-time alerts and law enforcement coordination.	
Sketchfab	Developer of a 3D content platform designed to publish, share, and discover digital assets. The company's platform provides a web-based viewer with augmented reality and virtual reality support, enabling creators and organizations to showcase 3d models across mobile and desktop browsers.	

Company Name	Description	Deal Synopsis
Skyplace FBO	Provider of aviation services intended to support flight operations. The company offers on-site customs processing, twenty-four seven fuel service, part one hundred forty five repair station, full ground support, avionics inspections, and comprehensive aircraft maintenance, enabling the general aviation market to access specialized aircraft support and continuous fueling for flight operations.	
Skyrise Engineering and Testing	Provider of engineering consulting services intended to facilitate the development of private and public infrastructure projects. The company offers advanced material quality assessment techniques, field testing and laboratory analysis, enabling infrastructure projects to identify soil composition challenges and verify building code compliance.	
Smittybilt	Manufacturer of tubular accessory products for the light truck market. The company offers tubular steps, brush guards, bumpers, and Nerf bars.	
Starborn Industries	Manufacturer of fastening solutions intended for the decking and construction industries. The company specializes in proprietary fastening technologies, including color-coated stainless steel screws and patented pre-drilling tools, featuring comprehensive installation systems that integrate specialized tools and hidden plugs, providing deck screws, structural fasteners, and fascia systems to improve the stability and finish of outdoor structures.	
Steeplechase Advisors	Provider of turnaround and restructuring advisory services intended to support middle market businesses during financial transitions. The company offers turnaround consulting, restructuring advisory, transaction advisory, interim management, liquidity analysis, and litigation support, enabling stakeholders and middle market companies to navigate complex reorganizations, execute operational turnarounds, and manage distressed financial situations both inside and outside of court processes.	
Stella Energy Solutions (200 MW / 800 MWh Battery Energy Storage Project in the United States)	200 MW / 800 MWh Battery Energy Storage Project in the United States. The Four-Hour Battery Energy Storage System Will Utilize Eos Z3 Long-Duration Battery Systems and Is Designed To Support Utility-Scale Energy Storage Operations.	
Strategic Properties	Provider of property development and management services based in Miami, Florida. The company develops multifamily real estate projects to provide comfortable, accessible, and thoughtfully planned living environments for a diverse resident base.	

Company Name	Description	Deal Synopsis
Sturbridge Metallurgical Services	Provider of materials testing and metallurgical analysis services intended for high-stakes manufacturing sectors. The company offers failure analysis, mechanical testing, chemical analysis, and laboratory equipment retail, enabling professionals in the aerospace, medical, and defense industries to access certified component validation and specialized metallographic supplies.	
Subcomm Pools	Provider of swimming pool services intended for residential and commercial properties. The company offers pool maintenance, repair, renovation, liner installation, seasonal servicing, and outdoor living enhancements, enabling homeowners and commercial property operators to preserve pool functionality and maintain attractive recreational environments.	
Subsurface Construction Company	Provider of excavation shoring construction and micropiles contracting services serving North Carolina, South Carolina, Virginia, Tennessee, and Georgia. The company offers excavation support and protection, and geotechnical construction including shoring and underpinning, earth retention including soil nail walls, soldier pile walls and sheet pile walls, ground anchors, rock bolts, and deep foundations including micropiles, thereby providing creative and thoughtful services.	
Sunrise of Nashville	Provider of landscaping services intended to improve outdoor environments. The company offers landscape design, site construction, project management, commercial maintenance, residential care, and irrigation installation, providing property owners and commercial managers a way to enhance aesthetics and functionality.	
Suppression Systems	Provider of fire protection and safety services intended for special hazard environments. The company offers turnkey design, engineering, and installation of fire alarm, detection, and suppression systems, enabling industrial, commercial, and marine clients to protect mission-critical infrastructure through code-compliant safety solutions and 24-hour emergency support.	
Sutton Disposal Service	Provider of waste management and container rental services intended to facilitate waste disposal and site cleanup. The company offers roll-off containers, waste containers, and residential waste removal, providing roll-off delivery and waste containment for residential, commercial, and industrial clients.	

Company Name	Description	Deal Synopsis
Tecton Architects	Provider of architecture, interior design and master planning services intended to create environments for people. The company offers architectural services, interior design, master planning, feasibility studies, construction administration and wayfinding, providing environments for people to work, discover, learn and serve.	
Tegeler & Associates	Provider of insurance services intended to protect businesses, individuals, and families. The company represents multiple top-rated carriers to offer personal insurance, business insurance, and employee benefits, enabling clients to access tailored coverage options for diverse risks, including agricultural operations, commercial liability, and property protection, through a network of local offices.	
Tempranillo Apartment Homes	A 64-unit multifamily apartment community in California, United States. The asset offers one, two, and three-bedroom apartments featuring a swimming pool, a fitness center, and a picnic area with barbecue facilities, providing residents with housing and recreational amenities in a managed environment.	The tempranillo apartments were acquired by undisclosed investor through a \$19 million LBO in approximately August 2026.
The AI Conference	Operator of a professional conference and event company intended to convene experts, industry leaders and practitioners in artificial intelligence (AI) capability. The company offers expert keynote sessions, thematic panels, interactive workshops, networking events and startup showcases, enabling members to share knowledge, explore innovations, foster collaborations and accelerate the adoption of AI technologies across diverse sectors.	
The Colt Group	Provider of specialty industrial services intended for the maintenance of mission-critical infrastructure. The company offers online leak repair, hot tapping, and line intervention services using 3D scanning technology and custom engineering, enabling oil refineries and industrial plants to seal pressurized piping systems and maintain operational continuity without requiring costly facility shutdowns.	
The Nutty Bavarian	Manufacturer of roasted glazed nut products and nut roasting equipment intended to serve retailers, entertainment venues, foodservice operators and specialty stores worldwide. The company manufactures cinnamon-glazed roasted nuts, packaged nut products, automated nut roasting equipment and related supplies while offering equipment installation, training and ongoing support, thereby enabling customers to prepare and sell freshly roasted nut products in commercial settings.	

Company Name	Description	Deal Synopsis
The Restaurant Intelligence Solution	Provider of restaurant accounting services intended for multi-unit operators. The company offers outsourced restaurant accounting, fractional cfo services and operational consulting, integrating point-of-sale systems and financial platforms to provide consolidated reporting and cost visibility across multiple restaurant locations.	
Threadline Products	Manufacturer of construction hardware intended to supply threaded rods, anchor bolts, and custom metal components for building applications. The company offers cut threaded rods, anchor bolts, fabricated steel items, and hardware products with custom fabrication capabilities and material availability, thereby enabling construction contractors, fabricators, and industrial customers to obtain customized metal components for structural and infrastructure projects.	
Tingley Roofing	Provider of roofing services intended to protect residential and commercial properties. The company offers residential roof repair, commercial roof replacement, asphalt roofing, metal roofing, specialty roofing products, and roof maintenance, providing property owners with durable exterior protection and project financing assistance.	
TLM Group (Construction and Engineering)	Provider of owner representation services intended to oversee construction projects. The company provides technical advisory, site selection and commissioning management services, enabling clients in the mission-critical, financial and educational sectors to reduce risks associated with project design, budget and schedule.	
TorchStone Global	Operator of a risk mitigation and security advisory firm intended to provide customized protection solutions. The company offers physical risk assessment, executive protection, secure transportation, employee screening, workplace violence training, and due diligence investigations, enabling high-net-worth families and multinational corporations to proactively identify and mitigate threats to people, assets, and brands.	
TPK Ceramics	Manufacturer of ceramic vaporization hardware designed for high-viscosity oils. The company utilizes zirconia ceramic engineering and biocompatible heating paths, enabling cannabis brands to provide a clean smoking experience through zirconia cartridges, all-in-one devices, and vape batteries.	

Company Name	Description	Deal Synopsis
TradeRunner Technologies	Developer of an artificial intelligence-powered recruitment platform designed to connect HVAC and plumbing contractors with skilled technicians. The company utilizes a proprietary talent database powered by artificial intelligence for instant candidate discovery, employs a specialized matching algorithm to rank technician suitability, and automates initial candidate outreach and personalized follow-ups, enabling clients to instantly identify and shortlist HVAC and plumbing technicians who meet specific skill and geography criteria.	
TRP Infrastructure Services (Portfolio of 5 Roadway Infrastructure Service Businesses across U.S.)	A portfolio of five specialized roadway infrastructure businesses serving transportation agencies and contractors across the U.S.	
TRS Services	Provider of turbine repair and component manufacturing services intended for industrial gas turbines. The company's solutions feature precision machining, specialized welding, heat treatment, electrical discharge machining, flow testing, life cycle cost analysis, and an advanced repair center, enabling power generation and oil and gas operators to restore critical turbine components to exacting standards.	
Truk TMS	Provider of logistics and freight management services intended to serve the Pacific Northwest and customers nationwide. The company offers a wide range of services, such as less-than-truckload LTL shipping, truckload, oversize, expedited, supply chain management and other related services, enabling customers to make the entire process of creating new shipments simple and convenient.	
U.S. Cost	Provider of construction estimating, cost management, and value engineering services intended to support project phases from planning through construction. The company utilizes 5D technology and proprietary software to deliver project controls, enabling owners and contractors to manage budgets, schedules, and risks throughout the capital planning, pre-construction, and construction phases.	
Universal Component Lender Services	Provider of default loan servicing and resolution services intended for banks, credit unions, and mortgage bankers. The company offers examiner-ready component servicing, end-to-end default management, loss mitigation, bankruptcy administration, and foreclosure management, enabling financial institutions to manage non-performing assets and maintain regulatory compliance through specialized loan resolution processes.	

Company Name	Description	Deal Synopsis
Urban Emu	Provider of user experience design and technology services intended to simplify complex information. The company offers software engineering, strategic communications, and accessibility compliance through a purpose-centered design approach, enabling federal agencies and private enterprises to transform business operations and engage audiences through intuitive digital experiences.	
Valiant O&M	Provider of facilities services intended to support critical infrastructure and mission readiness. The company utilizes a reliability-centered maintenance system and predictive maintenance techniques, providing base operations support, facilities maintenance, chemical management, construction management, equipment maintenance, and critical infrastructure support to government agencies, enabling customers to maintain operational performance and minimize risks for military and medical facilities.	
Vertical Systems (Santa Fe Springs)	Provider of technical support and engineering services intended for commercial heating, ventilation, and air conditioning systems. The company offers technical support, engineering expertise, system design, controls integration, facility optimization, and lifecycle service solutions, enabling commercial building owners to reduce maintenance requirements and decrease energy expenditures.	
Verux	Provider of construction management and environmental consulting services intended for stormwater compliance. The company offers specialized regulatory training, bid document preparation, constructability reviews, site monitoring, water quality sampling, and permit assistance, enabling construction firms and public agencies to manage infrastructure projects while maintaining adherence to environmental regulations.	
VideoVerse	Developer of a video technology platform committed to empowering both enterprise and individual content creators with disruptive, scalable technology. The company's AI-driven platform incorporates machine learning technology to analyze live content and generate real-time video highlights, capturing key moments, thereby enabling its users to get an ecosystem of smart video editing tools using AI (artificial intelligence) conveniently.	

Company Name	Description	Deal Synopsis
ViewLift	Developer of a video streaming platform intended to offer entertainment contents. The company's platform broadcasts multi-lingual movies and TV programs and offers a variety of features, including video monetization, analytics, and distribution, enabling creators and brands to build successful businesses around their content.	The company was acquired by DAZN, via its financial sponsor SURJ Sports Investments, Aser Ventures and Access Industries, through an estimated \$100 million LBO on August 19, 2026.
Vigor Industrial	Provider of ship repair and specialty fabrication services to government and aerospace, defense, energy and infrastructure sectors. The company offers construction, complex fabrication, repair, conversion, handling, support for energy generation and other related services, enabling clients to get reliable craftsmanship from planning through completion.	
Vintage Electric (Florida)	Provider of electrical contracting services intended to support residential and commercial properties. The company offers electrical rewiring, panel upgrades, lighting maintenance, ceiling fan installation, hot tub wiring, and parking lot lighting, enabling property owners to maintain safe and functional electrical systems through design-build delivery and smart home integration.	
Visix	Developer of digital signage solutions intended for corporate, hotels, educational, healthcare, government and athletic facilities. The company designs, develops and supports a suite of browser-based digital signage products, enabling to allow users to create, manage and schedule organizational communications from anywhere and to deliver messages, media and alerts to virtually any endpoint.	
Vital Installs	Provider of structured cabling and technology installation services intended for commercial and government sectors. The company offers network design, fiber optic installation, access control integration, and AI-powered video surveillance, enabling businesses to access reliable communication infrastructure and integrated security services for smarter facility management.	
VitreK	Manufacturer of safety and electrical test equipment intended for the semiconductor, aerospace and defense industries. The company offers hipot testers, power analyzers, high-speed digitizers and turbine engine balancing systems, providing customers with precision measurement tools to facilitate research, testing and compliance conformance.	

Company Name	Description	Deal Synopsis
Waste Eliminator	Provider of waste management services intended for industrial and large commercial businesses and governmental entities across Metro Atlanta. The company offers waste collection, storage, removal, hauling, recycling, and landfill services, thereby helping its clients avoid filling up the landfills and utilize material recovery systems to recycle and reuse the items that go to the dumpsters effectively.	
Wilson & Associates (Franklin)	Provider of geomatics and utility engineering services intended to support transportation infrastructure and land development projects. The company utilizes terrestrial, aerial, mobile, and bathymetric lidar scanning, subsurface utility engineering and building information modeling, providing transportation agencies and commercial developers with precise geospatial data, construction staking, and three-dimensional site models to improve project accuracy and reduce construction risks.	
Wolz Corporate USA	Provider of registered agent services intended to support corporate compliance and records management. The company provides business records management, storage services, document retrieval, compliance support, process serving, and registered agent representation, enabling law firms and corporate clients to maintain legal standing and manage administrative documentation securely.	
Woodmont Grill Space	A 6,300-square-foot restaurant property located in Bethesda, Maryland.	The restaurant space of Hillstone restaurant group was acquired by Ted's Bulletin, via its financial sponsors Tamarix Capital, JPB Partners and Feenix Venture Partners through a \$ 7 million LBO on August 17, 2026.
WPS Engineering	Provider of bridge inspection services intended to ensure infrastructure safety and compliance. The company offers routine bridge inspection, inspection reporting, load rating support, civil engineering support, structural assessment, and infrastructure safety evaluation, providing government transportation departments with accurate and detailed assessments for infrastructure safety and compliance.	
Xplorie	Provider of amenity programs intended to help vacation rental brands increase revenue through complimentary local activities. The company offers a free-to-guest experience program that bundles local activities with lodging reservations and uses voice-enabled digital guidebooks for in-unit support, giving vacation rental managers a way to differentiate properties and increase guest loyalty.	
Yondr Group (40 Acres in Northern Virginia to Build 72MW Data Center)	A 40-acre site to build a 72-megawatt data center campus in Manassas, Virginia.	

Company Name	Description	Deal Synopsis
ZeroTouch (Electronic Equipment and Instruments)	Manufacturer of metrology platforms designed for high-speed, non-contact inspection of complex geometry parts. The company's technology utilizes laser scanning, micron-level point cloud generation, in-line automated inspection, and digital twin creation, enabling automotive, aerospace, and medical device manufacturers to perform rapid dimensional quality control and defect detection without physical contact.	
ZYCI	Provider of precision CNC machining and additive manufacturing services intended for mission-critical industries. The company offers multi-axis milling, turning, and industrial 3d printing through itar-registered and as9100-certified facilities, enabling aerospace and defense customers to procure high-complexity components and prototypes with predictable execution and documented quality compliance.
