There were 254 completed U.S. private equity deals in the Business Products & Services sector during the month of October. The number of deal transactions decreased 15.6% when compared to September's deal count. There was a 26.6% decline in the number of Business Products & Services deals compared to October 2025.

Business Products and Services Deals for October 2026

Company Name	Description	Deal Synopsis
4thGEN Wealth Management	Provider of financial advisory services intended to build and preserve wealth for multi-generational clients. The company offers investment management, retirement planning, business succession planning, wealth transfer services, family partnerships, and charitable planning, providing business owners and agricultural families with fee-based wealth management to facilitate long-term financial stability.	
99 West Paces	A 312-unit apartment tower located in Atlanta, Georgia.	The company was acquired by Hines Global Income Trust through an estimated $240 million LBO on October 7, 2026.
A A A Attorney Service Co Of New York	Provider of legal support services intended for law firms and corporate legal departments. The company offers process serving, court filing, skip tracing, document retrieval, clerical support, and subpoena preparation, enabling clients to manage litigation operations and ensure timely delivery of legal notices through GPS-tracked verification.	
AAA Attorney Service	Provider of legal support services intended to assist attorneys and law firms with court-related procedures. The company's services include nationwide process serving, electronic filing, and document recording, enabling legal professionals to manage case documentation and service of process through integrated court portals and specialized concierge support.	
Action Manufacturing Company	Manufacturer of precision ordnance products designed for military munitions programs. The company offers point-detonating fuzes, safe and arm devices, electronic initiators, energetic components, ordnance electronics, and prototype fuzes, providing military agencies and defense prime contractors with vertically integrated manufacturing, energetics loading, and qualification testing for artillery, mortar, and rocket systems.	
Advanced Barrier Extrusions (ABX Manufacturing Facility in Pewaukee, Wisconsin)	A printed packaging and specialty labels manufacturing facility located in Pewaukee, Wisconsin. The asset produces flexible packaging, folding cartons, and conductive films with in-house ink formulation, enabling industrial and consumer brands to access integrated labeling and functional printing solutions through a single-source manufacturing partner.	

Company Name	Description	Deal Synopsis
Advanced CNC Industries	Provider of Computer Numerical Control (CNC) machining services intended to produce complex metal and plastic components. The company utilizes computer-aided design modeling, mastercam programming, cnc milling, cnc turning, and metal fabrication, providing aerospace, defense, and medical sectors with precision engineering, operational consulting, and project management.	
Advanced Industrial Devices	Manufacturer of electric motors, controls and drives designed to serve the electrical sector. The company offers a range of products like electrical motors, electrical components, AC/DC variable speed drives services, harmonic filters, first-line filters and other products, thereby helping oil and gas producers, electrical contractors, industrial end-users, manufacturers and companies to avoid downtime.	
Aero Precision	Manufacturer of precision firearm components designed primarily for military personnel, veterans, law enforcement and first responders. The company offers firearm components, accessories, supplies and apparel manufactured with military specifications, enabling clients to ensure consistent performance and safety.	
Aero-Mach Labs	Manufacturing of aircraft instruments, repair, overhaul, and services intended for general, commercial, and military aviation sectors. The company offers FAA- and EASA-certified maintenance, repair, and overhaul for flight instruments, fuel quantity systems, gyroscopes, and engine indicators, providing aircraft operators and maintenance facilities with component-level testing and rotable exchange units, enabling clients to maintain flight instrumentation reliability, adhere to aviation safety standards, and minimize operational downtime.	
Air Comfort Group	Provider of HVAC services intended to maintain climate control systems. The company offers custom fabrication of equipment, in-house design, NATE-certified diagnostics, twenty-four-seven emergency response, specialized maritime maintenance, and control system optimization, enabling residential and industrial clients to manage refrigeration and ventilation requirements.	
Airglas	Manufacturer of aircraft landing skis and cargo pods intended for backcountry and military aviation. The company offers aircraft skis, helicopter skis, military skis, cargo pods, fuel pods, heavy-duty nose forks, hydraulic ski systems, straight skis, penetration skis, extended baggage pods, bungee stretchers and aircraft landing gear components, enabling pilots to operate in remote environments and land on soft terrain.	

Company Name	Description	Deal Synopsis
Airtest (Construction and Engineering)	Provider of HVAC testing, adjusting, and balancing services intended for commercial and industrial facilities. The company offers HVAC system balancing, mechanical system commissioning, stairwell pressurization testing, elevator shaft testing, smoke control inspections, duct leakage testing, sound testing, building envelope testing, AAALAC recertification, and fire life safety testing, enabling clients to optimize energy efficiency.	
Alan Gray	Provider of insurance claims management and audit advisory services intended to serve insurers and reinsurers, self-insured corporations and public entities. The company offers a range of services, including claims administration, legal bill auditing, reinsurance collections, risk management and actuarial services, enabling clients to optimize claims, ensure compliance and reduce risks significantly.	
All Star Garage Door	Provider of garage door services intended to enhance residential and commercial property aesthetics. The company offers custom garage door and gate installation, repair, and maintenance, providing antique distressing, custom staining, hand-crafted ironwork, and decorative hardware to improve property security and curb appeal.	
ALLO Communications (Fiber Network and Customer Accounts in Joplin, Missouri)	A fiber network and customer accounts located in Joplin, Missouri. The portfolio consists of different network infrastructure spaces.	
Alpha Investment Consulting Group	Provider of investment consulting services intended to drive better financial and investment outcomes for clients. The company offers investment policy development, asset allocation studies, manager selection, fiduciary governance, fee negotiation, and performance monitoring, providing independent and objective investment advice to pension plans, charitable organizations, and high-net-worth individuals to help them achieve their financial goals.	
American Tool & Mold	Manufacturer of precision multi-cavity molds designed for the plastic injection molding industry. The company's products include thin-wall, stack, hot runner, unscrewing and two-shot molds, enabling the packaging, medical and consumer goods sectors to achieve high-volume production with complex and precise tooling specifications.	

Company Name	Description	Deal Synopsis
ApHinity Technologies	Provider of environmental engineering services intended to advance site-specific goals related to air quality and water footprint. The company offers air emissions treatment, water footprint optimization, wastewater recovery, heavy metal removal, equipment infrastructure design, and controls automation, enabling clients in the healthcare and manufacturing sectors to achieve environmental sustainability through custom-engineered solutions.	
Aqua Products	Distributor of water and wastewater treatment equipment intended for the municipal and industrial sectors. The company offers metering pumps, monitoring systems, and chemical storage tanks from various manufacturers, enabling facility operators to access specialized fluid management technology and technical support services to optimize treatment plant efficiency and reliability.	
Arbour Group	Provider of regulatory compliance and validation services intended for risk management in life sciences. The company offers software assurance, digital compliance, and managed services, thereby enabling pharmaceutical, biotechnology, medical device, and diagnostic markets to maintain regulatory adherence while reducing operational costs.	
Armentum Partners	Provider of debt capital advisory services intended to serve emerging growth companies in the healthcare and technology sectors. The company offers capital structure optimization, debt syndication, mezzanine financing, venture debt, and acquisition financing, enabling public and private companies to secure cost-effective debt solutions and optimize financial strategies for growth.	
Athletic Decals	\Manufacturer of athletic decals and stationery products intended for the sports and collegiate sectors. The company produces officially licensed helmet decals and sports-themed stationery, enabling athletic equipment dealers and sports teams to access quality identification and branding materials through a specialized distribution network.	
Atlas Home Improvement	Provider of residential remodeling services intended for homeowners in Michigan. The company offers walk-in tubs, seamless gutters, gutter helmets, cabinet refacing, stair lifts, quartz countertops, mosaic backsplashes, luxury vinyl flooring, walk-in showers, and ADA-compliant kitchens, enabling residents to improve the safety and functionality of their homes through specialized aging-in-place modifications and aesthetic renovations.	

Company Name	Description	Deal Synopsis
Aucoin Telecom & Utility Construction	Provider of infrastructure construction and maintenance services intended for the telecommunications and power industries. The company offers aerial and underground construction, fiber splicing, cell site builds, transmission tower maintenance, and generator installations, enabling utility operators and telecom providers to build and repair critical infrastructure across regional markets.	
Bacari (3 Commercial Properties in Houston, Texas)	A portfolio of three commercial properties in Houston, Texas. The portfolio includes properties at 1816 Indiana Street, 2012 Dunlavy Street, and 2014 Dunlavy Street.	
Bailey Edward	Provider of integrated architecture and engineering services intended for government, education and healthcare sectors. The company offers architectural design, MEP engineering, interior design, master planning, facility condition assessments and historic preservation, providing mission-driven clients with sustainable environments and adaptive reuse solutions.	
Baltimore Pike Cemetery	A historic cemetery of approximately 100 acre located in Cincinnati, Ohio.	
Bao Consulting Group	Provider of accounting advisory services intended to address complex business needs. The company offers accounting advisory, finance transformation, transaction advisory, cfo support, financial planning, and systems implementation, providing middle-market companies with strategic expertise to address complex business needs.	
Belyea Company	Distributor of electrical power equipment intended to serve utilities, businesses, electrical cooperatives, hospitals and universities. The company offers transformers, circuit breakers, switchgear, substations, power generation equipment and other electrical equipment, along with refurbishment and field services, thereby enabling clients to maintain reliable electrical power systems.	
Benchmark Engineering & Surveying	Provider of civil engineering and land surveying services intended for municipal and private clients. The company offers boundary surveys, topographic mapping, roadway design, subdivision planning, structural consulting and utility design, enabling clients to complete infrastructure and site development projects with precision and technical expertise.	

Company Name	Description	Deal Synopsis
Beyond Engineering & Testing	Provider of geotechnical engineering and construction materials testing services intended to serve the infrastructure and energy sectors. The company's services include subsurface exploration, laboratory testing, and construction inspection, enabling public and private entities to ensure project compliance and structural integrity through advanced geotechnical analysis and automated materials testing facilities.	
Blue Spark Capital Advisors	Provider of wealth management and financial planning services intended for individual women and women-owned businesses. The company operates as a fee-only boutique firm, specializes in guiding women through life transitions, utilizes an endowment method for cash flow matching, employs a personal financial dashboard, and integrates evidence-based investing, enabling clients to navigate complex financial transitions such as divorce or retirement with specialized advisory support.	
BMI HVAC Supply	Supplier of heating and cooling equipment intended for professional contractors. The company distributes residential and commercial furnaces and boilers, supplies ductless systems and heat pumps, provides air conditioning equipment and related parts, offers indoor air quality systems and air cleaners, stocks radiant and hydronic heating components, and delivers specialized tools, fasteners, and galvanized sheets, enabling heating, ventilation, and air conditioning (HVAC) contractors to procure professional-grade heating and cooling equipment from a single wholesale source.	
Bowles Heating and Cooling	Provider of HVAC services intended to maintain indoor climate control for residential and commercial properties. The company offers air conditioning installation, furnace repair, HVAC maintenance, duct sealing, insulation services, and air quality solutions, enabling clients to manage indoor temperatures and improve energy efficiency.	
Buffkin Baker	Provider of recruitment and executive search services intended to serve healthcare, higher education, private equity, entertainment, media and other industries. The company offers a tailored search process, a career portal and professional candidate interactions, thereby helping organizations to find professional candidates with the required expertise conveniently.	

Company Name	Description	Deal Synopsis
C. Cowles & Co.	Manufacturer of oil and gas-fired burners and operating controls intended for the automotive, heating and other industries. The company's products are used in residential and commercial heating applications, precision plastic injection-molded parts and plastic profile extrusions.	
C&D Technologies	Manufacturer and supplier of integrated reserve power batteries designed for regulating and monitoring power flow and providing backup power. The company offers manufacturing, engineering, supplying, and servicing innovative products and applications, enabling clients to facilitate their power system integration, storage, and conversion for the utility, telecommunication, and uninterruptible power supply effectively.	
Canworks	Provider of printing services that directly print onto aluminum cans intended to offer quality beverage cans to breweries. The company takes blank aluminum cans, prints them digitally, and features full-CMYK (cyan, magenta, yellow, and key black) color profiles which ensure there are no seams, and no color separation, enabling beverage companies to purchase the printed cans in the market in smaller quantities.	
Capsum	Provider of contract manufacturing services intended to create beauty products. The company offers microfluidic technology, surfactant-free encapsulation, customized machinery, sustainable manufacturing, and drop-by-drop production, enabling beauty brands to develop skincare, makeup, and fragrance products with unique sensory and visual characteristics.	
Carus	Provider of hardware and software services designed for automated check-in and boarding; and routines for customer relationship management and business intelligence. The company's services offer to design, develop, and deliver reservation and check-in systems and e-commerce applications to the cruise and ferry industry in Europe, North America, the Baltic, the Pacific Ocean, Australia, Africa and internationally, enabling clients in the travel and transport industry to meet the ever-changing operational demands.	

Company Name	Description	Deal Synopsis
Champion Coach	Provider of charter transportation services intended to provide safe and comfortable group travel. The company offers a fleet of motorcoaches equipped with advanced technology and amenities, providing charter bus rentals, shuttle services, sports team transportation, corporate event travel, school group transport and luxury motorcoach travel, enabling athletic teams and corporate groups to access coordinated ground logistics for professional travel requirements.	
Channel99	Developer of a b2b marketing technology platform intended for investment optimization and attribution. The company offers marketing attribution, account identification, AI-driven investment optimization, b2b ad verification, and paid search optimization services, enabling enterprise marketing teams to connect digital spend to pipeline outcomes and revenue.	
Cherokee Mechanical	Provider of HVAC services intended for residential and commercial properties in Northwest Georgia. The company offers air conditioning units, furnaces, geothermal systems, heat pumps, air purifiers, and thermostats, providing clients with factory-authorized installation, maintenance, and 24/7 emergency repair services through NATE-certified technicians.	
Choice Pest Management	Provider of pest management and lawn care services intended for residential and commercial properties. The company offers ant control, bed bug treatment, mosquito control, rat control, termite inspection, and lawn fertilization, providing homeowners and businesses with specialized treatments for pest elimination and landscape maintenance.	
City Engineering Contractors	Provider of underground utility and sitework contracting services intended for dense urban and high-rise construction. The company offers underground utility work, water and sewer installation, storm drainage systems, electrical duct banks, roadway paving, and site concrete work, enabling developers to streamline complex urban construction through self-performed underground utility and site work.	
Civilitude	Provider of civil engineering services intended for public and private land development projects. The company specializes in civil engineering and land planning services with a focus on navigating complex regulatory environments for urban and suburban development, enabling public and private clients to implement sustainable infrastructure solutions and navigate complex municipal permitting processes.	

Company Name	Description	Deal Synopsis
Clear Channel Outdoor Holdings	Provider of outdoor advertising services intended to connect brands with consumers in high-traffic locations. The company offers audience data analytics, programmatic ad buying, digital display management, mobile location tracking, campaign measurement tools, and creative design support, enabling advertisers to reach large audiences in high-traffic physical locations and measure the impact of outdoor campaigns using data-driven insights.	The company was acquired by Mubadala Capital and TWG Global through a $6.2 billion public-to-private LBO on October 14, 2026, for an undisclosed amount. The investor group will provide approximately $3 billion in equity capital. The transaction was supported by $100 million of debt financing. The funds will be used to redeem $1.87 billion in notes and for general corporate and acquisition purposes.
Cleartrace Technologies	Developer of energy and carbon accounting technology designed to accelerate and scale renewable production without massive subsidies. The company's technology implements digital infrastructure to create accurate and verifiable energy emissions data, enabling corporations, real estate owners, and renewable energy suppliers to achieve their sustainability and financial goals.	
Colossus Creative Company	Operator of an advertising and creative agency intended to enhance brand presence and engagement. The company offers advertising campaigns, brand strategy, design services, media planning, performance marketing and identity development, enabling consumer and healthcare brands to break through market noise and engage effectively with audiences.	
Comm-Fit	Provider of fitness facility solutions to the commercial fitness industry, athletic, multi-purpose, or fitness facility projects. The company offers turnkey solutions to health and wellness and fitness facilities including sales, service and maintenance of fitness equipment, sales and installation of flooring, and sales of disinfecting products and services.	
Complete Legal (Legal Services)	Provider of litigation support services intended to assist law firms and legal teams. The company's technology utilizes remote depositions, data forensics, electronic discovery, litigation graphics, document scanning, secure file delivery, file conversion, and audio and video support, enabling legal professionals to access court reporting, records retrieval, videography, and document management solutions for complex cases.	

Company Name	Description	Deal Synopsis
Controls For Automation	Distributor of fluid power and automation components intended for the medical and industrial sectors. The company offers cylinders, actuators, and sensors alongside contract manufacturing, control panel design, and sub-assembly fabrication, enabling manufacturers in the semiconductor and aerospace industries to optimize their production lines through specialized technical engineering and inventory management solutions.	
Corwin Health Physics	Provider of medical physics consulting services intended to support radiation safety, imaging quality, and regulatory compliance at medical facilities throughout the Pacific Northwest. The company offers X-Ray, computed tomography (CT), magnetic resonance imaging, nuclear medicine, and mammography system evaluations, along with other services, including ultrasound evaluations, radiation safety consulting, shielding designs, radiation survey meter calibration, and training, enabling healthcare facilities to maintain equipment performance and meet radiation safety requirements.	
Cosmic Fischer	Provider of locksmithing and door security services intended for residential and commercial properties. The company offers mechanical lock installation, architectural door retrofitting and access control systems featuring a large inventory of hardware and 24/7 emergency support, enabling property managers and homeowners to secure their entries and manage facility access.	
Cross Border Connect	Provider of cross-border shipping and returns services intended to connect international shippers with the United States domestic market. The company offers Harmonized System classification, customs clearance, delivery and returns services, and access to a regional carrier network, enabling businesses to manage international shipping and supply chain operations.	
CSB Nutrition	Provider of contract manufacturing services intended for the nutritional supplement industry. The company offers product formulation, encapsulation, tablet pressing, and in-house laboratory testing, enabling dietary supplement and sports nutrition brands to develop and manufacture market-ready wellness products through certified state-of-the-art facilities.	

Company Name	Description	Deal Synopsis
Cyber Insurance Academy	Operator of cyber insurance academy designed to educate the insurance industry and provide insurance professionals with the knowledge needed to work in cyber-insurance and cyber-related insurance fields. The company offers an online training course which covers a wide range of topics, from cyber security fundamentals to advanced cyber insurance subjects, cyber underwriting, claims and incident response, risk management, regulatory compliance, IT management and more.	
d8 group	Provider of business development and capture support services intended for government contracting firms. The company utilizes a proprietary methodology to identify and qualify federal market opportunities, providing defense and civilian agency contractors with pipeline development, proposal writing, market intelligence and merger support to maximize contract award success.	
Delta Group (Security Services)	Provider of security and investigation related services intended to provide risk management excellence while incorporating and evolving our leading-edge technology and analytical expertise. The company is known for fraud management and investigative bandwidth ensuring its partners to receive superior results through ethical and comprehensive services and delivery, helping its clients with a results-driven approach that inspires the production of superior products and service.	
Direct Electric Services	Provider of electrical contracting services intended to maintain commercial and institutional building systems. The company specializes in high-end, fast-track commercial office interior demolition, build-out, and renovations; generator and uninterruptible power supply integration; biomedical facility electrical work; and historical renovations, providing commercial and institutional clients with specialized infrastructure maintenance and electrical system installations.	
Disaster Restoration Services	Provider of emergency restoration and reconstruction services intended to restore residential and commercial properties after fire, water and mold damage. The company offers a range of services, including water extraction, fire cleanup, mold remediation, sewage cleanup, structural reconstruction and other related services, enabling clients to recover from catastrophic losses and reduce business downtime.	
Discovery Search Partners	Provider of executive search services intended to provide recruitment services. The company offers services in executive search, market assessment and competitive intelligence, enabling clients to get suitable candidates as per their needs.	

Company Name	Description	Deal Synopsis
Dragon Army	Provider of digital agency services intended to build brands and digital experiences. The company utilizes behavioral psychology, engagement drivers, and applied game theory, providing large enterprises with brand identity, user experience design, mobile application development, web development, augmented reality, and digital marketing to drive business growth and brand engagement.	
Dux Beds & Furniture (North American Distribution Business)	Distributor of luxury beds and furniture intended to supply premium sleep products across North America. The company offers beds and furniture featuring Scandinavian design, traditional Swedish craftsmanship, and personalized comfort systems, enabling retail customers, interior designers, and luxury hospitality operators to access premium sleep products.	
Echo Wealth Management	Provider of wealth management services intended to simplify financial planning for individuals and families. The company offers financial planning, investment management, retirement planning, tax planning, estate planning, and wealth management, enabling corporate executives and business owners to achieve financial independence through tech-integrated roadmaps and proactive stock option monitoring.	
Electro-Spec	Provider of electroplating services intended for high-reliability industrial applications. The company utilizes controlled-depth plating systems, automated flight bars, and selective gold plating, providing the aerospace, medical, and automotive sectors with electroless nickel plating, surface finishing, and quality testing.	
Empty Building Security	Provider of vacant property security services intended to protect buildings from unauthorized occupancy. The company offers modular steel door guard, steel window guards, security panel rental, professional installation, guard removal, and regular maintenance inspections, enabling property managers to secure vacant assets while maintaining curb appeal and contractor access.	
Engineering and Testing Services	Provider of geotechnical engineering services intended to support construction projects. The company offers geotechnical engineering, construction materials testing, special inspections, subsurface investigation, laboratory testing, and foundation recommendations, enabling clients to receive technical data and engineering oversight for infrastructure and building developments.	

Company Name	Description	Deal Synopsis
Enprotec / Hibbs & Todd	Provider of engineering consulting services intended to improve community infrastructure and preserve natural resources. The company offers water resources engineering, wastewater services, civil engineering, environmental consulting, construction management and land surveying, providing public-sector and utility clients with infrastructure design and sustainable development support.	
EPIC Piping	Manufacturer of turn-key industrial pipe fabrication systems intended for power generation, pipeline transmission, offshore, subsea, structural steel, and mining markets. The company offers pipe fabrication, structural pipe supports, industrial blasting, and coating, and supply chain optimization as well as provides machining, testing, and pipe-cutting services, thereby helping clients to reduce material delays and control the supply chain.	
Equify Advisors	Provider of business systems consulting and advanced analytics services intended for growing organizations. The company offers netsuite implementation, erp optimization, and data warehousing alongside artificial intelligence and machine learning solutions, enabling finance and accounting departments to streamline operational processes and gain actionable insights through integrated technology and data-driven decision support.	
Erie Foods International	Producer of dairy ingredients intended for the food and pharmaceutical sectors. The company offers milk protein concentrates, whey protein concentrates, caseinates, milk protein crisps, dairy blends, and custom processing services, providing food manufacturers with functional proteins for nutritional supplements and bakery products.	
EspriGas	Provider of medical and industrial gases intended for food and beverage, healthcare, construction and manufacturing industries The company offers nitrogen, oxygen, helium, propane, carbon dioxide and medical mixtures, enabling clients to receive a proper gas supply network for their requirements.	
ESSI Midwest	Provider of material handling installation services intended for warehouse environments. The company offers pallet racking installation, shelving system assembly, warehouse reconfiguration, racking repair, teardown services, storage system builds, enabling distribution centers and fulfillment operations to optimize storage capacity across ambient and cold-chain facilities.	

Company Name	Description	Deal Synopsis
Ethiqly	Operator of a digital writing platform intended to enhance writing instruction. The company's AI-powered teaching assistant helps teachers give personal, contextual feedback to every student without adding and offers features such as insight tracking and custom rubrics and centralizes information while freeing up headspace for teachers to focus on their craft, enabling users to support students throughout the writing process to promote engagement.	
Exolaunch	Provider of satellite launch services intended to provide access to space for small satellites. The company offers shock-free separation systems, modular cubesat deployers, multi-satellite adapters, deployment sequencers, and integration services, enabling commercial and government organizations to deploy small satellites into orbit with high reliability.	The company was acquired by EQT through a $339 million LBO on October 7, 2026.
Express Wash Concepts (Three CleanHub Car Wash Locations in Detroit, Michigan)	Portfolio of three car wash locations located in Detroit, Michigan.	
Exterior Solutions Group	Provider of commercial roofing services intended for building owners and facility managers. The company offers commercial roofing, waterproofing, roof coatings, green roofs, exterior walls, and roof maintenance, enabling clients to protect and maintain their building envelopes through strategic planning and manufacturer-certified installations.	
Extra Duty Solutions	Provider of extra-duty administration services intended to relieve administrative burden for law enforcement agencies. The company offers financial risk mitigation, client invoicing, officer payment, extra-duty program administration and turnkey software that handles customer interaction, enabling law enforcement agencies to focus on public safety by automating payroll processing and vendor management.	The company was acquired by Bregal Sagemount through a $72.5 million LBO on October 6, 2026.
F&B MFG	Provider of metal fabrication services intended to provide precision components for critical industrial applications. The company offers sheet metal fabrication, metal forming, precision machining, non-destructive testing, welding and assembly services, enabling the aerospace, defense and semiconductor industries to obtain complex metal geometries through integrated manufacturing processes.	

Company Name	Description	Deal Synopsis
Falcata	Provider of engineering services intended to support advanced sensor and radar technologies. The company offers engineering services, radar systems, fire control systems, sensor simulation software, microwave test equipment, and technical life cycle support, providing government agencies and private industry with specialized technical expertise for defense and aviation applications.	
FedEx Supply Chain	Genco Corp holds a business of managing both hazardous and non-hazardous industrial waste, offering services for collecting, storing and transporting industrial waste.	The company, a subsidiary of FedEx, was acquired by CMA CGM, via its financial sponsor Bpifrance, through a $1.4 billion LBO on October 1, 2026.
FHHP	Provider of accounting and advisory services intended to optimize business operations. The company offers accounting, auditing, tax services, financial planning, valuation consulting, and advisory services, providing mid-market enterprises with compliance and business optimization.	
Filtration & Hose Specialties	Provider of industrial and oilfield supplies intended for the energy and manufacturing sectors. The company offers hydraulic hose assemblies, industrial hose assemblies, filtration products, pipe fittings, valves, and V-belts, designed to support oilfield operations and industrial maintenance through regional distribution and emergency technical support.	
Filtration Corporation of America	Distributor of filtration and fueling equipment intended for the aviation and petroleum industries. The company offers horizontal filter separators, aviation coalescer cartridges, automatic control valves, aircraft refueling nozzles, api fueling hoses and fuel sampling equipment, enabling airports and fuel storage terminals to maintain fueling operations through technical support and on-hand inventory.	
Fitnessmith	Provider of fitness facility design services intended to create customized commercial workout environments. The company offers gym design, equipment procurement, professional installation, commercial flooring, equipment maintenance, and recovery environment design, providing health clubs with turnkey facility development from initial concept to final assembly.	
flexPATH Strategies (Plan-Level 3(38) Business)	Provider of fiduciary services intended to support employee retirement planning reliably.	

Company Name	Description	Deal Synopsis
Flutter FETTI	Manufacturer of aerodynamic confetti designed for events. The company offers rectangular tissue confetti, metallic streamers, hand-held launchers, co2 cannons, continuous flow blowers, and biodegradable party supplies, providing event planners with visual effects that float longer than traditional alternatives to create memorable celebration moments.	
Fond Du Lac Cold Storage	Provider of third-party logistics services intended to enhance supply chain performance. The company offers temperature-controlled warehousing, refrigerated transportation, customs-bonded storage, final-mile delivery, and order fulfillment, enabling wine and spirits importers to maintain product integrity during regional distribution.	
Forensic Accountants & Consultants	Provider of forensic accounting and litigation consulting services intended to serve legal and business clients in the United States. The company offers forensic accounting, litigation support, fraud investigation, business valuation, economic damage assessment and other related services, thereby enabling clients to address financial disputes and legal matters through financial analysis.	
Franklin Pharmaceutical Consulting	Provider of specialized consultancy services intended to support the pharmaceutical and life sciences industries. The company offers HEOR strategy, real-world evidence generation, market access consultancy, payer-value communication, dossier development, life cycle management, and evidence-based implementation, enabling clients to communicate product value and secure reimbursement from access decision-makers.	
Fraza	Provider of material handling and facilities management solutions intended to serve the industrial and warehouse sectors. The company's services include equipment sales, rentals, and fleet management, enabling businesses to improve operational efficiency through integrated telemetry, automated guided vehicles, and certified operator training programs.	
Freedom Waterworks	Manufacturer of industrial piping systems intended for water and wastewater infrastructure. The company offers custom pipe fabrication, plasma cutting services, cad drawing development, protective lining application, industrial coating services and specialized infrastructure transport, enabling municipal water authorities to obtain custom-fabricated pipe components that match exact project specifications.	

Company Name	Description	Deal Synopsis
Freeit Data Solutions	Provider of IT and cybersecurity services intended to help organizations manage and secure data. The company offers data center design, cybersecurity deployment, cloud migration, software-defined storage, and data replication services, enabling mid-to-large-sized organizations to simplify technology implementation and strengthen operational continuity.	
FreeStar	Developer of a monetization software designed for online publishers. The company's software provides custom header bidding, reporting as well as application monetization to provide financial assistance to websites, enabling clients to outsource their advertising sales function and capture increased advertising revenue.	
Fulcrum Strategies	Provider of healthcare consulting services intended to assist physicians with managed care contract negotiations. The company offers payer contract negotiation, strategic planning, mergers and acquisitions, speaking and seminars, public relations, and medical marketing, providing medical practices with professional negotiation resources and strategic planning to improve reimbursement rates and business success.	
Georgia Metals	Manufacturer of metal construction products intended primarily for use in roofing, wall panels, and other metal building-related products and accessories. The company's range of products includes metal trim and cutters, panel roofing, barndominiums, steel buildings, and pole barns, enabling its clients to obtain their desired products at an efficient cost.	
Georgia Renewable Power	Operator of a renewable energy company designed for the generation of baseload electricity. The company utilizes biomass combustion, steam turbine generation, combined heat and power, emission control, fuel handling systems, and wholesale power transmission, enabling utility companies to source renewable power from organic waste materials.	
Get Engaged	Provider of influencer marketing services intended to enhance brand visibility and engagement. The company utilizes cross-platform orchestration and proprietary technology to build connections between celebrities, creators and brands, providing entertainment and retail sectors with campaign ideation, social media management, influencer marketing, community management, brand strategy and talent partnerships to drive audience engagement.	The company was acquired by SAMY Road, via its financial sponsor Bridgepoint Group, through a $100 million LBO on October 6, 2026.

Company Name	Description	Deal Synopsis
Glide Xpress	Provider of car wash services intended to combine speed and automation to get a smooth ride. The company's services offer a moving floor system that allows for easy loading and unloading of vehicles without the worry of misaligning wheels and potentially damaging rims as well, enabling customers to get a fast, convenient car wash with premium technology and friendly staff.	
Global Management Partners	Operator of a project management firm intended to support the delivery of high-value capital projects. The company offers program management, project management, owner's engineering, procurement services, strategic planning, and project controls, enabling industrial clients to streamline project execution and mitigate risks through integrated management teams and performance monitoring.	
Global Promotional Sales	Distributor of specialized promotional products and educational materials intended to support awareness and prevention campaigns. The company offers custom apparel, drinkware, and ready-made event kits for military and community programs, enabling awareness coordinators to promote health, wellness, and safety initiatives through visible and effective outreach materials.	
Global Services (Consulting Services)	Provider of federal proposal development and GSA schedule support services intended for government contractors. The company offers GSA schedule support, federal proposal development, GWAC proposal services, MAC proposal services, OASIS+ proposal support, proposal team training, compliance templates, proposal management, scorecard assessments, and government contracting classes, enabling clients to win federal contracts.	
Gooch & Housego	Manufacturer of photonics components intended for aerospace, industrial, and life sciences applications. The company offers optical filters, laser protection, periscopes, sighting systems, fiber-coupled devices, and lithium niobate wafers, enabling optical components and integrated photonic subsystems for harsh environments and diagnostic equipment.	The company was acquired by Arlington Capital Partners through a GBP 345.6 million public-to-private LBO on July 16, 2026. The transaction was supported by $300 million of debt financing. Under the terms of the agreement, shareholders of the company will receive 1,230 pence in cash for each share they hold, plus a previously declared interim dividend of 4.9 pence per share, for a total value of 1,234.9 pence per share.
Graphite Design Group	Provider of architectural and interior design services intended for the commercial and retail sectors. The company offers architectural design, interior design, brand strategy, experience strategy, concept development, and prototype delivery, enabling commercial developers and retail brands to create integrated environments that align with corporate identities and community needs.	

Company Name	Description	Deal Synopsis
Greenhome Specialties	Provider of energy-efficient insulation services intended for residential properties in Utah. The company offers installation of eco-friendly insulation products made from recycled materials with no volatile organic compounds, enabling homeowners to reduce energy costs and access utility company rebates through professional weatherization improvements.	
GreenVest (Environmental Services)	Provider of environmental development and consulting services intended to align financial goals with sustainable solutions to develop projects that have a positive impact on future generations. The company's service offering includes habitat restoration and design, stormwater management design and implementation, construction and construction management and maintenance and monitoring services, helping clients achieve their programmatic goals.	
GreenWaste San Leandro Transfer Station	Provider of waste management and recycling services intended to accelerate the transition to a circular society. The company offers recycling services, waste collection, debris box rentals, bulk compost, recycled mulch, aggregate base rock, providing state-of-the-art resource recovery facilities and high-diversion processing to enable residential and commercial customers to maximize material reuse and meet sustainability requirements.	
Greenwich Kitchens	Provider of kitchen and bathroom remodeling services intended for homeowners and builders. The company offers custom cabinetry, kitchen remodeling, bathroom design, countertop installation, flooring selection, appliance coordination, hardware finishes, lighting fixtures, plumbing fixtures, and project management, enabling clients to create functional living spaces.	
Ground Signal	Developer of an audience analytics platform designed to understand and reach real-world consumers and individual influencers. The company's platform uses location-based technology that provides insight into real customer profiles and behaviors, enabling businesses to build marketing strategies, optimize on-premises activation, and improve commercial sales.	

Company Name	Description	Deal Synopsis
Halcyon Days Consulting	Provider of defense technology services intended to build tactical mission networks and operational software for military forces. The company offers tactical mission networks, operational software development, cybersecurity services, systems integration, training services, and foreign partner enablement, providing defense agencies with resilient communication architectures and custom mission applications for use in contested environments.	
Harvest Blade and Supply	Provider of industrial blade sharpening services intended to increase yields and reduce costs. The company offers industrial blade sharpening, replacement blades, blade refurbishing, specialty blade sourcing, and inventory management, enabling the food processing and packaging industries to increase production yields and reduce operational costs.	
Hayes Mechanical	Provider of mechanical contractor services intended for commercial and industrial clients. The company offers heating, ventilation and air conditioning (HVAC) maintenance, plumbing, boiler repair, industrial work and millwright services, thereby helping clients to get reliable service and meets their needs at a competitive price.	
Helping Hand Lawn Care	Provider of lawn care and landscaping services intended to maintain and improve residential and commercial outdoor spaces. The company specializes in lawn maintenance, landscaping, and property care services, thereby enabling customers to maintain healthy, attractive, and well-kept landscapes.	
Henry Business	Manufacturer of high-quality components intended for the commercial refrigeration and air conditioning industries. The company offers oil separators, sight glasses, ball valves, filter driers, pressure vessels, and safety devices, enabling hvac&r operators to improve energy efficiency and system reliability through intelligent manufacturing and sustainable engineering solutions.	
High Performance Helicopters	Operator of heavy-lift helicopters supporting aerial firefighting, utility infrastructure, remote-area construction, aerospace research and development, and off-road motorsports. The company provides aerial firefighting, utility infrastructure support, remote crew delivery, spacecraft retrieval, and off-road aerial support, enabling public agencies, utility companies, contractors, and other organizations to operate in remote, hard-to-access areas.	

Company Name	Description	Deal Synopsis
Horseshoe Construction	Provider of infrastructure rehabilitation services intended for sustainable infrastructure renewal. The company specializes in pipe bursting, manhole rehabilitation, open trench installation, and sliplining, enabling municipalities and contractors to replace or restore water, wastewater, and energy pipelines while minimizing environmental and social disruption through trenchless technology.	
Humanlinker	Developer of artificial intelligence-guided technology designed for the revenue team to make better sales interactions. The company's platform allows users to build an account-based selling strategy and get account recommendations, identify strategic accounts ready to be assigned to the sales team using AI algorithms, and track all the relevant data to understand accounts, enabling companies to make better sales interactions.	
Ignite Industrial Professionals	Provider of industrial workforce recruitment and staffing services intended to connect skilled workers with full-time employment opportunities in the logistics and manufacturing industries. The company offers direct-hire recruitment, temporary staffing, flexible short-term assignments, forklift training and skills validation services, enabling logistics and manufacturing employers to recruit qualified personnel and meet their workforce requirements.	
Impact Recovery	Manufacturer of impact-resistant and flexible safety products intended to protect people, property, and infrastructure. The company specializes in traffic safety devices, protective guarding, and transit barriers, thereby enabling customers to enhance workplace safety and reduce damage from vehicle and equipment impacts.	
Industrial Design Solutions	Provider of industrial control engineering and distributed control system engineering services intended to support process automation in industrial plants. The company offers control strategy design, consulting, hardware and software engineering, simulation systems, and control system IT support, enabling power generation and other industrial facilities to operate and maintain their process control systems.	
Innovative Rx Strategies	Provider of pharmacy benefit consulting services intended to reduce costs and optimize plans. The company offers pharmacy benefit auditing, contract negotiation, pbm procurement, clinical program evaluation, specialty drug management, and financial modeling, enabling businesses to unravel complex pricing structures and secure improved financial terms.	

Company Name	Description	Deal Synopsis
Integrated Systems (Electrical Equipment)	Manufacturer of building automation and Heating, Ventilation, and Air Conditioning (HVAC) control systems intended for the commercial and institutional sectors. The company's services include the design, installation, and maintenance of direct digital control systems and energy management software, enabling facility managers to optimize energy savings and ensure long-term reliability across offices, hospitals, and laboratories.	
Integrity Landscape	Provider of commercial landscaping and plant services intended to serve businesses on the West Coast of the United States. The company offers landscape maintenance, interior plant design, tree care, irrigation management, landscape enhancements and other related services, thereby enabling clients to maintain and enhance commercial indoor and outdoor environments.	
Iron Tree Service	Provider of tree care and arboricultural services intended to maintain tree health, safety, and property landscapes, based in Beverly, Massachusetts. The company offers tree removal, tree maintenance, emergency tree services, stump grinding, land clearing, and crane services, enabling homeowners and commercial property owners to maintain their properties and address tree-related safety concerns.	
January Digital	Provider of digital marketing services intended to solve business challenges through media, analytics, and strategic vision. The company offers brand building, customer acquisition, performance media, brand positioning, customer intelligence, financial planning, strategy, analytics and other related services, helping businesses to grow and increase revenue.	
JBF Consulting	Operator of a supply chain execution consultancy company intended to help clients in need of transportation management system enhancements and supply chain visibility improvements. The company specializes in supply chain execution strategy and systems integration with reporting, data management, analytics, transportation modeling and supply chain design tools and offers services such as logistics technology implementation, software customization, and supply chain analytics and optimization, thereby helping clients with strategic guidance on their deployment strategy.	

Company Name	Description	Deal Synopsis
JDL Electric	Provider of commercial electrical contracting services intended for new construction and renovations. The company offers design-build engineering, energy efficiency consulting, interior lighting design, and emergency power backup systems, designed for general contractors and property managers to maintain reliable and cost-efficient electrical infrastructure.	
Joint Venture (Raleigh Music Publishing / ICM Asset Management) (Tim Hardin Song Catalog)	A portfolio of Tim Hardin's song catalog located in the United States.	
KBS CFO	Provider of fractional chief financial officer services intended for small and medium-sized businesses. The company offers outsourced controller, accounting, and strategic advisory services, enabling manufacturers, government contractors, and professional service firms to streamline business processes and facilitate growth through integrated financial management.	
Kc Robotics	Provider of robotic integration services intended to help manufacturers solve labor shortages and increase production throughput. The company integrates advanced robotic arms, machine vision, and end-of-arm tooling to create turnkey manufacturing environments, enabling manufacturers to overcome production challenges and create products faster.	
Keen-Summit Capital Partners (Keen Business in United States)	Provider of real estate brokerage and investment banking services intended to maximize asset values and minimize liabilities for businesses in special situations. The business division specializes in restructurings, bankruptcies, receiverships, and Article 9 sales, enabling property owners and creditors to execute real estate dispositions, lease restructurings, capital market solutions, and corporate finance strategies within compressed timeframes.	
KL Software Technologies	Developer of digital workplace software designed to modernize legal operations. The company offers an intelligent search platform, document management integration, an enterprise intranet, collaboration software, and artificial intelligence agents, enabling law firms to automate processes and improve business performance through integrated technology environments.	

Company Name	Description	Deal Synopsis
Lafferty Disposal	Provider of waste removal and property cleanout services intended to serve residential and commercial clients. The company offers weekly trash pickup, building cleanouts, and small-scale demolition through its specialized hauling equipment, enabling property owners to maintain pristine conditions and efficiently remove large-scale junk or dilapidated structures.	
Landwise Horticultural Service	Operator of a landscape contracting company intended to provide grounds care and horticultural services in Florida. The company offers landscape design, commercial maintenance, irrigation management, outdoor lighting, and hardscape installation, enabling property owners to manage exterior environments through tailored maintenance programs and design-build services.	
Liberty Development Partners	Operator of an industrial real estate development firm intended to fund and develop rail-served logistics projects. The company manages master-planned industrial parks, rail-served sites, and utility infrastructure, providing manufacturing and logistics companies with build-to-suit developments and transportation connectivity for supply chain operations.	
Linxup	Developer of fleet management software intended to serve the fleet tracking needs of small, medium, and large businesses. The company's software is a GPS-based fleet management tool that includes features like vehicle maintenance tracking, safety monitoring, activity alert, management reporting, and a dashboard, enabling small and medium-sized businesses to reduce fuel usage, improve safety, increase productivity, and monitor and track their fleets.	
Loutech	Manufacturer of precision-machined components built for aerospace, defense, and rugged industrial equipment markets. The company's machining operations produce components like connector shells, fuel connectors, fasteners, hydraulic & drivetrain system parts, and structural or electrical connector hardware for aerospace, defense, medical, and industrial clients, enabling those customers to obtain high-quality, precision, and regulatory compliance.	

Company Name	Description	Deal Synopsis
Mach-1 Express Wash (Wash Center in Mount Pleasant, Pennsylvania)	Provider of express car wash services intended to maintain vehicle cleanliness and exterior protection. The company utilizes automated tunnel systems, license plate recognition technology, water reclamation processes, high-suction vacuum stations, and biodegradable detergents, enabling individual vehicle owners and commercial fleets to access rapid cleaning and maintenance through tiered membership plans and single-wash options.	
Master-Bilt Products	Manufacturer of refrigerated cabinets and walk-ins for customers' food service and retail end market. The company offers a range of commercial food service equipment, including walk-in coolers and freezers, refrigerated, non-refrigerated, and hot display cabinets and storage systems, commercial ovens, rotisseries and cooking equipment, bakery and deli display cases, and patient feeding systems.	
Matheson Painting	Provider of industrial painting and coating services intended for asset protection. The company's technology utilizes sandblasting, glass bead blasting, and specialized surface preparation, providing the food and beverage processing, agriculture, and petrochemical sectors with tank linings, containment liners, and pipeline coatings.	
Mechanical Source Solutions	Provider of commercial maintenance services intended to maintain facility systems and food service equipment. The company offers integrated maintenance for HVAC systems, refrigeration units, food service equipment, electrical systems, plumbing, and building repairs, providing restaurant operators with a single point of contact for facility repairs to improve operational efficiency.	
Messenger (Bright Corporation / BerylMartin)	Provider of personalized memorial products and funeral stationery intended for funeral homes and funeral directors. The company offers custom memorial products, funeral printing, register books, memorial folders, keepsakes and other funeral supplies, thereby enabling funeral professionals to commemorate loved ones through personalized remembrance solutions.	
Mid-West Textile	Provider of textile recycling of used clothing and shoes intended to reduce waste and give new purpose to these materials. The company offers fiber reclamation operators, industrial wiping cloth suppliers, vintage clothing boutiques and thrift retail stores as well as offers warehouse and logistics services, ensuring to reduce costs and streamline operations for organizations.	

Company Name	Description	Deal Synopsis
Milestone Environmental	Provider of waste disposal services to oil and gas exploration and production plant operators. The company specializes in the handling of oil and gas drilling, completion and production waste through several technically advanced, professionally managed slurry injection and landfill facilities, enabling clients to reduce their carbon footprint and carry out production in a cost-effective and environmentally sustainable manner.	
Millhouse (Logistics)	Provider of expedited transportation and time-critical freight services intended for manufacturers and distributors. The company's services include expedited ground freight, air charter delivery, and ocean freight logistics, enabling supply chain organizations to navigate mission-critical transportation through proprietary software and real-time shipment visibility.	
ModernLoop	Developer of interview scheduling software intended to coordinate interview scheduling workflows across hiring processes. The company's software offers interview scheduling, candidate self-scheduling, interviewer availability management, calendar coordination, and system integrations, enabling recruiting teams to arrange and manage interviews through a centralized platform.	
Mohawk Day Camps	Operator of a summer day camp intended to provide recreational and developmental experiences for children. The company utilizes a proprietary mobile application for real-time parent communication and a dedicated concierge team to manage administrative requests, enabling families to monitor camper progress while children participate in swimming instruction, athletics, and creative arts programs.	The Company was acquired by FitzWalter Capital through a $ 68 million LBO on October 27, 2026.
Monadnock Non-Wovens	Manufacturer of meltblown nonwoven fabrics designed for technical filtration and protective applications. The company utilizes proprietary fiber production equipment, hydrocharging technology, calendering processes, and composite layering capabilities to produce synthetic media, air filter media, liquid filtration media, respirator media, surgical facemask media, and lofted nonwovens, enabling converters to meet global standards for air purification and healthcare protection.	

Company Name	Description	Deal Synopsis
Motion & Control Enterprises	Distributor of motion and control systems, lubrication equipment and high-pressure power tools intended to serve the industrial sector. The company supplies a wide variety of precision-engineered parts from manufacturers as well as offers designing and building of automation systems with controls to match manufacturing needs, enabling clients to get application assembly that will work for different needs as well as pre-assembled hoses and fittings, kitting and divider blocks and related field services.	The company was acquired by Bertram Capital through a $155 million LBO on October 26, 2026 for an undisclosed amount.
Music Reports	Developer of music rights administration software designed for licensing and royalty management. The company's technology utilizes rights matching, automated royalty accounting, cue sheet management, license administration, and a music rights registry, providing a licensing marketplace, royalty payment processing, cue sheet software, and catalog auditing to digital streaming services and broadcasters, enabling users to clear music rights and manage global royalty payments.	
N.H. Yates & Company	Manufacturer of custom hydronic modules and HVAC equipment designed for the HVAC and plumbing industry. The company offers water heaters, boilers, pumping systems, valves, steam specialties, and custom-engineered hydronic modules, providing wholesalers and contractors access to mechanical equipment through a regional distribution network.	
Nash Lawn and Landscaping Maintenance	Provider of commercial lawn and landscaping services intended for property maintenance and aesthetic enhancement. The company offers commercial lawn maintenance, landscape installation, irrigation repair, drainage management, seasonal color programs, and paver installation, enabling commercial and community clients to maintain professional outdoor appearances for their properties.	
Native Strategies	Provider of civil engineering services intended to advance tribal and community infrastructure projects. The company operates as a Native American-led practice that combines tribal relationships with national engineering resources, enabling tribal nations and federal agencies to execute complex transportation, water, wastewater, and environmental infrastructure projects while ensuring regulatory compliance and environmental stewardship.	
NetGalley	Operator of an easy-to-use online service and connection point intended to book advocates and industry professionals. The company's platform provides online service and connection points for book publishers, reviewers, media, librarians, booksellers, bloggers and educators.	

Company Name	Description	Deal Synopsis
New Horizons Technologies	Provider of electrical and information technology services intended for commercial and industrial sectors. The company offers electrical installation services, network cabling solutions, fiber optic backbones, wireless network solutions, paging systems, and fire and security systems, providing low voltage cabling, power wiring, and infrastructure design to enable retail, healthcare, and enterprise organizations to manage their electrical and it systems.	
NorStar Investigations	Provider of insurance investigative services intended to validate claims and detect fraud. The company offers surveillance, background checks, insurance fraud investigations, insurance claim investigations, legal investigations, enabling insurance carriers and law firms to verify claim legitimacy and mitigate financial losses.	
North 6th Agency	Provider of public relations and strategic communications services intended for global brands. The company offers public relations, strategic communications, media training, crisis communications, thought leadership, and internal communications, enabling technology, financial, and consumer brands to build credibility and manage reputations through earned media and strategic storytelling.	
Northeast Inspection Consultants	Provider of building department and community development services intended for municipalities and developers. The company offers building inspections, plan review, code enforcement, zoning consulting, and permit guidance, enabling local governments to ensure regulatory compliance and improve departmental efficiencies.	
NRP Jones	Manufacturer of hydraulic fittings for original equipment manufacturers and for hose and fitting distributors. The company offers hydraulic, industrial and oilfield hoses, fittings, and assemblies in the oil and natural gas drilling, agricultural, transportation, construction, and mining industries, enabling clients to receive industrial parts and equipment as per their requirements.	
O2 Cool Manufacturing	Manufacturer of vehicle heating, ventilation, and air conditioning systems designed for commercial and specialty fleets. The company offers climate control systems, heating units, air conditioning units, retrofit kits, ventilation components, and installation services, enabling school bus and commercial truck operators to maintain cabin temperatures through vertically integrated engineering and mobile on-site upfitting.	

Company Name	Description	Deal Synopsis
Oak Point Partners	Operator of an investment management company in Northbrook, Illinois. The company specializes in the purchase of residual or remnant assets including those at the end of commercial bankruptcy cases, thereby providing a one-stop-shop for all the bankruptcy and related needs of clients.	
Off Duty Management	Provider of administrative support, technology, and liability protection intended to assist law enforcement agencies in the administration and execution of their off-duty program and assignments. The company supports and protects law enforcement agencies, their officers, and community businesses by delivering a customizable, centrally administered no-cost solution to manage several aspects of off-duty programs and keep agencies in control mitigating risk and liability.	The company was acquired by Extra Duty Solutions, via its financial sponsor Bregal Sagemount, through a $72.5 million LBO on October 6, 2026.
On Target Maintenance	Provider of commercial janitorial services intended to maintain facility cleanliness and safety. The company utilizes adenosine triphosphate testing, operates nationwide with twenty-four-hour availability, implements electronic ordering systems, follows Centers for disease control protocols, and employs specialized floor care processes, providing commercial clients with a single-call solution for facility maintenance to improve operational efficiency.	
OneEnergy Renewables (Two Solar Projects in Washington)	A portfolio of two solar projects with a combined total of 15.79 megawatts (MW) located in Washington, United States.	
Ostia (Buildings and Property)	A 5,000-square-foot restaurant property in Houston's Montrose neighborhood. The property features a commercial kitchen, indoor dining spaces, two bar areas, restrooms, and an outdoor patio.	
Otovo (Mr. Elektro and PV Hawaii)	Provider of solar energy and electrical installation services intended to serve residential and commercial customers in Hawaii and Norway. The companies specialize in photovoltaic system maintenance, diagnostics, repairs, solar panel cleaning, electrical work, electric vehicle charger installation, solar panel system installation, smart home and energy management and other services, thereby helping customers maintain, install and manage solar energy and electrical systems.	The companies are in talks to be acquired by Otovo, via its financial sponsors Encompass Capital Advisors and Swiss Life Asset Management, through an estimated $4.6 million LBO as of August 27, 2026. The acquisition is part of a multi-assets transaction that includes two businesses, PV Hawaii and Mr. Elektro, with a $4.6 million round amount of those, Mr. Elektro is valued at NOK 30 million, and PV Hawaii is valued at USD 0.75 million, with earnouts of up to NOK 10 million and USD 0.81 million, respectively.

Company Name	Description	Deal Synopsis
Pacific Sage Partners	Provider of wealth management and financial planning services intended to serve individuals and small businesses. The company's services include investment management, retirement planning, and estate preservation, enabling clients to achieve their financial goals through fee-only fiduciary advice and comprehensive wealth management strategies.	
PanGIS	Provider of cultural resource management and geospatial services intended for environmental and land planning sectors. The company offers archaeological surveying, geographic information systems (GIS) mapping, and architectural history assessments alongside environmental compliance and paleontological services, enabling federal agencies and private developers to manage historic properties and meet regulatory requirements through integrated technical data and scientific analysis.	
PEDEVCO (5,700-net-acre Powder River Basin's Mowry Shale)	A 5,700-net-acre powder river basin's mowry shale located in United States.	
Peregrine.ai	Developer of an AI-powered perception application designed to offer visual intelligence from edge-to-cloud through an end-to-end approach. The company's platform makes cameras in cars convenient and generates real-time insights for transportation, geolocation, and mapping services and its flywheel refines data assets and AI algorithms, enabling clients to build a safe and sustainable traffic ecosystem for all with an SDK.	
Photon Gear	Manufacturer of custom optical systems designed for high-precision technological applications. The company's ultra-high-precision lens assemblies utilize sub-micron element alignment and multi-wavelength interferometric testing, enabling semiconductor, medical, and defense organizations to integrate complex opto-mechanical systems into advanced instrumentation and inspection equipment.	
PKM Panel Systems	Manufacturer of electrical control panels intended for industrial automation and process control applications. The company offers electrical control panels, conveyor controls, SCADA systems, pumping station controls, well monitoring systems, and environmental controls, providing data centers and pharmaceutical firms with specialized automation solutions and UL-certified manufacturing.	

Company Name	Description	Deal Synopsis
Powermag Aviation	Manufacturer of aviation components designed for military and commercial aircraft applications. The company offers rf induction heaters, power supplies, airframe structures, engine components, avionics, and electrical parts, enabling military operators to maintain fleet readiness and operational effectiveness.	
PowerWeld	Distributor of welding products designed for industrial and welding supply networks. The company offers welding filler metals, arc welding accessories, gas cutting equipment, welding safety gear, and MIG equipment, enabling industrial distributors to access a broad inventory of supplies through a strategically located distribution network for rapid field delivery.	
Precise Metal Products	Manufacturer of finished metal assemblies intended to provide a one-stop source for aerospace, power generation, and military industries. The company offers precision metal fabrication services and metal machining, hydroforming, punch press, metal spinning, roll forming, precision machining, laser cutting, and resistance welding, painting, as well as chem film finishing, enabling its clients to meet the appropriate aerospace standards.	
Precise Power (UPS Services Division)	Provider of critical power services intended for data centers and healthcare facilities. The company offers UPS services, battery maintenance, emergency response, preventive maintenance, predictive maintenance, and electrical installation, enabling mission-critical facilities to maintain 100% uptime through vendor-neutral power quality management.	
Precision Grinding And Manufacturing	Manufacturer of precision-machined components designed for high-tolerance industrial applications. The company offers precision-machined parts, mechanical sub-assemblies, electrical assemblies, precision tooling, gauges, and model samples, enabling clients in the aerospace and defense sectors to achieve superior product performance through advanced machining and grinding processes.	
Precision Profiles	Manufacturer of high-precision metal components intended to serve the power generation and defense industries. The company offers turbine vanes, turbine blades, shroud and band material, forging rings, locking tabs, spacers, and hollow machined components, enabling original equipment manufacturers to reduce turbine build costs and increase production capacity through shortened lead times and proprietary machining processes.	

Company Name	Description	Deal Synopsis
Pro-Co	Distributor of industrial safety and instrumentation products intended for the utility and manufacturing sectors. The company offers process-control engineering, gas-detection equipment, and traceable calibration services alongside technical support and facility monitoring solutions, enabling industrial plants and utility providers to maintain safe operating environments and protect personnel through specialized technical instrumentation.	
Prosper Company	Provider of leadership development services intended for the foodservice and hospitality industries. The company offers executive networking, a twenty-four-month accelerator program, leadership conferences, and educational resources, enabling emerging and established leaders to foster inclusive workplaces and drive sustainable growth.	
Quantum Building Solutions	Provider of building automation and energy management services intended for the commercial and industrial sectors. The company offers HVAC controls, lighting automation, systems integration, energy management solutions, building system retrofits, and performance monitoring, providing facility owners with optimized building operations and energy efficiency.	
Quest Events (Commercial Services)	Provider of event rental services intended to offer pipe and drape, scenic, and furnishing solutions. The company utilizes proprietary modular systems and a national footprint to provide pipe and drape, modular scenic elements, staging, event furniture, décor, and furnishings, enabling event producers and meeting planners to transform empty ballrooms and convention halls into finished, branded environments.	
R&M Steel	Manufacturer of pre-engineered metal building systems designed for diverse industrial and commercial applications. The company offers custom-designed structural frames, standing seam roof systems, wall panels, and building components, providing aviation, agricultural, and industrial clients with durable facilities featuring patented wind-resistant seam technology and shop-preassembled kits for efficient installation.	
R&R Property Solutions	Provider of multi-family contracting services intended to streamline maintenance and renovation for large apartment communities. The company offers integrated maintenance, unit renovations, plumbing repairs, and capital projects for garden-style apartment communities, enabling property management firms to manage day-to-day repairs and large-scale improvements through a single point of contact.	

Company Name	Description	Deal Synopsis
Rapid Pump & Meter Service	Provider of mechanical and electrical contracting services intended for the municipal and industrial sectors. The company offers pump repair, meter calibration, metal fabrication, equipment installation and preventive maintenance, enabling water and wastewater facilities to maintain operational efficiency and receive rapid emergency technical support for critical infrastructure.	
Realtycom Partners	Provider of telecommunications consulting services intended to deliver revenue sharing on internet and broadband services for multifamily residence owners. The company offers telecom consulting, contract negotiation, telecom management, revenue auditing, managed wi-fi services, smart home building services, and construction administration, enabling multifamily property owners and developers to maximize ancillary revenue and optimize low-voltage infrastructure across their portfolios.	
RED Group (Construction and Engineering)	Provider of industrial control systems services intended for industrial and mission-critical infrastructure. The company offers the C-SIS methodology, operational technology infrastructure engineering, programmable logic controller programming, supervisory control and data acquisition integration, distributed control system configuration, and human-machine interface development, intended to help clients automate processes and ensure operational resilience.	
RedPeak Properties (Manchester Apartments)	A 101-unit residential high-rise located in Denver, Colorado. The property offers an indoor pool - a hallmark of Roland Wilson designs - along with several other amenities: a sun deck, fitness area, lounge, pool tables, racquetball and basketball courts, and other community amenities.	The property was acquired by RedPeak Properties, via its financial sponsor Partners Enterprise Capital, through a $23 million LBO on October 15, 2026.
Regenex	Manufacturer of recycled vinyl extrusions intended for outdoor building and marine infrastructure applications. The company offers a range of products, including vinyl sheet piling, window accessories, vinyl decking, fence profiles, deck boards, and other related products, ensuring clients get weather-resistant components for erosion control and building projects.	
Rensa Filtration	Manufacturer of air filtration products for commercial and industrial properties. The company offers heating and ventilation pleated filters, bag and rigid box filters, HEPA filters, gas-phase carbon filters, and industrial dust collection filters, along with filter replacement and indoor air quality services.	

Company Name	Description	Deal Synopsis
RES Water	Developer of a custom-built water treatment plant designed to eliminate or treat metals, salts, and oils associated with wastewater. The company specializes in a variety of recycling, disposal, solids remediation, and transport solutions tailored to each client's individual needs.	
Responsive Information Management Systems and Services	Provider of dealer management software intended for the agriculture, construction, and transportation sectors. The company offers an integrated Microsoft-based platform featuring real-time accounting, OEM integrations, and mobile service tools, enabling equipment dealers to facilitate departmental connectivity and streamline business operations through unified data management and reporting.	
Retlaw Industries	Manufacturer of custom plastic injection-molded components and precision tooling intended to serve original equipment manufacturers. The company offers glass-reinforced nylon idler pulleys, roller-chain sprockets, and rebar chairs through in-house design, mold building, and high-volume production, enabling clients in the automotive, agriculture, and fitness sectors to replace metal parts with lightweight, corrosion-resistant thermoplastic alternatives that improve mechanical performance.	
Rialto Bioenergy Facility	Operator of a resource recovery facility intended to stop methane emissions from landfills by diverting food waste and converting it to renewable fuel. The company specializes in processing a combination of food waste extracted from municipal waste streams, liquid waste and municipal biosolids to convert it into a carbon-negative renewable natural gas (RNG), thereby helping its clients to achieve comparatively a cleaner, greener planet effectively.	
Ronan Healthcare Compliance	Provider of healthcare compliance services intended to support private equity-backed healthcare platforms. The company offers outsourced compliance officers, risk assessments, program development, and merger and acquisition due diligence, providing regulatory oversight and strategic roadmaps, enabling healthcare executives to manage regulatory details while focusing on innovation and expansion.	
Rosetree Solutions	Provider of technology consulting services intended to help organizations adopt enterprise software and artificial intelligence. The company utilizes forward-deployed engineers and autonomous agent technology to build digital labor systems, enabling middle-market and enterprise companies to optimize business processes and increase operational efficiency.	

Company Name	Description	Deal Synopsis
Runyon Surface Prep	Provider of surface preparation equipment and materials intended for the concrete polishing and resinous flooring industries. The company provides a diverse portfolio of floor grinders, dust extractors, scarifiers, shot blasters, and power trowels, along with resinous coatings, concrete dyes, and maintenance chemicals to support contractors in the surface preparation, floor maintenance, and decorative concrete sectors, helping them achieve specific gloss levels and surface profiles for commercial and industrial flooring projects.	
Saber Power	Provider of electrical engineering and construction services intended for medium- and high-voltage infrastructure. The company offers turnkey engineering, procurement, and construction solutions, NETA-certified testing and 24/7 emergency response, enabling utility, industrial, and renewable energy clients to design, install, and maintain reliable power systems for mission-critical environments.	
Sandhills Heating, Refrigeration & Electrical	Provider of HVAC and electrical services to restore comfort and safety in residential and commercial properties. The company uses NATE-certified technicians, 24/7 emergency availability, flat-rate pricing, certified green professional standards, Trane Comfort Specialist designations, and a 100% satisfaction guarantee to restore indoor climate control and improve energy efficiency for residential property owners and commercial businesses.	
Service & Sales	Manufacturer of aerospace parts and components designed for hydraulic systems. The company offers precision hydraulic tube assemblies, complex tube bending, mechanical assemblies, custom metal structural fabrication, component parts, and tube assemblies, providing aerospace and defense contractors with specialized components for rotorcraft and fixed-wing programs.	
Smolen Emr Ilkovitch Architects	Provider of architectural design services intended for public and community-based infrastructure. The company offers architectural design, master planning, feasibility studies, interior design, and construction administration, enabling public-sector clients and educational institutions to develop functional facilities that serve as neighborhood centers.	

Company Name	Description	Deal Synopsis
SMP Supply	Provider of industrial distribution and valve assembly services intended for the energy and petrochemical sectors. The company distributes commodity and specialty pipe, valves, fittings and flanges, providing oil and gas, power and industrial customers with valve automation, machining, hydro testing and structural fabrication to facilitate large-scale infrastructure projects.	
Software Resources (Recruiting Services)	Provider of technical recruiting and staffing services intended to serve the technology and finance sectors. The company offers contract, contract-to-hire, and direct-hire placement through a national network of branches and specialized vetting processes, enabling employers in the entertainment, hospitality, and government industries to secure qualified IT, creative, and accounting talent.	
Spanky's Portable Toilets	Provider of portable toilet and restroom trailer rental services intended to support construction sites and special events. The company offers luxury restroom trailers, handicapped-accessible units, and standard portable toilets, enabling clients in the industrial and commercial sectors to access clean and climate-controlled sanitation facilities with professional delivery and maintenance support.	
Sparkle Express Car Wash (Four Sparkle Express Car Wash Sites located in United States)	A portfolio of car wash sites located in Illinois, United States. The company offers exterior car washes, unlimited wash memberships, interior vacuuming, tire shine application, undercarriage cleaning, and express detailing, enabling vehicle owners to receive fast and consistent cleaning services through express tunnel technology and automated membership plans.	
Spire Wealth Management	Provider of financial services and support for independent financial advisors intended to help them operate and develop their practices. The company offers administrative support, compliance and supervision, information technology, reporting, client services, and access to tools and services, enabling independent financial advisors to focus on their clients and manage their practices.	
ST Glass & Window Specialists	Provider of residential and commercial glass services intended for property owners in the Puget Sound region. The company offers window and door installation, commercial storefront glass, and custom shower enclosures alongside automotive glass repair and camera calibration, enabling homeowners and businesses to maintain and upgrade their properties through specialized technical glass solutions.	

Company Name	Description	Deal Synopsis
St. Landry Solar	A 150-megawatt solar energy project based in Wilmington, United States.	
Stable Foundations	Operator of a foundation repair company intended to stabilize residential and commercial properties. The company offers polyurethane foam injections, helical pile systems, vapor barrier installation, crawl space encapsulation, moisture control, and structural support evaluation, enabling homeowners to stabilize their building structures.	
Step Energy Services (Coiled Tubing Asset in Midland, Texas)	Coiled tubing asset located in Midland, Texas. The asset is used for services including frac plug mill-out, wellbore clean-out, tubing-conveyed perforating and nitrogen pumping.	The coiled tubing asset of Step Energy Services was acquired by Ranger Energy Services, via its financial sponsor T. Rowe Price Group, through a $27.5 million LBO on October 9, 2026.
Stilsing Electric	Provider of electrical contracting services intended to maintain transportation and industrial infrastructure. The company offers installation, repair, and maintenance of traffic signals, roadway lighting, intelligent transportation systems, water treatment facilities, and fire detection systems, enabling government and industrial clients to ensure the safety and functionality of critical public and private infrastructure.	
Stride Consulting	Operator of an agile software development consultancy intended for technological transformation. The company offers product design and development, staff augmentation, web performance optimization, product assessment, and digital strategy services, enabling clients to get quality assistance in minimum viable product designing and launch.	
Stroemer & Company	Provider of certified public accounting and business consulting services intended for community associations and commercial enterprises. The company offers audits and reviews, domestic tax services, bookkeeping, cfo services, QuickBooks setup, and forensic accounting, enabling condominium associations and small businesses to maintain financial compliance and implement strategic growth plans.	
Summit Real Estate Group (Eaton Logistics Facility, in Youngsville, North Carolina)	A 550,992-square-foot industrial property located in the Raleigh market, Youngsville, North Carolina. The Class-A distribution center features 40-foot clear heights, a cross-dock configuration, and direct access to U.S. Route 1.	

Company Name	Description	Deal Synopsis
Surface Tech	Manufacturer of asphalt additives designed for the extension of pavement service life. The company utilizes high-strength aramid fibers and automated dosing systems to provide three-dimensional reinforcement within asphalt and concrete mixes, enabling the construction and building materials industry to increase road durability and reduce long-term maintenance costs.	
Sustana Fiber	Manufacturer of recycled paper designed to bring fiber products full circle to the world. The company offers recycled paper products and sustainable, recycled fiber used for paper products and food-grade packaging through automated, proprietary processes and computerized monitoring systems, enabling clients to take the initiative in going green regarding production and packaging.	
SV Techsol	Manufacturer of industrial equipment designed for semiconductor and pharmaceutical applications. The company offers frames, enclosures, static control products, custom applications, semiconductor equipment, and industrial hardware, helping semiconductor and pharmaceutical customers increase productivity and manufacturing yields.	
T&P Incentives	Distributor of promotional products designed for corporate marketing and event branding. The company offers branded polos, golf tee sets, sport towels, rocks glasses, bottle opener keychains, and custom ice molds, providing businesses with customized merchandise to enhance brand visibility during tournaments, trade shows, and community celebrations.	
Tanks Direct	Provider of storage tank solutions intended for water and petroleum applications. The company offers aboveground and underground storage tanks, system design, turnkey installation, maintenance, and removal services, built for contractors and engineers to secure critical infrastructure and manage industrial liquid storage.	
Tap Industries	Distributor of commercial doors designed for architectural opening applications. The company offers commercial doors, metal frames, architectural hardware, toilet partitions, bath accessories, and fire protection specialties, providing general contractors with specialized building products for schools and manufacturing facilities.	

Company Name	Description	Deal Synopsis
TCS Industries	Provider of contract manufacturing services intended to produce precision components and assemblies.
