Healthcare Deals for September 2026

Company Name	Description	Deal Synopsis
Accumulus Technologies	Developer of a regulatory connectivity platform designed to accelerate drug development lifecycles. The company offers a cloud-based digital environment featuring real-time collaboration, simultaneous submission sharing, continuous data streaming, automated workflow management, and secure information exchange, enabling life sciences organizations to reduce global approval timelines and improve regulatory alignment.	
Action Seating & Mobility	Provider of complex rehab technology and assistive equipment intended for individuals with disabilities. The company offers custom power and manual wheelchairs, seating and positioning evaluations, gait trainers, standing frames, and continuing education for medical professionals, enabling clients to achieve improved mobility and access to life through tailored assistive services.	
Additive Metal Services	Provider of debinding and sintering services intended for the metal additive manufacturing industry. The company offers vacuum sintering, debinding, density verification, and digital microscopy services, enabling manufacturers to produce full-density metal components from 3d printed parts with metallurgical precision.	
Aidin	Developer of a healthcare referral management platform designed to coordinate patient care transitions and reduce avoidable hospital days. The company's platform provides real-time visibility into at-risk transitions, automated referral workflows, and integrated provider communication, enabling hospitals and health systems to improve patient outcomes and increase staff efficiency through streamlined care coordination.	
Aligned Modern Health	Provider of non-surgical, non-invasive complementary healthcare services across Illinois. The company provides chiropractic treatment, acupuncture, clinical nutrition, functional medicine and massage therapy, enabling patients and their doctors to have integrative, non-pharmaceutical non-surgical treatment options.	

Company Name	Description	Deal Synopsis
Ambit (Other Pharmaceuticals and Biotechnology)	Provider of patient identification services intended to help biopharmaceutical companies optimize treatments for rare and specialty diseases. The company utilizes proprietary technology and artificial intelligence to identify patients and healthcare providers, enabling biopharmaceutical companies to accelerate clinical trial recruitment and improve commercial performance through strategic services, analytics services, data services, patient identification services, clinical trial recruitment, and medical planning.	
Bluefin Clinical	Developer of clinical supply forecasting software designed to optimize trial execution. The company's platform offers clinical supply forecasting, supply planning software, pack and label planning, automated shipment planning, in-app reporting, and business intelligence tools, enabling pharmaceutical companies to automate manual workflows and reduce operational risk.	
Care IV (Private Duty Nursing Division)	Provider of home healthcare services intended to enable patients to receive medical treatments and personal assistance in their own homes. The company offers skilled nursing, physical therapy, occupational therapy, speech therapy, personal care, and homemaker services, providing coordinated in-home clinical support for pediatric and adult patients to maintain independence and improve quality of life.	
Central Admixture Pharmacy Services (503B Product Portfolio)	A portfolio of 503B medications across the United States.	
Clinical Ink	Developer of a purpose-built data capture platform intended for the healthcare industry. The company offers a suite of tools for capturing and integrating electronic data from sites, clinicians and patients at the source, enabling clients to enhance clinical trial workflows, reduce manual labor, and have access to data anytime.	The company was acquired by Ardan Equity and GI Partners through a \$500 million LBO on September 24, 2026.
Colorado Eye Center	Provider of optometric services intended to offer comprehensive vision care. The company offers comprehensive eye exams, prescription eyeglasses, contact lens evaluations, frames and lenses, eyewear maintenance and medical eye history reviews, enabling patients to maintain ocular health and achieve clear vision through professional diagnostic assessments and corrective products.	

Company Name	Description	Deal Synopsis
Community Clinical Research	Provider of clinical research services intended for access to investigational therapies and medical innovation. The company specializes in clinical research trials, inpatient psychiatric research, outpatient clinical studies, central nervous system research, schizophrenia studies, and bipolar disorder trials, and offers participation in advanced clinical trials for central nervous system conditions in a specialized inpatient setting.	
Cullman Clinical Trials	Provider of clinical research services intended to advance medical treatments through human studies. The company offers multi-specialty research site operations, physician-embedded capabilities, rapid study start-up, metabolic trials, pulmonology research, and vaccine studies, enabling pharmaceutical companies to conduct clinical trials for the development of new medical therapies.	
Dr. Sherock and Associates	Provider of women's healthcare and hormone optimization services intended for patients in Northeast Ohio. The company offers comprehensive gynecological care, bio-identical hormone replacement therapy, and minimally invasive surgery, enabling women and men to achieve optimal wellness and clinical outcomes through personalized treatment plans and advanced medical technology.	
Enovis	Enovis Corp is a medical technology manufacturer and distributor of medical devices used in reconstructive surgery, rehabilitation, pain management, and physical therapy. Its products support patient care from injury prevention through post-surgical or post-injury rehabilitation and treatment of degenerative conditions. The company's reportable segments include Prevention & Recovery and Reconstructive segments. The majority of revenue is derived from the Prevention & Recovery segment, which includes products that are used by orthopedic specialists, primary care physicians, physical therapists, chiropractors, athletic trainers and other healthcare professionals to treat patients with musculoskeletal conditions resulting from degenerative diseases, deformities and sports-related injuries.	
Firma Clinical Research (Biometrics and Data Services Business Unit)	Provider of biometrics and clinical data management services intended to support clinical trial development and regulatory submissions. The unit offers clinical data management, biostatistics, statistical programming, conversion, protocol development, and regulatory medical writing, providing pharmaceutical, biotechnology, and medical device companies with validated data solutions and submission-ready datasets, enabling clinical trial sponsors to accelerate research timelines and meet global regulatory standards.	

Company Name	Description	Deal Synopsis
FirstCare Onsite	Provider of onsite occupational healthcare services intended to manage workplace injuries. The company offers on-site urgent care, traveling medical teams, telemedicine, injury triage, medical imaging, and occupational health services, enabling employers to reduce workers' compensation claims and minimize employee work loss time.	
Fitzgibbon Hospital	Operator of a non-profit community hospital intended to improve community health. The company offers cancer care, emergency medicine, orthopedic surgery, rehabilitation services, women's health and wound care, providing patients with medical treatment and specialized healthcare support to improve health outcomes.	
Freedom In Mobility	Distributor of complex rehabilitation technology and mobility equipment intended for pediatric, adult, and geriatric individuals with permanent disabilities. The company offers power and manual wheelchairs, tilt-in-space seating systems, mobility scooters, safety beds, gait trainers, activity chairs, and other positioning equipment, in addition to insurance coordination, equipment installation, maintenance, and user education to support mobility and daily living needs.	
Gallaher Plastic Surgery & Spa MD	Provider of plastic surgery and medical spa services intended to help patients achieve cosmetic goals. The company offers cosmetic surgery, reconstructive surgery, dermal fillers, laser treatments, hair rejuvenation, and spa services, providing individuals seeking aesthetic enhancements with personalized treatment plans and medical-grade technology.	
H Clinical	Provider of clinical trial and home healthcare solutions intended to simplify research in Latin America. The company's services provide decentralized clinical trial model, localized infrastructure services, integrated research site network, in-country warehousing, mobile clinic operations, and cultural nuance expertise, enabling pharmaceutical sponsors to participate in clinical research studies from home to reduce travel and financial burdens.	
Hawaii Pacific Dental Group	Provider of comprehensive dental care services intended to improve oral health and aesthetics. The company offers general dentistry, cosmetic treatments, restorative procedures, dental implants, crowns, bridges, and emergency oral care, providing patients in the Honolulu area with personalized dental services and enabling clients to maintain long-term oral hygiene and restore dental function through specialized clinical expertise.	

Company Name	Description	Deal Synopsis
Integrated Medical Evaluations	Provider of medical evaluation services intended to facilitate independent medical exams and medicolegal analysis. The company offers independent medical evaluations, record reviews, expert witness testimony, bill reviews, deposition scheduling, and trial preparation, providing the legal community with objective medical information for claims.	
Laser MD MedSpa	Operator of health clinics intended to offer beauty-enhancing treatments and anti-aging services. The company offers body contouring, skin rejuvenation, vitamin therapy, laser skin treatments, butoxy and fillers, and laser hair removal services, enabling clients to enhance their health, appearance and self-confidence.	
Lionshare Marketing	Developer of a business intelligence and customer relationship management platform designed to grow healthy relationships with patients and physicians. The company's platform integrates clinical and financial data with online activity and call center interactions to create a centralized repository, enabling healthcare organizations to execute automated marketing campaigns, perform predictive modeling, conduct data mining, generate business intelligence reports and track return on investment.	
Lucid Labs (MedTech)	Provider of medical engineering services intended to accelerate the development cycle for medical devices and surgical robotics. The company offers mechanical engineering, precision machining, product design, prototyping, component production, and equipment engineering, providing medical device firms with technical expertise designed to facilitate product development from concept to manufacturing.	
M7 Health	Developer of a workforce management platform designed to offer shift scheduling to nurses. The company's platform provides staffing technology with a systematic way to automate scheduling and access to real-time staffing metrics and insights, enabling healthcare professionals to match shifts and career opportunities that align with their personal needs and professional goals.	
MatrixCare Holdings	Developer of cloud-based long-term post-acute care software for senior citizens. The company is engaged in offering electronic health record applications, thereby helping skilled nursing and senior living providers, life plan communities and home health organizations to maximize reimbursements, reduce readmission and maintain high occupancy.	The company, a subsidiary of ResMed, was acquired by Frazier Healthcare Partners through a \$490 million LBO on September 1, 2026. The transaction was supported by \$10.15 million of debt financing.

Company Name	Description	Deal Synopsis
Medicalistics	Developer of healthcare technology designed to improve care delivery in correctional and public health environments. The company offers digitized inmate request systems, electronic medication administration records, health record integration, and data analytics, enabling correctional facilities to automate manual workflows, maintain regulatory compliance, and enhance patient safety.	
Now Optics	Operator of an eye health firm intended to offer easy eye care solutions to improve patient quality of life. The company offers a variety of eye care solutions through its brands including vision tests, eyeglass fittings, and contact lenses, enabling customers to receive convenient and professional eye care.	
Numotion	Provider of mobility products designed for individuals with mobility limitations. The company offers individually configured mobility products, customized seating systems, speech-generating devices, urological supplies, pediatric mobility aids, and accessible vehicles, providing individuals with disabilities the equipment necessary to maximize health and personal independence.	
Outcomes	Developer of a pharmacy management platform intended for hospitals, assisted living and pharmacies. The company's platform offer insights, analytics, clinical opportunities, insurance claims processing, e-prescription connectivity and pharmacy workflow management services, enabling clients to improve operations and workflow, expand their businesses, bolster their data analytics, increase patient engagement and drive increased healthcare outcomes.	
PANTHERx Rare	Manufacturer of a pharmacy company focused on specializing in rare and specialty diseases. The company's pharmacy offers medicine and cares for patients afflicted with diseases such as Aids, multiple sclerosis, hypophosphatasia, and sleep-wake rhythm disorder, thereby enabling patients to receive life-transforming therapies for their devastating diseases.	The company was acquired by Warburg Pincus and Abu Dhabi Investment Authority through an estimated \$7 billion LBO on September 25, 2026.
Pediatric Group Of Acadiana	Provider of pediatric and family medical services intended for patients in the Acadiana region. The company offers well-child checkups, immunizations, acute illness care, sports physicals, prenatal care and asthma care, enabling infants, children, adolescents, and adults to receive comprehensive healthcare and diagnostic services.	

Company Name	Description	Deal Synopsis
Pinnacle Research Group	Provider of clinical research services intended to support the assessment of new drugs and devices. The company operates a 13,600-square-foot stand-alone clinical research facility, features a dedicated 16-bed Phase I unit, conducts Phase I through Phase IV clinical trials, maintains a large database of potential participants, and includes specialized equipment for obesity research, enabling pharmaceutical and biotechnology clients to accelerate drug development timelines and access specialized inpatient facilities for early-phase clinical monitoring.	
Prairie Kids Dental	Provider of pediatric dental services intended for infants, children, and adolescents. The company offers preventive care, restorative treatments, and sedation dentistry, enabling young patients to maintain optimal oral health through advanced technology and a wellness-focused, child-centered environment.	
Prime Psychiatry	Provider of mental health care services intended to offer evidence-based psychiatric treatment. The company utilizes innovative treatments and lifestyle medicine to provide psychiatric evaluations, medication management, transcranial magnetic stimulation, spravato therapy, addiction treatment, individual counseling, family counseling, and disability evaluations, enabling adults and adolescents to access innovative treatments for treatment-resistant depression and receive specialized care for co-occurring mental health and substance use disorders.	
Probo Medical	Provider of surgical equipment repair services designed for healthcare facilities. The company specializes in equipment, endoscopes and instrument repair management tools and provides medical instrument identification and repair services, thereby helping medical companies to keep records of repair history, quarterly cost-saving reports and current repair status of medical equipment.	
Prolytix	Operator of a contract research organization (CRO) intended for the biopharma industry. The company provides research reagents, customized blood collection tubes, as well as protein biochemistry services, including assay development, validation, and stability testing, thereby providing clients with complete services from discovery to Good Manufacturing Practice (GMP) release of large-molecule therapeutics.	

Company Name	Description	Deal Synopsis
Radiographic Testing Services	Provider of diagnostic and nuclear medicine testing services designed to support medical diagnosis and patient care. The company offers imaging and testing services, enabling healthcare providers to accurately diagnose and monitor patient conditions.	
Santa Barbara Fertility Center	Provider of reproductive medicine services intended to assist individuals in achieving pregnancy. The company offers fertility testing, egg freezing, sperm freezing, egg donation, surrogacy and laboratory procedures, providing patients with medical interventions to address infertility and facilitate family planning.	
Shine Pediatric Therapy	Provider of behavioral therapy services intended to support children with autism spectrum disorder. The company offers early intervention programs, school readiness centers, in-home behavioral support, social skills training, emotional regulation instruction, and daily living skills development, providing individualized treatment plans to improve functional communication and independence.	
South Jersey Pediatric and Adult Infusion Center	Provider of ambulatory infusion services intended to provide medically prescribed treatments for pediatric and adult patients. The company offers physician-ordered infusion services, clinical supervision, treatment coordination, insurance navigation, pediatric care, and chronic disease management, providing patients with medically supervised therapies in a comfortable outpatient setting.	
SupplyRx	Developer of pharmacy e-card software designed to provide clinical supply for research studies. The company's platform offers cloud-based reporting, transparent pricing and secure data storage, providing sponsors and clinical research organizations with efficient medicine dispensing and compliance monitoring.	
Terso Solutions	Developer and manufacturer of an automated system for tracking high-value medical and scientific products in healthcare and laboratory supply chains. The company developed a reagent stocking system that uses RAIN radio-frequency identification (RFID) tags along with secure access control, linked to the internet, thereby eliminating manual processes, reducing inventory management costs and preventing product expirations.	

Company Name	Description	Deal Synopsis
Three Rivers Therapy	Provider of community-based behavioral health services intended to provide personalized mental health care to children, families, and individuals, with a focus on equity and access. The company offers personalized outpatient counseling, intensive services for Medicaid-eligible youth, and peer support programs, thereby enabling individuals and families to navigate mental health challenges with community-based, compassionate care.	
Veale Dentistry	Provider of dental care services intended to maintain and improve oral health for patients. The company offers teeth cleaning, dental fillings, tooth extractions, dental implants, teeth whitening, and dental veneers, providing dental treatments to help individuals achieve optimal oral health.	
Vyne (Dunwoody)	Operator of a healthcare information exchange platform intended for secure transmission, presentation, and storage of medical documents and management of healthcare communication. The company's platform facilitates the electronic capture, storage, and submission of healthcare data in any form including voice, fax, image, data, and electronic document, enabling medical and dental providers, partners, and payers to manage critical information, close the gaps in documentation and improve the continuum care through a fully accessible patient record.	
WellHaven Pet Health	Provider of veterinary practice management services intended for veterinarians. The company offers clinic business support covering finance, Human Resources (HR), purchasing, payroll, marketing, Information Technology (IT), and operational logistics, thereby helping veterinarians focus on animal care by alleviating administrative and operational burdens.	
WellMed Optum Florida	Provider of healthcare services intended to provide proactive and preventive care for seniors. The company offers primary care, specialty care, virtual care, palliative care, ambulatory care, and diagnostic services, enabling patients to manage their health through a physician-led network and coordinated care model.	
West Texas ENT	Operator of a medical clinic intended to provide ear, nose, and throat care. The company offers sinus treatments, allergy immunotherapy, hearing evaluations, thyroid nodule ablation, sleep apnea care, and earwax removal, enabling patients to receive minimally invasive medical treatments for chronic respiratory and sensory conditions.
