

Business Products and Services Deals for September 2026

There were 252 completed U.S. private equity deals in the Business Products & Services sector during the month of September. The number of deal transactions decreased 4.2% when compared to August's deal count. There was a 34.2% decline in the number of Business Products & Services deals compared to September 2025.

Business Products and Services Deals for September 2026

Company Name	Description	Deal Synopsis
360 Fire Protection (Pensacola)	Provider of fire protection and life safety services intended for commercial businesses. The company offers fire suppression systems, fire sprinkler systems, fire extinguishers, fire alarms, backflow testing, exit signs and emergency lights, enabling facility managers and business owners to maintain safety compliance and ensure operational readiness of fire prevention equipment.	
900lbs	Provider of experiential design and immersive storytelling services intended to communicate complex technical concepts. The company's technology involves augmented reality, virtual reality, mixed reality, extended reality, and holographic video, enabling businesses to visualize complex data and engage audiences through interactive environments.	
A-Rent Test Equipment	Provider of electrical test equipment rental services intended for clients across the United States. The company offers circuit breakers, transformers, batteries, primary injections, secondary injections, winding and ground resistance and other related types of equipment, enabling clients to have proper functionality and precise measurements of products.	
A.J. Myers and Sons	Provider of student transportation and charter services intended to serve school districts and private groups. The company offers school bus transportation, charter bus rentals, athletic team transport, field trip transportation, community event shuttles, and special needs transport, providing students and community organizations with safe and reliable transit options.	
Ace Contractors Supply	Distributor of construction supplies intended to serve the commercial building and infrastructure markets. The company offers a large inventory of concrete accessories, rebar, and lumber, alongside safety equipment, fasteners, and jobsite tools, and provides specialized product sourcing and onsite delivery services, enabling commercial contractors to procure necessary materials for government projects, schools, and roads while maintaining project timelines.	

Company Name	Description	Deal Synopsis
Action Seating & Mobility	Provider of complex rehab technology and assistive equipment intended for individuals with disabilities. The company offers custom power and manual wheelchairs, seating and positioning evaluations, gait trainers, standing frames, and continuing education for medical professionals, enabling clients to achieve improved mobility and access to life through tailored assistive services.	
Adamson & Co	Provider of accounting services intended to turn complex financial data into confident business decisions. The company utilizes a team-based approach and specialized information technology systems to provide tax preparation, auditing services, business consulting, estate planning, bookkeeping, and payroll services, enabling middle-market businesses and nonprofit organizations to achieve financial clarity and regulatory compliance.	
Additive Metal Services	Provider of debinding and sintering services intended for the metal additive manufacturing industry. The company offers vacuum sintering, debinding, density verification, and digital microscopy services, enabling manufacturers to produce full-density metal components from 3d printed parts with metallurgical precision.	
Advantage Roofing & Exteriors	Provider of roofing and exterior renovation services intended for residential and commercial properties. The company offers architectural asphalt shingles, metal roofing, cedar shake roofing, slate-composite roofing, concrete tile roofing, solar shingles, vinyl siding, and deck construction, enabling clients to protect and maintain property integrity.	
Aesthetic Extender Symposium	Provider of educational services intended to train advanced clinicians in dermatology and aesthetic medicine. The company offers hands-on workshops, clinical training, professional certification, accredited education, and industry networking, enabling medical professionals to enhance clinical skills and earn continuing education credits.	
Air Service of Manasota	Provider of HVAC services intended to maintain indoor climate control. The company utilizes ionized hydroperoxides, germicidal ultraviolet light, and remote monitoring technology, providing residential and commercial clients with consistent indoor temperatures and reduced energy consumption through waste heat recovery.	

Company Name	Description	Deal Synopsis
Alamon (Utility Services division)	Provider of utility infrastructure services intended for infrastructure strengthening and asset life extension. The company offers pole inspection services, asset treatment programs, infrastructure reinforcement, data collection systems, wildfire risk reduction services, and resilience improvement programs, providing electric utilities with structured inspection and reinforcement services.	
Alta CPA Group	Provider of audit and tax services intended to support nonprofit and governmental organizations. The company offers financial statement audits, tax preparation, cfo advisory, automation consulting, internal control analysis, and board training, enabling clients to optimize financial performance and maintain regulatory compliance through specialized expertise and technology.	
Ambit (Other Pharmaceuticals and Biotechnology)	Provider of patient identification services intended to help biopharmaceutical companies optimize treatments for rare and specialty diseases. The company utilizes proprietary technology and artificial intelligence to identify patients and healthcare providers, enabling biopharmaceutical companies to accelerate clinical trial recruitment and improve commercial performance through strategic services, analytics services, data services, patient identification services, clinical trial recruitment, and medical planning.	
AMD Supply	Distributor of aluminum, fencing, hurricane shutters, and related products intended to serve residential and commercial construction projects. The company offers aluminum and vinyl fencing, gates, standard and custom aluminum extrusions, shutters, screen doors, hardware, castings, and tubular motors, enabling contractors and dealers to source products for fencing, building protection, and related projects.	
American Elevator	Provider of elevator services intended to ensure safe and efficient vertical transportation within buildings. The company offers maintenance and service, modernization and upgrades, new installation, non-proprietary controllers, door equipment, and elevator fixtures, providing commercial buildings with open-access systems that reduce operational costs and prevent equipment downtime.	

Company Name	Description	Deal Synopsis
American Piping Products	Distributor of specialty steel piping products intended to support industrial infrastructure projects. The company offers in-house processing, cutting, beveling, threading, logistical support, and material testing, providing the energy and petrochemical sectors with steel pipe, fittings, flanges, mechanical tubing, valves, and customization services to ensure project schedules.	
American Safety Clothing	Manufacturer of specialized industrial safety apparel and personal protective equipment designed to protect workers operating in hazardous and demanding environments. The company offers specialized protective equipment, including arc-flash suits, heat-resistant jackets, cut-resistant sweaters, flame-resistant base layers, aluminized clothing, welding apparel, gloves, sleeves, aprons, leggings, chaps, coats, pants, coveralls, and bib overalls, along with customized protective solutions, serving workers in manufacturing, utilities, construction, welding, power generation, oil and gas, and other heavy industries exposed to thermal, electrical, fire, molten-material, and mechanical hazards.	
Andersen Asphalt	Provider of asphalt maintenance services intended for commercial and residential sectors. The company offers crack sealing, sealcoating, pothole repair, pavement patching, slurry seal, and microsurfacing, enabling clients to extend the lifespan of their pavement and avoid costly surface reconstruction.	
Applied Plastics (Oak Creek)	Manufacturer of custom thermoplastic extrusions intended to serve the automotive, construction, medical, and other industries. The company specializes in custom tubing, rigid and flexible profiles, solid rods, and extrusion tooling, thereby helping clients obtain products manufactured to their specified requirements.	
Arlo Wynwood Hotel	A 125,494-sq-ft hotel located in Miami, Florida. The nine-story hotel features 217 guest rooms, as well as a cafe on the ground floor and a bar and pool on the rooftop.	The hotel of Quadrum was acquired by Dauntless Capital Partners through an estimated \$44.3 million LBO on September 29, 2026.
Ascension Sports Partners	Provider of executive recruitment services intended for the sports and entertainment industries. The company offers traditional search, candidate consulting, and employer services, providing organizations with a retained recruiting model and a vetted talent pool to facilitate leadership placements and professional career transitions.	

Company Name	Description	Deal Synopsis
Atrium (IT Consulting and Outsourcing)	Provider of IT consulting services intended to help companies navigate business transformation by establishing IT systems of intelligence augmented with artificial intelligence and analytics. The company combines industry expertise, leading cloud platforms and data science to deliver transformative outcomes, it takes a data-driven approach by fusing together industry and process expertise across the disciplines of math, programming and consulting, thereby helping its customers maximize the power of their data to solve their important challenges.	
Babilla Roofing	Provider of commercial roofing services intended for property maintenance and protection. The company offers commercial re-roofing, residential roof repair, architectural sheet metal, roof maintenance programs, new construction roofing, and emergency leak repair, enabling clients to maintain structural integrity through specialized material expertise and professional installation protocols.	
Barrier1 Systems	Manufacturer of anti-ram vehicle barriers designed for perimeter security and critical infrastructure protection. The company offers high-security bollards, safety bollards, net barriers, wedge barriers, horizontal crash beams, and bollard covers, providing government and commercial clients with crash-rated systems intended to stop vehicle impacts and safeguard high-traffic environments.	
Bast Financial Group	Provider of wealth management and financial planning services intended for business owners and executives. The company offers investment advisory, multigenerational wealth transfer, and estate planning, providing fiduciary advice and personalized financial strategies to help high-net-worth families and business leaders achieve their long-term goals.	
BC Wire Rope & Rigging	Manufacturer of rigging equipment designed for industrial lifting and securing applications. The company offers wire rope slings, nylon web slings, polyester round slings, chain hoists, shackles, and fall protection equipment, providing industrial sectors with tools to facilitate heavy material handling and load securement.	
BizChecks Payroll	Provider of payroll services intended to simplify administrative tasks for business owners. The company utilizes human capital management software to provide automated payroll and human resources functions, enabling small businesses to automate tax calculations and filings while accessing dedicated specialists for personalized support and fraud detection.	

Company Name	Description	Deal Synopsis
Blackwell Electric (Other Commercial Services)	Provider of electrical and automation services intended for the commercial, industrial, and oilfield sectors. The company offers electrical installation, control panel fabrication, and PLC troubleshooting, enabling oil and gas operators to maintain efficient and safe production environments through certified technical expertise and in-house manufacturing capabilities.	
Blaze Master Fire Protection	Provider of fire protection services intended to serve residential and commercial sectors. The company offers fire sprinkler installation, standpipe system maintenance, fire extinguisher sales, system repairs, and annual inspections, enabling clients to ensure building safety and maintain regulatory compliance through specialized fire suppression solutions.	
Blue Dot	Developer of a tax compliance platform designed to automate employee-driven transactions. The company's platform offers AI-powered VAT recovery, taxable employee benefits analysis, and expense auditing, enabling enterprise organizations to maximize tax reclamation and ensure global regulatory compliance.	
BotDojo	Developer of an enterprise-grade artificial intelligence enablement platform designed to design, deploy, and scale intelligent agents. The company offers a low-code visual workflow builder, a library of templates, a neurosymbolic guardrail system, human-in-the-loop feedback queues, and tool orchestration capabilities, enabling enterprise organizations to automate complex business workflows and manage autonomous agents across multiple communication channels.	
Brady Infrared	Provider of infrared inspection services intended to detect hidden faults in electrical and building systems. The company offers infrared electrical inspections, utility corona inspections, building envelope evaluations, roof moisture surveys, arc flash studies, and building recertification services, enabling commercial and industrial clients to ensure safety compliance and prevent equipment failures.	
Braille Works International	Provider of document transcription services intended to provide accessible reading materials for individuals with visual impairments. The company offers braille printing, large-print transcription, audio document creation, accessible pdf remediation, 508 compliance testing, and wcag auditing, enabling organizations in the healthcare and financial sectors to deliver inclusive communications that meet federal accessibility standards.	

Company Name	Description	Deal Synopsis
Brt Extrusions	Manufacturer of aluminum extrusions designed for building and construction sectors. The company utilizes extrusion presses, electrostatic paint lines, thermal barrier systems, anodizing equipment and fabrication tools, enabling the automotive and electrical industries to obtain custom aluminum shapes with specialized finishes and thermal properties.	
Cametoid Technologies	Provider of industrial coating and inspection services intended to serve military and commercial applications. The company specializes in ionized vapor deposition, rack coating and barrel coating, aluminum-based painting, grit blasting, chromate conversion coating and chemical processing, thereby helping clients protect and inspect component parts made from various metals, composites, polymers, and other materials.	
Carolina Scales	Provider of industrial-scale services intended to ensure measurement accuracy and operational efficiency. The company utilizes iso/iec 17025 accredited processes, deploys certified heavy-capacity test trucks, maintains a twenty-four-seven emergency response team, performs specialized corner load testing, and integrates custom interface software, providing industrial clients with precise calibration and repair to maintain regulatory compliance and equipment reliability.	
Castle & Cooke Aviation Services	Operator of fixed-base aviation facilities intended to serve corporate and general aviation clients. The company provides aircraft fueling, hangar leasing, ground handling, on-site customs coordination, agricultural support services, concierge catering, and executive lounge amenities, enabling private and corporate flight departments to access infrastructure and support services at major airport hubs.	
Central Door Solutions	Provider of garage door installation and repair services intended for residential and commercial properties. The company offers overhead door repair, fire door inspections, loading dock maintenance, high-speed door installation, and custom spring engineering, enabling homeowners and business operators to maintain secure and functional building access points through specialized technical support and American-made products.	

Company Name	Description	Deal Synopsis
Certified Elevator Inspections	Provider of elevator inspection and consulting services intended to ensure the safety and compliance of vertical transportation systems. The company offers annual safety inspections, modernization consulting, new design services, maintenance evaluations, escalator inspections, and code compliance auditing, enabling building owners to maintain safe and efficient elevator operations.s	
CHAMPS	Provider of substation engineering services intended to support utility power delivery infrastructure. The company offers substation engineering, electrical design, engineering studies, project management, construction management, and quality assurance, enabling utilities to modernize power systems through a structured five-stage quality control process that covers conceptual planning, technical design, and construction support for high-voltage infrastructure.	
CHEERS (Business/Productivity Software)	Operator of an online verification platform designed to facilitate building energy code compliance. The company offers project registration, compliance verification, document management, field forms, and Energy Star certification, enabling building professionals and contractors to document and verify compliance with California energy code regulations through a centralized digital registry.	
Chimney Solutions	Operator of chimney and fireplace maintenance services intended to improve the safety, efficiency, and functionality of residential and commercial properties. The company provides chimney cleaning, inspections, repairs, masonry restoration, relining, and fireplace and stove installation, helping property owners maintain safe, efficient heating systems.	
Clarity AI	Developer of a sustainability technology platform designed to deliver environmental and social insights. The company's platform uses machine learning and big data to contribute to socially efficient capital allocation by providing decision-makers with the tools to understand the capabilities of sustainability analysis related to investing, corporate research, benchmarking, consumer e-commerce, and regulatory reporting, enabling investors to assess the sustainability of all societal stakeholders.	

Company Name	Description	Deal Synopsis
CLH & Son	Provider of excavation services intended for infrastructure maintenance and site development. The company offers culvert sliplining, hydro jetting, vacuum pumping, pipe reshaping, dam repair and utility installation, enabling municipalities and private clients to rehabilitate aging drainage systems while minimizing environmental disruption and excavation costs.	
Climalock	Developer of tank insulation systems designed for agriculture and industrial sectors. The company offers watertight locking panels, replacement panel insulation, and composite insulation materials, providing the agriculture, bioenergy, and fire industries with temperature control solutions for storage tanks.	
Coastal Growers Supply	Provider of crop advisory services intended to optimize agricultural yields and soil health. The company offers soil analysis, pest management planning, yield optimization, data-informed strategy, irrigation optimization, and crop management planning, enabling farmers to receive personalized management plans to improve soil health and manage pests.	
Coleman Engineering	Provider of civil engineering services intended for water and wastewater infrastructure resiliency. The company specializes in hydraulic modeling, master planning, and detailed design for pump stations, storage tanks, and treatment facilities, while providing technical support for infrastructure funding and long-term contract operations, enabling public utilities to optimize water and sewer system performance through advanced hydraulic modeling.	
Coleman Industrial Construction	Provider of industrial construction services intended to provide specialized infrastructure for the transportation sector. The company offers locomotive servicing facilities, fuel support systems, facility support systems, environmental solutions, air distribution systems, and track pans, providing transportation firms with specialized infrastructure built for congested industrial environments.	The company was acquired by Pacific West, via its financial sponsors Bluejay Capital Partners, Parkway Capital, Pine Street Capital Partners, TPE Boulder, Winterfell Investments and others through an LBO on September 11, 2026 for \$4.3 million.
Communication Company	Provider of life safety and security systems integration services intended for critical infrastructure sectors. The company offers fire alarm systems, security cameras, access control, audio-visual systems, nurse call systems, mass notification, door access readers, and collaborative learning software, providing system design, installation, and maintenance to help healthcare and educational organizations protect their facilities and personnel.	

Company Name	Description	Deal Synopsis
Compass Waste	Provider of residential waste collection services designed to provide dependable and hassle-free household trash disposal. The company offers weekly trash hauling, waste compaction, and specialized cart services using lightweight equipment, enabling residential households to access reliable and consistent waste disposal with transparent flat-rate billing.	
Completepet	Provider of contract manufacturing services intended to lead the pet products industry through excellence in quality, innovation, and service. The company operates as a brand-first partner with no house brands and utilizes dual-site manufacturing facilities in Florida and Vermont, enabling pet wellness brands to scale product lines with redundant manufacturing capacity and develop market-ready formulas with integrated research and development support.	
Conrad Kacsik Instrument Systems	Provider of thermal process engineering and metrology services intended for industrial heat treating. The company offers supervisory control and data acquisition systems, programmable logic controller interfaces, NIST-traceable calibrations, Nadcap compliance consulting, furnace maintenance, and technical training to enable aerospace and automotive manufacturers to maintain regulatory compliance.	
Contractors Risk Management	Provider of safety consulting services intended for the construction and manufacturing industries. The company offers site inspections, safety activity reporting, industrial hygiene reviews, and OSHA adherence consulting, providing clients with specialized expertise to maintain workplace safety compliance and reduce operational risks.	
CustomWeather	Operator of a weather intelligence company intended to provide global forecasting and data services. The company utilizes a proprietary high-resolution forecasting model and ensemble modeling, providing weather APIs, historical climate datasets, real-time forecasting, marine weather reports, fire danger outlooks and automated alerting services to weather-sensitive businesses seeking decision support and consumer application integration.	
dcdx	Provider of market research and consulting services intended to analyze youth cultural trends and consumer behavior. The company offers youth research networks, focus groups, survey data, social media analysis, culture tracking, and brand benchmarking, enabling consumer brands and agencies to understand youth trends and refine marketing strategies.	

Company Name	Description	Deal Synopsis
Decoded	Developer of a digital learning platform designed to deliver courses related to artificial intelligence, analytics, cybersecurity, and technology. The company specializes in executive education and qualifications in advanced analytics for businesses, enabling professionals to learn data tools and techniques and gain accredited qualifications.	
Delmhorst Instrument	Manufacturer of moisture meters designed for identifying leaks and monitoring moisture levels in building materials. The company offers moisture meters, thermo-hygrometers, electrodes, contact pins, moisture content standards, and plastic sleeves, enabling building inspectors and restoration experts to perform accurate moisture measurements and environmental monitoring.	
Design To Print	Provider of large-format printing, custom graphics, display fabrication, and installation services intended for events, trade shows, and advertising applications. The company offers graphics production, computer-aided design, metal fabrication, color expertise, finishing, and installation, enabling businesses to create event displays, trade show exhibits, custom brand experiences, and interior graphics.	
DFW Crating	Manufacturer of custom-engineered crating and protective packaging designed for industrial shipping and storage. The company offers custom wood crates, reusable exhibit crates, industrial pallets, transport dollies, custom assembly tables, and protective foam packaging, designed to protect heavy machinery and sensitive equipment during international and domestic transportation.	
Dialed Brands	Manufacturer of custom packaging designed for consumer product brands. The company offers glass jars, plastic bottles, tincture bottles, packaging bags, custom boxes, and labels, providing integrated design and production services to help businesses bring product concepts to market.	
Die-Matic	Manufacturer of precision metal stampings and progressive stamping tools intended for the automotive and industrial sectors. The company offers precision metal stampings, progressive stamping tools, automotive components, medical device parts, value-added assemblies, and machined components, providing design, prototyping, tool building, and production stamping to help automotive and construction organizations secure high-volume precision parts.	

Company Name	Description	Deal Synopsis
Ditek Corp	Manufacturer of surge protection devices designed for safeguarding electrical and electronic systems. The company offers modular surge protectors, industrial surge protectors, whole-home surge protectors, AC power protection, network surge protectors, and fire alarm surge protectors, providing commercial and industrial markets with protection against voltage spikes to prevent equipment damage.	
EasyLlama	Developer of a compliance training platform designed to train client organizations and prevent harassment at work. The company operates an online training platform to offer up-to-date courses around sexual harassment prevention, diversity and inclusion, and more, thereby helping client organizations to create a safe and positive workplace.	
ECCO Equipment Company	Operator of a heavy equipment rental company designed to provide machinery for construction, mining, and industrial projects. The company offers a fleet of earthmoving equipment, maintenance support, and long-term leasing options, enabling contractors, infrastructure developers, and industrial operators to complete projects efficiently, reduce capital expenditure, and maintain operational flexibility.	
Electronic Power Design	Manufacturer of low-voltage electrical distribution equipment and mission-critical power control systems. The company offers custom-engineered switchboards and power distribution solutions, enabling data centers and industrial facilities to manage high-density electrical requirements through in-house design, fabrication, and testing processes.	
Element Home Services (Services (Non-Financial))	Provider of residential and industrial plumbing services intended to maintain home comfort and utility systems. The company offers trenchless sewer repairs, leak detection, drain cleaning, water heater replacement, septic system maintenance, and water filtration installation, providing emergency repair services for homeowners and industrial facilities to ensure functional plumbing and HVAC infrastructure.	

Company Name	Description	Deal Synopsis
eMCP	Developer of maintenance control software designed for vertical transportation systems. The company's technology utilizes maintenance control programming, real-time monitoring, QR code integration, mobile application development, compliance auditing, data synchronization, and automated reporting, providing EMCP software, maintenance control programs, maintenance completion reports, equipment survey tools, maintenance monitoring services, and an EMCP mobile app to enable elevator contractors and building owners to manage their equipment maintenance through transparent and code-compliant digital platforms.	
Encore Gas & Supply	Distributor of industrial gases designed for operational continuity. The company offers industrial gases, welding machines, safety equipment, power tools, equipment repair, and gas system design, providing the metal fabrication and manufacturing sectors with mission-critical supplies and technical maintenance.	
Environmental Construction (Construction and Engineering)	Provider of environmental remediation and demolition services intended for the commercial and industrial sectors. The company offers asbestos abatement, lead-based paint removal, mold remediation, structural demolition, selective interior demolition, and concrete cutting, providing hazardous material recovery and structural preparation for property renovation.	
Environmental Pest Management	Provider of pest management services in Westerville, Ohio. The company offers protection from pests like ants, bed bugs, roaches, rodents, stinging insects, spiders, racoons, termites and opossums to commercial and residential spaces.	
Evolution Consulting & Research	Provider of market research services intended to support life sciences organizations. The company offers market research, positioning research, message testing, market segmentation, design studies, and brand health monitoring, enabling biopharma and biotech manufacturers to optimize brand performance and inform commercial decisions through qualitative and quantitative insights.	
Extrude Hone	Manufacturer of engineered component process technology catering to aerospace, firearms, automotive, energy, and medical industries. The company offers abrasive flow machining, electrochemical machining, and thermal deburring for precision finishing of machined parts to clients, thereby enhancing the safety, reliability, efficiency, and durability of the entire system.	

Company Name	Description	Deal Synopsis
Falcon Gases Management	Distributor of industrial gases intended for diverse manufacturing and medical applications. The company offers industrial gases, medical gases, specialty gases, bulk gases, microbulk gases, and welding supplies, providing industrial and medical sectors with essential gas products and equipment for operational needs.	
FDH Aero	Distributor of C-class components intended for the aerospace, electronics, and defence industries. The company offers fasteners, connectors, hex nuts, key-locking inserts, nut plates, locknuts, wire inserts, threaded inserts as well as installation and removal tools and other related hardware.	
Fentron	Provider of integrated security and access control services intended for the commercial and industrial sectors. The company offers access control systems, surveillance cameras, biometric readers, security software, alarm systems, intercom units, technical support services, system maintenance plans, security consulting, and integrated security platforms, enabling clients to protect physical assets.	
Financial Investment Team	Provider of financial services, including direct asset management, financial planning, tax preparation, and healthcare assistance. The company's platform integrates direct asset management, in-house tax preparation, and retirement planning, enabling high-net-worth individuals and business owners to manage their financial futures through a coordinated strategy that addresses investment, tax, and estate needs.	
Firebrand Technologies	Developer of software and services designed to help publishers achieve success. The company's offering includes title management enterprise software, Eloquence On Demand, Eloquence On Alert, eloquence on alert and other related services, helping book publishers and distributors manage their internal workflows, digital distribution, marketing efforts, and the distribution of their title metadata for more sales and profit.	The company, a subsidiary of Media Do International, was acquired by Valsoft Corporation, via its financial sponsors Coatue Management, Propelr Growth, Viking Global Investors, Portage and Power Corporation of Canada. through a \$20 million LBO on September 30, 2026.
Flatley Dock Systems	Distributor of material handling equipment intended to enhance loading dock safety and efficiency. The company offers dock levelers, vehicle restraints, dock seals, dock shelters, high-speed doors and commercial overhead doors, providing industrial facilities with installation and maintenance services to ensure operational productivity.	

Company Name	Description	Deal Synopsis
Flow Control Holdings	Provider of sanitary flow components intended for the food, beverage, and pharmaceutical industries. The company offers a wide range of critical components, including sanitary mix-proof valves, food-grade hoses, washdown stations, automated sanitary valves, centrifugal pumps, sanitary fittings, and forged diaphragm valves, thereby ensuring clients' simplicity and engineered services.	
Fluvio Marketing	Provider of product marketing consulting services intended to help high-growth companies turn their most critical, strategic go-to-market challenges and build sustainable growth. The company provides extensive B2B and B2C product marketing expertise on-demand for software and technology companies such as workshops, consulting, hiring, and more, thereby helping clients find product-market fit, establish go-to-market strategies, and deliver high-impact campaigns.	
Flywheel Brands	Provider of creative marketing and branding services for businesses, offering custom apparel, promotional products, decals and labels, signs and displays, and print services. The company's platform offers custom printing, promotional products, and industrial print services alongside in-house graphic design and online company stores, enabling corporate teams and small businesses to manage their brand identity through professional materials, apparel, and specialized industrial decals.	
Formation Financial	Provider of financial and people operations services intended to support venture-backed startups. The company offers financial reporting, accounting services, people operations, cfo services, fp&a services and financial modeling, enabling early-stage companies to streamline back-office functions and focus on product development.	
Freedom In Mobility	Distributor of complex rehabilitation technology and mobility equipment intended for pediatric, adult, and geriatric individuals with permanent disabilities. The company offers power and manual wheelchairs, tilt-in-space seating systems, mobility scooters, safety beds, gait trainers, activity chairs, and other positioning equipment, in addition to insurance coordination, equipment installation, maintenance, and user education to support mobility and daily living needs.	

Company Name	Description	Deal Synopsis
Gaddy Electric & Plumbing Company	Provider of electrical, plumbing, and HVAC services intended for residential and commercial property maintenance. The company offers electrical wiring, plumbing repairs, heating and cooling installation, wastewater solutions, and portable toilet services through certified technicians and a fleet of service vehicles, enabling clients to receive licensed emergency maintenance and contracting solutions.	
Gemcom (Electrical Equipment)	Manufacturer of fire system accessories intended to support emergency response and system maintenance. The company offers maintenance switches, agent abort switches, bypass switches, graphic annunciators, directory panels, and municipal disconnect kits, designed for fire protection professionals to ensure the proper operation and compliance of fire alarm and suppression systems.	
GeoSync Microwave	Manufacturer of radio frequency and microwave products built for satellite communications. The company offers up converters, down converters, frequency synthesizers, low noise amplifiers, amplifier systems, custom satellite communication products, providing commercial and military sectors with hardware for communication challenges.	
Global Energy Solutions	Provider of electromechanical services intended to maintain energy operations. The company offers repair and maintenance for motors, pumps, drives, gearboxes, switchgear and transformers, providing energy companies with 24/7 field and in-house technical support to maintain operational uptime.	
Global O-Ring and Seal	Distributor of O-rings and sealing products intended for industrial applications. The company's systems utilize an on-site vulcanization shop and a specialized distribution facility with automated restocking and electronic inventory tracking, thereby enabling industrial distributors to obtain precise sealing components for specialized equipment requirements.	
Go HQ	Provider of business process outsourcing services intended to improve profitability for transportation businesses. The company offers a proprietary drive portal, amazon approved vendor exchange status, specialized transportation expertise, dedicated client success managers, and flexible service packages, enabling delivery service partners and regional carriers to increase operational efficiency and maximize financial returns.	

Company Name	Description	Deal Synopsis
GoSaaS	Developer of SaaS products intended to focus on cloud migrations, applications, implementations and training. The company offers a wide range of services including product design development, commercialization and supply chain, quality management, sales and service management and tech manufacturing services, enabling clients to get the services and products as per their needs	
GreerWalker CPA's and Advisors	Provider of accounting, tax, and business advisory services intended for privately held middle-market companies and individuals. The company offers assurance, tax planning, corporate finance, exit planning, and wealth management, enabling businesses and owners across domestic and international markets to manage financial compliance, optimize tax strategies, and execute corporate growth or transition goals.	
Hafer	Provider of architectural design services intended to create environments that focus on the human element. The company offers architecture, interior design, mechanical engineering, electrical engineering, landscape architecture and planning, providing healthcare, education and corporate clients with a multidisciplinary approach to transform visions into functional spaces that enhance quality of life.	
Heartwood Wealth Advisors	Provider of wealth management and financial advisory services intended to serve high-net-worth individuals and families in Richmond, Virginia. The company offers comprehensive financial planning, tax planning, investment advisory, and fiduciary trust services, enabling clients to coordinate tax strategies, estate planning, and asset management into a single personalized framework.	
Heritage Environmental Consultants	Provider of environmental planning services intended to assist industry and government clients with project development. The company offers environmental planning, permitting, and science, impact assessment, natural resource planning, stakeholder involvement, and construction monitoring services, supported by expertise across wildlife biology, ecology, forestry, hydrology, water quality, geology, soil science, air quality, cultural resources, environmental engineering, environmental regulation analysis, eagle protection plans, aquatic surveys, botanical surveys, wildlife surveys, and geographic information systems.	

Company Name	Description	Deal Synopsis
Holloway Plumbing	Provider of residential and commercial plumbing services intended to serve property owners. The company offers water heater repair, drain cleaning, sewer service, leak detection, gas line repair, and commercial plumbing installation, enabling clients to maintain functional plumbing systems through professional repairs, maintenance, and emergency support.	
Holton Concrete Products	Manufacturer of precast concrete products intended to serve the infrastructure and construction sectors. The company offers reinforced concrete pipe, precast structures, drainage systems, utility vaults, catch basins, and manholes, enabling infrastructure contractors and municipal governments to build durable civil engineering projects.	
Hop Havoc	Supplier of brewing ingredients designed for commercial beverage production. The company offers hops, fruit purees, coffee, sanitization supplies, malt and honey, enabling breweries to source quality ingredients for signature craft beers.	
Horton Electrical Services	Provider of electrical contracting services intended to serve public and private clients. The company offers commercial construction, wastewater treatment plant electrical work, photovoltaic solar system installation, low-voltage controls, site construction, and land clearing, enabling clients to access turnkey site management and infrastructure maintenance for diverse electrical projects.	
House-Autry Mills	Manufacturer of traditionally seasoned batters and stone-ground cornmeal designed for Southern-style cooking. The company offers chicken and seafood batters, hushpuppy mixes, and biscuit blends produced through stone-grinding and custom blending processes, providing grocery stores and foodservice distributors with scalable manufacturing for private-label and commercial food applications.	
Hudson Bus Sales	Operator of a commercial vehicle dealership intended for passenger transit and business operations. The company offers new and used buses, shuttle vans, and wheelchair accessible vehicles, providing commercial organizations with fleet acquisition, maintenance, and leasing services to support transportation requirements.	

Company Name	Description	Deal Synopsis
Hurley & Stewart	Provider of civil engineering services intended for infrastructure and site development projects. The company offers site development, municipal approvals, mass earthwork design, sanitary sewer systems, water distribution systems, and stormwater management, providing municipal and private clients with infrastructure design and construction oversight.	
Ideal Image (Englewood)	Manufacturer of custom retail fixtures and furniture intended to provide branding support for companies with multiple locations. The company offers retail displays, point-of-purchase fixtures, large-format graphics, wayfinding signage, and upholstered seating, enabling automotive dealerships and retail stores to transform interior environments with tailored branding.	
IEM Electric	Provider of electrical contracting and building equipment installation services intended for the construction sector. The company offers residential and commercial wiring, electrical maintenance, system troubleshooting, and infrastructure upgrades, providing building owners and general contractors with professional electrical services and enabling clients to implement safe and efficient electrical systems for new construction and renovation projects.	
Innofin Solutions	Provider of IT consulting and financial management services intended for enterprise businesses and corporate finance departments. The company offers Oracle EPM implementations, financial planning and forecasting, financial consolidation and close, profitability modeling, enterprise data management, and administrator support, enabling organizations to streamline financial reporting and align strategic budgets through specialized Oracle software solutions.	
Innovative Refrigeration Systems (Manufacturing Space in Lyndhurst, Virginia)	A 430,000 square feet of manufacturing space located in Lyndhurst, Virginia.	The company was acquired by Innovative Refrigeration Systems, via its financial sponsors CCMP Growth Advisors and Current Capital Partners, through a \$19 million LBO on September 8, 2026.
Integral Consulting	Provider of environmental consulting services intended to deliver insights and strategies intended to serve industrial, legal, government, trade groups and commercial sectors. The company specializes in offering a comprehensive suite of science, engineering and technology-driven services to its clients facing increasingly complex environmental, health, economic and natural resource challenges, ensuring they meet their challenges efficiently.	

Company Name	Description	Deal Synopsis
Integrated Medical Evaluations	Provider of medical evaluation services intended to facilitate independent medical exams and medicolegal analysis. The company offers independent medical evaluations, record reviews, expert witness testimony, bill reviews, deposition scheduling, and trial preparation, providing the legal community with objective medical information for claims.	
Integrity Environmental Group	Provider of environmental remediation services intended to ensure safe and healthy living environments. The company offers asbestos abatement, mold remediation, lead hazard containment, selective demolition, disaster response, and water extraction, enabling property owners to eliminate hazardous exposures and restore infrastructure across the Southeastern United States.	
Intelligent Waves	Provider of systems integration services intended to enable secure information sharing for defense and intelligence communities. The company utilizes patented Internet Protocol spread-spectrum technology to randomize and distribute message packets through simultaneous multiple transport paths and encrypted channels, providing federal agencies with cybersecurity engineering, enterprise network engineering, cloud computing services, intelligence analytics, software development, and cognitive human performance training.	
International Yacht Collection	Provider of superyacht services intended for the global luxury maritime market. The company offers superyacht sales, luxury yacht charters, charter management, crew placement, yacht agency services, and yacht insurance, enabling yacht owners and charterers to manage vessel acquisitions and operations through a global network of professional consultants and proprietary management technology.	
ITC Digital Solutions	Provider of government technology and consulting services intended to serve federal agencies in the United States. The company offers a range of services, including information technology modernization, cloud computing and hybrid infrastructure, data and artificial intelligence, digital mission platforms, emerging technologies, and professional consulting and transformation services	

Company Name	Description	Deal Synopsis
Jaclo Industries	Manufacturer of decorative plumbing products intended for residential and commercial applications. The company offers a range of decorative finishes, faucets, shower systems, bathroom and kitchen accessories, along with product engineering, hospitality project management, fixture recommendations, specification documentation and on-site installation support, enabling consumers and designers to implement highly styled shower systems and accessories.	
JT Thorpe Group	Provider of specialized industrial maintenance solutions intended for large-scale facility management purposes. The company offers a range of services including refractory engineering and maintenance, fireproofing, insulation, coatings, scaffolding and mechanical services, thereby helping clients enhance asset longevity and operational safety while minimizing downtime during critical outages and routine maintenance cycles.	
Juanita's Foods (120,000 sq ft manufacturing facility located in Santa Fe Springs, California)	A 120,000 sq ft manufacturing facility located at 13100 Arctic Circle in Santa Fe Springs, California.	
June (Human Capital Services)	Provider of recruiter matching services intended to streamline the hiring process for senior technology professionals. The company offers recruiter networking, interview scheduling, talent matching, and communication tools, enabling tech talent to connect with vetted recruiters while maintaining control over their contact information and schedule.	
K.L.Jack & Co.	Distributor of industrial supplies for construction and manufacturing. The company maintains an inventory of over 30 million fasteners and uses an automated packaging system to provide fasteners, cutting tools, masonry anchors, safety supplies, abrasives, and rigging hardware, helping industrial professionals access essential components and maintain operational efficiency through a regional branch network and integrated ordering systems.	
Kankakee Beaverville & Southern Railroad	Operator of a short-line railroad intended to provide economical freight transportation for agricultural and industrial sectors. The company operates 166 miles of trackage with multiple Class I interchanges and a dedicated fleet of covered hoppers, enabling agricultural producers and industrial shippers to transport bulk commodities and access national markets through efficient rail logistics.	

Company Name	Description	Deal Synopsis
Karob Instrument	Manufacturer of precision parts intended for aerospace and other industrial customers. The company produces precision components using computer numerical control (CNC) machining, along with assembly and packaging services, thereby providing industrial parts and supplies across multiple industries.	
Kea Advisors	Provider of business advisory and data analytics services intended to increase profitability for commercial dealerships. The company offers operational diagnostics, strategic planning, leadership education, parts and service advisory, and a cloud-based analytics platform, providing commercial enterprises, manufacturers, and dealership technology companies with actionable performance insights and change management support, enabling clients to transform business operations, improve fixed operations efficiency, and achieve sustainable economic returns.	
Kimberlite (Texas)	Provider of market research and consulting services designed for the global oil and gas industry. The company offers supplier performance benchmarking, market share analysis, and technology adoption assessments, providing energy professionals with unbiased, data-driven insights to optimize procurement decisions and evaluate competitive positioning across the oilfield services sector.	
Koogler & Associates	Provider of environmental engineering services intended for industrial air quality management. The company's services include air quality modeling, emissions measurement, source sampling, chemical reaction impact analysis, environmental planning, and regulatory compliance auditing, enabling industrial clients to navigate complex permitting processes and maintain compliance with environmental regulations.	
KW Building Products	Distributor of building materials and millwork intended for residential construction and remodeling. The company operates a specialized pre-hanging facility for interior and exterior door systems using high-quality components and rot-free frames, enabling builders to source pre-hung door systems with customized casing profiles for immediate installation.	

Company Name	Description	Deal Synopsis
Les's Sanitation	Provider of waste management services intended for residential and commercial clients. The company utilizes automated collection trucks and secure shredding facilities to manage residential garbage, commercial front-load containers, rolloff rentals, confidential document destruction, recycling collection, and electronic waste disposal, enabling customers to maintain clean and compliant environments through efficient waste removal.	
Lionshare Marketing	Developer of a business intelligence and customer relationship management platform designed to grow healthy relationships with patients and physicians. The company's platform integrates clinical and financial data with online activity and call center interactions to create a centralized repository, enabling healthcare organizations to execute automated marketing campaigns, perform predictive modeling, conduct data mining, generate business intelligence reports and track return on investment.	
Lone Peak Dental Group (Four Vital Smiles Dental and Orthodontic Practices)	A portfolio of dental practices based in Alabama, United States.	
Lowder Brothers Heating and Air	Provider of HVAC services intended to assist residential clients in enhancing indoor comfort. The company offers services such as repairs, maintenance, replacements and installations of air conditioning and furnace systems, enabling clients to improve indoor air quality.	
Lucid Labs (MedTech)	Provider of medical engineering services intended to accelerate the development cycle for medical devices and surgical robotics. The company offers mechanical engineering, precision machining, product design, prototyping, component production, and equipment engineering, providing medical device firms with technical expertise designed to facilitate product development from concept to manufacturing.	
M7 Health	Developer of a workforce management platform designed to offer shift scheduling to nurses. The company's platform provides staffing technology with a systematic way to automate scheduling and access to real-time staffing metrics and insights, enabling healthcare professionals to match shifts and career opportunities that align with their personal needs and professional goals.	

Company Name	Description	Deal Synopsis
Machen McChesney	Provider of accounting and business advisory services intended for businesses and individuals in Alabama and surrounding states. The company offers business tax services, individual tax planning, audit and assurance, business advisory services, payroll services, and wealth management services, providing manufacturing companies and healthcare practices with integrated financial and operational help.	
Mark Industries (Building Products)	Provider of glass and glazing services intended for commercial and residential construction projects. The company offers commercial glazing, residential glass installation, storefront systems, curtain walls, glass partitions, and window replacement, providing construction companies and property owners with architectural glass solutions and professional installation.	
MedSquare Port St. Lucie	A 68,000 rentable square feet, 2-story class A medical office building located in Port St. Lucie, Florida. The property modern outpatient medical space in a growing community. The building will feature floor-to-ceiling impact glass, nearly 15-foot ceilings, high-speed fiber optic connectivity, keyless entry, gurney-capable elevators, a dedicated service elevator, and convenient patient parking with reserved spaces.	The medical facility of Flagler MAS AJP was acquired by Anchor Health Properties, via its financial sponsor StepStone Group, through a \$16.3 million LBO on September 29, 2026 for an undisclosed amount.
Mel-Kay Electric	Provider of mechanical, electrical, and plumbing contracting services intended for industrial and commercial sectors. The company offers lighting systems, power distribution, emergency power, UPS systems, fire alarm systems, HVAC maintenance, industrial machinery relocation and voice and data infrastructure, enabling manufacturing and healthcare facilities to maintain operational productivity and infrastructure.	
MIC Steel	Provider of mechanical field services intended for industrial customers. The company offers shop steel fabrication, industrial maintenance, equipment installation, and facility upgrades, providing skilled workmanship and responsive execution to support mission-critical facilities in the agriculture, power generation, and heavy industrial sectors.	
Millennial Energy Partners (Non-Operated Drillco Working Interests)	The Asset is located in the United States.	

Company Name	Description	Deal Synopsis
Morrison & Smith	Provider of accounting and tax services intended to serve individuals and businesses. The firm specializes in tax planning and return preparation, accounting, bookkeeping, financial statement preparation, audits, reviews, compilations and tax authority representation, thereby helping clients manage tax obligations, financial reporting and accounting needs.	
MSL Electric	Provider of electrical contracting services intended for public works and transportation infrastructure. The company offers installation of transportation systems, fiber-optic networks and traffic signals, providing municipalities and state agencies with specialized electrical construction for highways, airports and public lighting.	
Municipal and Contractor Sealing Products	Provider of infrastructure rehabilitation services intended to restore deteriorating water and wastewater systems. The company offers geopolymer spray lining, cementitious spray lining, protective coatings, chemical grout injection, manhole rehabilitation, and culvert restoration, enabling municipalities and utilities to repair structurally compromised pipelines and water collection systems without excavation.	
Nadco Tapes & Labels	Manufacturer of customized pressure sensitive tapes and labels for aerospace, automotive, cosmetics, electrical, and other industries. The company offers digital and flexographic print design such as custom labeling, logos, metal foils, paper tapes, banners, foam tapes, tape dispensers, and others	
National Jets	Provider of private aviation services designed to provide air transportation and operational support for business and personal travel. The company offers aircraft charter, aircraft management, fixed-base operations, and aviation consulting, enabling corporations and private individuals to access organized air travel, aircraft oversight, and flight operations support.	
Navajo Expedited	Provider of expedited transportation and managed logistics services intended for urgent and complex freight. The company offers dry van, flatbed, team driving, and multi-stop shipping services, enabling shippers to secure responsive capacity for seasonal surges and exception moves through a nationwide carrier network supported by a proprietary technology stack for real-time visibility.	

Company Name	Description	Deal Synopsis
Next Point Bearing	Distributor of precision bearings intended for industrial and aerospace applications. The company offers cnc machining, cleanroom re-lubrication, snap ring grooving, linear shafting, bar code labeling, and custom kitting, enabling original equipment manufacturers to reduce production lead times and maintain equipment uptime.	
NextGen Security	Operator of an electronic security integration company intended to provide technology facilities. The company provides access control and video surveillance to commercial and industrial clients in diverse and complex end markets and provides facility security systems, including consultation, design, installation, integration, training, and aftermarket support, enabling industrial companies to get class industry knowledge.	
Nor-Cal Pipeline Services (Cured-in-place Pipe (CIPP) Division)	Provider of trenchless pipeline rehabilitation services intended to restore and maintain underground pipelines. The company offers cured-in-place pipe rehabilitation and related services, enabling utility customers to address aging pipeline infrastructure without traditional excavation.	
North Cherokee Electrical	Provider of electrical contracting services intended to enhance public safety. The company offers traffic signalization systems, intelligent transportation systems, advanced traffic management systems, fiber optic infrastructure, wireless infrastructure, and video detection systems, providing the government and commercial sectors with expert installation and maintenance of critical transportation and electrical infrastructure.	
O'Donnell Roofing	Provider of roofing and exterior construction services catering to residential and commercial property owners. The company offers roof installation, roof repair, roof replacement, and related exterior services, providing clients with assessment and project execution for maintaining and improving building protection.	
Old Natchez Country Club	A country club located in Franklin, Tennessee. The club offers an eighteen-hole golf course, six clay tennis courts, a junior olympic swimming pool, a fitness center and a thirty-thousand-square-foot clubhouse with banquet facilities, enabling members and guests to engage in sports, dining and large-scale event hosting.	

Company Name	Description	Deal Synopsis
Omega Air Refueling Services	Provider of air-to-air refueling services intended to transfer aviation fuel from one aircraft to another aircraft. The company offers aerial refueling along with probe and drogue or boom aerial refueling support to help aircraft stay in flight longer and extend their range, thereby enabling to achieve missions without being slowed by traditional refueling processes on the ground.	
Omega Optical	Manufacturer of precision optical components intended for global original equipment manufacturer customers in the life science, aerospace and defense, instrumentation, semiconductor, and environmental industries. The company designs, manufactures, and coats critical optical elements, including filters, gratings, beamsplitters, mirrors, and lenses for its clients.	
Onelife Fitness (two Phase 3 Fitness locations in Madison and Huntsville)	Two Phase 3 Fitness Clubs, having approximately 1,13,000 sq ft of area in total, are located in Madison and Huntsville in the United States. The facilities consist of Expansive strength training and cardio areas, a functional turf training area, an indoor saltwater pool, a group fitness studio, and other facilities intended for client fitness.	
Outdoors for Life	Manufacturer of equipment stabilization pads designed for utility and construction applications. The company offers outrigger pads, crane pads, pole puller pads, rv jack pads, mud pads and custom plastic pads, providing utility contractors and crane operators with durable surface protection and equipment stability during field operations.	
Overhead Door Company of Knoxville, Chattanooga & Johnson City	Provider of garage door services intended to provide secure and functional access for residential and commercial properties. The company offers garage door installation, garage door repair, garage door maintenance, garage door sales, opener programming, and safety inspections, providing residential property owners and commercial businesses with secure property access and maintained door functionality.	
Panorama Environmental	Provider of environmental planning and regulatory permitting services intended for public and private sector clients. The company provides environmental impact assessments, technical studies, and compliance monitoring, including California Environmental Quality Act (CEQA) and National Environmental Policy Act (NEPA) integration, feasibility analysis, and support for infrastructure and development projects.	

Company Name	Description	Deal Synopsis
Peerless Carpet Care & Restoration Services	Provider of property restoration services intended for residential and commercial clients. The company offers water damage restoration, carpet cleaning, mold removal, fire mitigation, upholstery cleaning, and air duct cleaning, enabling property owners to recover from environmental damage.	
Performance Cabling Technologies	Provider of fiber optic, communications, and access control infrastructure services intended for commercial, municipal, utility, and university customers. The company offers structured cabling, fiber optic installation, directional drilling, splicing, conduit systems, and maintenance services, thereby helping customers build and maintain reliable communications infrastructure.	
Phigenics	Provider of water management services intended to optimize operational efficiency and improve safety in building water systems. The company's service offers comprehensive, verified, and valid water management programs which combine certified analytical laboratory services running a superior and patented test, remote water monitoring equipment as well as a water management software platform, enabling facility owners and managers to use these programs to optimize the total cost of their water systems by improving safety and efficiency in a cost-effective manner.	
Pioneer Power Group	Manufacturer of electrical transmission and distribution equipment intended for the power generation market. The company specializes in the design and production of highly engineered switchgear, transformers, and engine-generator sets, enabling utility, industrial, and commercial customers to manage complex power distribution requirements and implement resilient on-site energy systems.	
Pirawna	Operator of a digital marketing agency intended for Amazon workflows to drive results. The company provides a full-service sales accelerator that specializes in marketing pay-per-click (PPC) strategy and execution, including market analytics, product development support, sales conversion optimization, and inventory management services, enabling clients to drive online sales for a variety of leading brands.	
Plains LPG Services (Bumstead Liquefied Petroleum Gas Storage Facility in Phoenix, Arizona)	A bumstead liquefied petroleum gas storage facility based in Phoenix, Arizona.	

Company Name	Description	Deal Synopsis
Polaris Aero	Developer of an aviation safety intelligence platform designed to offer real-time flight risk assessment and safety analysis for the aviation industry. The company's software hosts various applications including one that automatically identifies hazards and provides risk mitigation, and another that serves as an organizational safety management system, enabling aviation organizations to access critical real-time insights that can be used for fine tuning the day-to-day operations.	
Poly (Construction and Engineering)	Provider of architectural and engineering services intended to support municipal and government clients. The company offers architectural design, environmental assessment, compliance consulting, water station engineering, pump station replacement, and site development, enabling public-sector and private enterprises to navigate complex infrastructure, regulatory, and growth-driven challenges.	
Power Motion	Distributor of industrial automation parts intended to solve industrial automation challenges. The company offers integrated automation systems, electrical control panels, pick-to-light systems, technical training classes, onsite service calls, and machine vision enclosures, enabling industrial users to receive customized industrial automation solutions tailored to specific process requirements.	
Powerbox International	Manufacturer of power converters catering to defense, transportation, medical and industrial sectors. The company designs and markets premium power conversion systems, AC-DC power supplies, and DC-DC converters, thereby offering clients to reduce energy consumption and manage full product lifecycles while minimizing environmental impact.	
Premex Solutions (Distributors/Wholesale)	Distributor of print-ready fabrics intended for the digital textile printing industry. The company offers pre-treated textiles, organic cotton fabrics, recycled polyester textiles, and latex-certified fabrics, enabling digital print providers to enhance print performance and durability.	
Price Family Properties (Petroleum Club Building located in Tulsa, Oklahoma)	A petroleum building based in Tulsa, Oklahoma. The 16-story, 119,236-square-foot tower is a contributing structure in the oil capital historic district.	
Primrose Schools (Four Primrose Schools in Omaha)	Four Primrose Schools in Omaha, Nebraska.	

Company Name	Description	Deal Synopsis
Prism Electric	Provider of electrical contractor services intended to keep commercial and industrial facilities powered and connected. The company offers building information modeling, virtual design, project prefabrication, low-voltage technology, emergency response, and facility coordination, enabling the healthcare and commercial markets to maintain critical operations through rapid diagnostic and repair services.	
Probo Medical	Provider of surgical equipment repair services designed for healthcare facilities. The company specializes in equipment, endoscopes and instrument repair management tools and provides medical instrument identification and repair services, thereby helping medical companies to keep records of repair history, quarterly cost-saving reports and current repair status of medical equipment.	
Prolytix	Operator of a contract research organization (CRO) intended for the biopharma industry. The company provides research reagents, customized blood collection tubes, as well as protein biochemistry services, including assay development, validation, and stability testing, thereby providing clients with complete services from discovery to Good Manufacturing Practice (GMP) release of large-molecule therapeutics.	
Prostar Fire Systems	Provider of alarm systems, inspections, and installation services catering to warehouses, distribution centres, restaurant chains, fueling stations, and manufacturing plants. The company offers system voltage checks, fire alarm inspections, AC power supply maintenance, battery output checks, emergency lighting repair, and device inventory record-keeping.	
PTI	Manufacturer of custom-engineered foam extrusions designed for packaging, insulation, and consumer applications. The company offers closed-cell profiles, pipe insulation, packaging profiles, filler rods, pool noodles, and mattress components, providing industrial and consumer markets with materials featuring high tear resistance, low water vapor permeability, and thermal stability across extreme temperature ranges.	
Pultro Financial Management	Provider of financial planning and investment management services intended for individuals and families. The company utilizes behavioral finance principles to address the emotional aspects of wealth management and investor behavior, enabling families to manage investment emotions during market fluctuations to maintain their long-term strategy.	

Company Name	Description	Deal Synopsis
Quixote (Grip & Lighting, Production Supplies, Communications, and Portable Restroom Assets)	Portfolio of equipment and production services intended for the entertainment industry. The portfolio offers lighting equipment, grip equipment, rigging solutions, portable restrooms, production supplies, and communications equipment, providing film and television productions with an integrated infrastructure platform for large-scale projects.	
Qwick Kurb	Manufacturer of traffic lane separator systems designed for channelizing traffic in harsh environments. The company offers continuous curbing systems, traffic lane separators, mega marker panels, bollard systems, bullnose markers, and slender bender markers, built for transportation departments to improve motorist compliance and safety in work zones using high-visibility vertical markers.	
Rainwater, Holt & Sexton	Provider of personal injury legal services intended to provide advocacy for injury victims and disabled individuals. The company utilizes a team of attorneys, accident reconstructionists, engineers, and medical experts to investigate cases, manage litigation, and handle procedural requirements, providing injury victims with legal representation and enabling clients to pursue fair compensation and justice after severe accidents.	
Raymer Elite Reporting	Provider of court reporting services intended to serve the legal community. The company offers court reporting, e-transcripts, PDF transcripts, condensed transcripts, interpreters, deposition suites, ASCII text files, keyword indexing, legal video services, and stenography, enabling legal professionals to document depositions, hearings, and trials through professional litigation support.	
Re:Dish	Provider of industrial warewashing and reusable product management services intended to support waste reduction through reuse. The company offers washing and sanitization of foodservice containers, gel packs, reusable totes, and cups using custom machinery, automated processes, and purpose-built software, enabling businesses and institutions to manage reusable products.	
Recorded Catalog of Black Label Society	A recorded catalog by a heavy metal band located in the United States. The catalog spans more than two decades and contains 11 studio albums, including live releases, compilation projects, EPs, Wyld's solo recordings, and the largely acoustic 2013 live album Unblackened.	

Company Name	Description	Deal Synopsis
Recto Molded Products	Manufacturer of molded plastic parts designed for industrial and commercial applications. The company offers injection molding, 6-axis robotic integration, all-electric molding, hydraulic pressing, cnc machining, and ultrasonic welding, providing the automotive and appliance sectors with custom plastic components and mechanical assemblies.	
Relish	Developer of enterprise applications designed for consumer goods, energy, financial, healthcare and public sector. The company offers features such as automated supplier data validation, anti-fraud checks, payment accuracy, invoice automation, platform integration, invoice price tracking and verification and more, enabling businesses to simplify the complex and bridge enterprise data systems and maximize their investment.	
Residential Land Services	Provider of land surveying and development services intended for the residential construction industry. The company offers land title surveys, construction staking, topographic surveys, foundation verification, flood elevation certificates, wetland mapping, civil and site design, and related surveying services, providing home builders, developers, realtors, and property owners with technical data and site information to support property development, construction, and real estate transactions.	
Rex Engineering	Manufacturer of electric gearmotors and actuators intended for original equipment manufacturers. The company offers ac gearmotors, dc gearmotors, valve actuators, planetary gearmotors, linear motion gearmotors, and custom gearing, providing industrial clients with high-volume production and custom-engineered motion control solutions.	
Rexford Industrial (237,000 Square Feet per Industrial Portfolio)	The 237,000 square feet of industrial properties are based in the United States.	The 5.2 million-square-foot logistics portfolio in Southern California, a subsidiary of Rexford Industrial, was acquired by EQT for \$1.2 billion on September 17, 2026.
Right Hat	Provider of branding and design services intended for professional services organizations. The company offers brand audits, logo design, website design, brand videos, style guides, thought leadership content, naming services, writing training, seo services, client portals, e-commerce platforms, social media campaigns, advertising, internal rollout communications, artificial intelligence tools, hosting services, security maintenance, brand summit workshops, persona definition, and town hall presentations, enabling professional services firms to transform complex organizational offerings into clear brand messaging.	

Company Name	Description	Deal Synopsis
Rite Lite Signs	Manufacturer of custom signage and architectural elements designed to elevate commercial brands. The company specializes in turnkey visual solutions spanning design, permitting, fabrication, installation, and maintenance, providing businesses with illuminated channel letters, monument signs, pylon signs, electronic message centers, and wayfinding systems, enabling clients to enhance brand visibility and execute seamless multi-site signage rollouts.	
River Cities Financial Services	Provider of wealth management services intended to assist individuals and business owners with financial goals. The company offers wealth management, financial planning, retirement planning, investment planning, estate planning and insurance advisory, enabling individuals, families, and business owners to manage personal and business wealth through integrated advisory services.	
RKI Accounting	Provider of accounting and compliance services for government contracts, serving U.S. government contractors and grantees. The company offers government contract accounting and compliance services, internal controls consulting, outsourced internal audit, requests for equitable adjustment, and expert testimony, providing defense technology and construction firms with specialized regulatory support and dispute resolution.	
RM Customhouse Brokers	Provider of customs brokerage and warehousing services intended for importers and exporters. The company operates a secure facility with up to 90,000 square feet of floor space and 12 trailer roll-up doors for efficient logistics, enabling international traders to defer payment of duties and taxes by storing goods in a secure bonded warehouse.	
Roads (Construction and Engineering)	Provider of highway paving services intended to build and maintain transportation infrastructure. The company offers asphalt paving, highway construction, airport runway development, commercial site work, military base infrastructure, and parking lot renovation, providing government and commercial clients with material supply and civil engineering capabilities.	

Company Name	Description	Deal Synopsis
rockITdata	Provider of IT consulting services intended to provide data-driven insights and system upgrades for improved decision-making and operational efficiency. The company offers decision engineering, artificial intelligence, machine learning, cloud integration, systems integration, and data engineering, enabling government and commercial clients to convert raw data into actionable insights for strategic planning and modernize legacy systems to increase organizational agility.	
ROI Engineering	Provider of control systems integration and industrial automation services intended for the food and beverage, chemical, and manufacturing industries. The company offers PLC programming, SCADA and HMI development, database integration, network design, electrical layout drawing creation, and 24/7 technical support, enabling manufacturers to automate production lines, improve operational consistency, and ensure product quality.	
Rossee Oil	Distributor of petroleum products intended for commercial and industrial customers. The company offers lubricants, diesel fuel, gasoline, diesel exhaust fluid, hydraulic hoses and ancillary petroleum products, enabling businesses to manage fleet fueling and industrial operations through bulk storage facilities and cardlock systems.	
S2 Engineering	Provider of construction management services intended to support infrastructure and public works projects. The company offers construction management, inspection services, material testing, quality assurance, technical oversight and project administration, enabling public agencies to ensure structural integrity and regulatory compliance.	
S4 Market Data	Provider of market data management services intended to improve profitability for financial institutions. The company offers managed services for market data environments through an operating framework of best practices and certified spend management consultants, providing market data managed service, market data consulting, interim staff placement, permanent staff placement, market data administration, and market data compliance, enabling financial institutions to centralize the management of all market data services and expenses into a single environment.	

Company Name	Description	Deal Synopsis
Sability	Provider of human capital management consulting services intended to optimize workforce technology ecosystems. The company offers hcm consulting, wfm implementation, managed payroll services, strategic guidance, system optimization, and post-live support, enabling organizations to improve workforce performance and streamline payroll processes through specialized platform expertise.	
Safe-Way Garage Doors	Manufacturer of residential and commercial garage doors intended to serve homeowners, builders, and businesses in the United States. The company offers garage doors, openers, dock equipment, and related parts along with installation, maintenance, and repair services, thereby serving door access and loading operations.	
SAGE Integration	Provider of security systems integration services intended for the utilities, healthcare, government, education, and retail sectors. The company offers consulting, video surveillance, vision analytics services, access control, visitor management, and credential systems, enabling clients to solve problems related to the physical security of key assets and make critical business decisions.	
Saylor (Media and Information Services)	Provider of creative agency services intended to build brand fandom through entertainment-led content. The company integrates strategy, creative, and production into a single unit, utilizing specialized gaming, creator, and artificial intelligence studios, providing entertainment and consumer brands with social-first campaigns, cinematic video production, and audience growth strategies to transform followers into obsessed fans.	
Schatz Bearing Corporation	Manufacturer and designer of custom bearings intended to serve aerospace and defense, medical, semiconductor, automation and robotics, and construction and agriculture machinery industries. The company specializes as an original equipment manufacturer for a wide range of precision bearings including specialty bearings, thin-section bearings, and many more types of ball bearings.	
Serpentix	Manufacturer of engineered conveyor systems designed for municipal wastewater treatment and industrial material handling. The company's continuous path technology enables single systems to navigate horizontal turns, vertical inclines, and helical paths, providing municipal wastewater treatment plants with specialized equipment for transporting abrasive sludge, grit, and screenings through complex three-dimensional layouts.	

Company Name	Description	Deal Synopsis
Shell (10 Innovative Growth Portfolio Companies)	10 Innovative Growth Portfolio Companies.	
Siltworm	Manufacturer of erosion and sediment control tracks intended to control soil erosion and sediment runoff at construction and other land-use sites. The company offers reusable filter tracks made with recycled fill material and durable rolled netting that are easy to install, move, and reuse, enabling construction contractors and land managers to protect surfaces, drainage systems, slopes, stockpiles, and sensitive areas while maintaining water quality.	
Six Brothers Pest Control	Provider of customized pest control services intended to protect residential and commercial properties from pest infestations. The company's pest management services use customized treatment plans, environmentally friendly products, thorough inspections, and targeted application methods, enabling homeowners and businesses to eliminate existing infestations and prevent pests from returning.	
Smartling	Developer of cloud-based enterprise translation software designed to offer a gateway to accelerate growth in international markets. The company's enterprise translation software features the ability to translate and deploy multilingual websites and dynamic web applications, mobile applications, and business documents across corporate digital infrastructure, enabling businesses to localize content across devices and platforms.	The company was acquired by Vitruvian Partners through a \$195 million LBO on September 15, 2026. The transaction was supported by \$195 million of debt financing.
Smith Equipment and Supply Company	Manufacturer of industrial brooms and brushes based in Lakeland, Florida. The company offers sweeper brushes, sweeper attachments, tube brooms, gutter brooms, wafer brushes, strip brushes, and custom brushes, thereby providing durable brooms and brushes.	
Snyder	Provider of event rental and design services intended to facilitate event execution. The company offers event rental, event planning, event design, tent installation, furniture rental, and tabletop decor, providing event planners with resources for event execution.	
SOR Controls Group	Manufacturer of industrial process instrumentation and grab sampling systems designed to serve nuclear power generation, oil and gas, power generation, chemical producers, and waste and wastewater industries. The company offers a wide range of products including probes, sensor assemblies, pressure switches, pressure flushing rings, pressure transmitters, magnetic level indicators, and more.	

Company Name	Description	Deal Synopsis
Southeastern Cable Contractors	Provider of broadband construction services intended for telecommunications and utility sectors. The company offers broadband infrastructure, fiber-optic networks, coaxial builds, MDU installations, ISP installations, utility construction, permitting services, easement acquisition, project management, and inventory management, enabling network providers to connect communities.	
Spectrum LNG (Desert Gas LNG Plant in Ehrenberg, Arizona)	Desert Gas LNG Plant in Ehrenberg, Arizona, is an operating LNG facility and a site for future expansion in Stroud, Oklahoma.	
Steve Connolly Seafood Company	Distributor of seafood designed for culinary use. The company utilizes a dedicated fleet of boats to source fresh seafood and operates processing facilities that enable custom orders and door-to-door shipping, providing hotels, restaurants and resorts with access to a variety of fresh seafood sourced from a dedicated fleet.	
Stevens and Ciccone Associates (Tax Practice)	Provider of tax services based in Needham, Massachusetts. The division offers tax planning and advisory.	
Sunrise Transportation	Provider of student transportation services intended to deliver safe and reliable school transit solutions. The company specializes in personalized transportation for general and special education students, offering a fleet of buses, vans, and SUVs equipped with accessibility features and artificial intelligence monitoring technology, enabling school districts to optimize routes and ensure secure door-to-door transport for differently abled passengers.	
Surveillance Systems	Provider of surveillance system integration and electronic security services intended for gaming, commercial, healthcare, government, retail, and educational sectors. The company offers IP video network design, CCTV installation, access control systems, video analytics, point-of-sale data mining integration, and surveillance room design, enabling organizations to secure facilities, mitigate risk, prevent theft, and maintain regulatory compliance.	
SweepWX	Developer of a weather intelligence platform designed to provide real-time storm analysis and severe weather detection. The company's platform utilizes artificial intelligence and live NEXRAD radar data to identify storm rotation and atmospheric changes, enabling organizations in the aviation, defense, and energy sectors to access early warnings and precise weather observations for operational safety.	

Company Name	Description	Deal Synopsis
Switch (Another Huge Stretch of Southern Nevada Land of 176.5 acres)	The 176.5 acres of land are located in Nevada, United States.	The 176.5 acres of land was acquired by Switch, via its financial sponsors Aware Super, Climate Adaptive Infrastructure, DigitalBridge Group, IFM Investors and The Edgewater Fund, through a \$196 million LBO on September 11, 2026.
Symphony Talent	Developer of a recruitment marketing technology platform intended to automate talent acquisition tasks and empower candidate interactions. The company's technology unifies customer relationship management, career site design, and programmatic advertising, providing talent acquisition teams with integrated employer branding, creative services, and data analytics to optimize the hiring funnel from attraction to retention.	
SZ Property Holdings (Tomball Industrial Property in Tomball, Texas)	An industrial property located in Tomball, Texas. The property combines modern building specifications, including 32-foot clear height, with access to a large and growing commercial market.	
Tanda	Developer of a cloud-based workforce management software designed for rostering, attendance, labor insights, and workforce success. The company's platform helps users to build a roster, track employees, automate timesheets, and pay staff through its application which is available on Android as well as iOS, enabling employers to automate and reduce manual data entry for employees.	
Taylor Waste Services	Provider of waste management and garbage removal services intended for residential, commercial, and industrial customers. The company offers residential garbage collection, commercial waste hauling, roll-off container rentals, front-load containers, and compactor services, providing municipalities and construction firms enabling clients to manage household and industrial debris through specialized equipment and scheduled collection routes.	
TBAR Partners	Provider of storefront management services intended to scale e-commerce brands. The company offers storefront management, affiliate marketing, performance advertising, creator content production, creator community management, and storefront scaling, providing e-commerce brands with creator-led content and performance advertising to scale operations.
