There were 46 completed U.S. private equity deals in the Healthcare sector during the month of October. The number of deal transactions decreased 17.9% when compared to September's deal count. There was a 36.1% decline in the number of Healthcare deals compared to October 2025.

# Healthcare Deals for October 2026

| Company Name | Description | Deal Synopsis |
|---|---|---|
| 3verest | Developer of a sovereign cloud platform designed for healthcare data and artificial intelligence workloads. The company offers a sovereign cloud platform, clinical application hosting, and data management alongside AI workload optimization and cybersecurity governance, enabling healthcare providers and imaging OEMs to power their medical systems through specialized infrastructure and localized data residency. | |
| AFC Urgent Care | Operator of urgent care centers intended to provide medical services for non-life-threatening injuries and illnesses. The company's centers offer walk-in care, on-site X-rays, and laboratory testing seven days a week, enabling patients to receive medical treatment for non-emergency injuries without an appointment and to access healthcare services through virtual consultations. | |
| Alta Biomed | Provider of medical device coating services intended for medical device surface modification. The company utilizes proprietary polyzene-f thin-film polymer coating technology, human blood loop testing, and cleanroom manufacturing, providing medical device manufacturers with improved blood compatibility for implantable devices and optimized surface performance through drug-free biomimetic polymer application. | |
| Aunutra Industries | Manufacturer of botanical extracts and nutritional ingredients intended for the nutraceutical and pharmaceutical sectors. The company offers standardized herbal extracts, vitamins, amino acids, and specialty ingredients, providing clients with non-irradiated products processed through steam and ozone sterilization within ISO-certified manufacturing facilities. | |
| Baylor Scott & White Health (Outpatient Mental Health Services in Texas) | Provider of outpatient mental health services intended to diagnose and treat psychiatric, psychological, and behavioral health conditions. The company offers psychiatric evaluations, individual and group therapy, family and couples counseling, cognitive therapy, and medication management, enabling individuals experiencing depression, anxiety, substance abuse, and other mental health conditions to access ongoing behavioral healthcare. | |

| Company Name | Description | Deal Synopsis |
|---|---|---|
| Biosouthtech | Provider of human biospecimen services intended for cancer and therapeutic research. The company offers FFPE blocks, frozen tissues, blood and bone marrow, biospecimen sets, treatment-relevant serum, and human therapeutic plasma, enabling pharmaceutical companies and research laboratories to access diverse patient populations and characterized tissue samples for clinical studies. | |
| Boulton Orthodontics | Provider of orthodontic services intended to improve dental health and aesthetic appearance. The company offers self-ligating braces, clear aligners, dentofacial orthopedics, surgical orthodontics, digital scanning, and retainers, enabling children, teens, and adults to achieve a healthier mouth and a more confident smile. | |
| Canyon Villas | Operator of a senior living community intended to provide personalized assistance and residential care. The company offers tailored care plans, 24/7 onsite support, medication management, studio apartments, scheduled transportation, and restaurant-style dining, enabling seniors to maintain independence and social connection within a supportive residential environment. | |
| Centor (Ohio) | Manufacturer of prescription packaging products intended for retail pharmacies and healthcare wholesalers. The company offers plastic vials, closure systems, PET bottles, ointment jars, droppers, and applicators, enabling pharmacists to provide regulatory compliant and child-resistant containers for oral medications. | The company, a subsidiary of Gerresheimer, was acquired by Apax Partners through an estimated $1.71 billion LBO on October 1, 2026. The transaction was supported by $ 500 million of debt financing. |
| ChiroBilling | Provider of chiropractic billing services intended to increase receivables and reduce administrative stress. The company offers insurance billing, revenue cycle management, collections results, office system management, commercial insurance billing, and auto claim billing, providing chiropractic practices with increased cash flow and reduced overhead. | |
| Clinical Research of West Florida | Provider of clinical research and clinical trial services intended to advance medical treatments and improve patient outcomes through the evaluation of investigational therapies. The company conducts clinical trials through dedicated research facilities and an experienced medical team, collaborating with pharmaceutical and biotechnology companies to evaluate investigational treatments across multiple therapeutic areas, including autoimmune and inflammatory diseases, enabling research partners to advance clinical development while providing participants with access to investigational therapies, medical supervision, and study-related care. | |

| Company Name | Description | Deal Synopsis |
|---|---|---|
| CloudWave (Marlborough) | Provider of technical systems integration and cloud services intended to exclusively serve the healthcare industry. The company's service offering includes managed hosting, disaster recovery, backup as a service and archiving, as well as security and end-to-end technical, clinical and user support services, enabling hospitals and healthcare organizations to migrate critical information technology (IT) services to secure, performant, highly available multi-cloud platforms. | |
| Corwin Health Physics | Provider of medical physics consulting services intended to support radiation safety, imaging quality, and regulatory compliance at medical facilities throughout the Pacific Northwest. The company offers X-Ray, computed tomography (CT), magnetic resonance imaging, nuclear medicine, and mammography system evaluations, along with other services, including ultrasound evaluations, radiation safety consulting, shielding designs, radiation survey meter calibration, and training, enabling healthcare facilities to maintain equipment performance and meet radiation safety requirements. | |
| coVita | Distributor of breath analysis devices designed to measure airway inflammation for the management and diagnosis of asthma. The company offers fractional exhaled nitric oxide monitors, smoking cessation monitors, hydrogen breath testing devices, methane breath testing devices, gastrointestinal disorder monitors, and breath analysis accessories, enabling healthcare professionals to provide non-invasive testing and accurate patient diagnosis. | |
| Dr.B (Fitness and Longevity Business) | Provider of fitness, performance coaching, and longevity optimization services intended for health-conscious individuals and athletes. The company offers personalized fitness training, metabolic and biomarker testing, preventative health assessments, nutritional planning, and lifestyle coaching, providing clients with evidence-based longevity protocols and continuous performance tracking, enabling clients to improve metabolic health, enhance physical vitality, and extend their overall healthspan. | |
| Entegris (Life Sciences Fluid Management Business) | Manufacturer of fluid management products intended for life science applications. The division includes bioprocessing and pharmaceutical manufacturing products, including PE bags, single-use assemblies and components used across discovery, clinical and commercial manufacturing. | |

| Company Name | Description | Deal Synopsis |
|---|---|---|
| Eoscene | Developer of compliance management software intended to automate facility safety and environment-of-care assessments. The company offers ecms compliance management, assessments for ecms, assuretemp monitoring, readycheck task management, environment-of-care assessments, hazard vulnerability analysis, providing healthcare providers with cloud-based tools and real-time reporting to improve patient safety and operational efficiency. | |
| Ethical Naturals | Manufacturer of botanical extracts and specialty ingredients designed for the nutraceutical industry. The company offers alphawave l-theanine, greengrown glucosamine, cranberex cranberry extract, polyphenol-c, standardized botanical extracts, private label supplements, enabling dietary supplement providers to source verified natural ingredients and produce finished products in a solar-powered facility. | |
| Firefly Health | Operator of alternative health plans and integrated primary care services intended for employers and individuals. The company delivers digital-first healthcare through a clinician team, preventive screenings, and a mobile app, enabling members to access affordable care, manage claims, and receive personalized guidance. | |
| Foundation Dental Partners | Provider of dental practice partnership and administrative support services intended to support dentists in transitioning and managing their practices. The company offers accounting and finance, information technology, analytics and reporting, compliance and legal, operations, human resources, recruiting, and staff development services, enabling dental practices to focus on patient care and office operations. | |
| Fox Valley Imaging | Provider of diagnostic imaging services intended to assist in medical diagnosis and health monitoring. The company offers magnetic resonance imaging, computed tomography, ultrasound, digital X-rays, bone density scanning, and echocardiography, enabling patients and physicians to access medical images for disease detection and health assessments. | |
| Fulcrum Strategies | Provider of healthcare consulting services intended to assist physicians with managed care contract negotiations. The company offers payer contract negotiation, strategic planning, mergers and acquisitions, speaking and seminars, public relations, and medical marketing, providing medical practices with professional negotiation resources and strategic planning to improve reimbursement rates and business success. | |

| Company Name | Description | Deal Synopsis |
|---|---|---|
| G&G Technologies | Manufacturer of custom bioprocessing and pharmaceutical equipment designed to support complex life-science manufacturing and laboratory workflows. The company offers engineered single-use systems, fluid handling assemblies, conventional process systems, and made-to-order process equipment, enabling biotechnology, pharmaceutical, and research organizations to optimize manufacturing performance and maintain regulatory standards. | |
| Impression Imaging | Provider of diagnostic imaging services intended to assist in patient care and clinical assessment. The company utilizes metabolic diagnostic and hybrid anatomic imaging techniques, employs scanners for precise results, provides medical reports within a twelve- to twenty-four hour timeframe, offers free transportation services, facilitates direct access to radiologists, and coordinates information sharing between radiologists and referring doctors, enabling patients to receive precise diagnostic results through advanced scanning technology. | |
| Indiana Podiatry Group | Provider of podiatric medical services intended for patients in Indiana. The company offers bunion treatment, arthritis care, diabetic foot care, foot ulcer treatment, heel pain therapy, and surgical nail removal, enabling individuals to recover from foot and ankle ailments. | |
| IntegraGen | Integragen is engaged in the development of genetic biomarkers. It offers genomic and bioinformatic services, including clinical research, basic and human genetic research, bioinformatics and bioanalysis, agrigenomics, and genomics news, as well as genomic research tools and solutions to microbiologic researchers. | |
| Lexi | Developer of AI-powered medical interpretation technology designed to provide real-time multilingual communication support in clinical settings. The company's platform specializes in real-time translation, a panel integrated into healthcare workflows and a patient app with post-visit summaries, helping healthcare providers, clinics and care teams improve care quality and reduce costs while building an inclusive, efficient healthcare system. | |

| Company Name | Description | Deal Synopsis |
|---|---|---|
| MAIA Consulting | Provider of medical equipment planning and procurement consultancy services intended for healthcare design, construction, and renovation projects. The company provides evidence-based equipment planning for construction projects, integrates requirements into facility design, utilizes Revit for BIM coordination, performs systematic inventory assessments, manages end-to-end procurement through competitive bidding, and oversees on-site installation, enabling healthcare facilities to streamline equipment integration from assessment through activation. | |
| Milwaukee Dental Partners | Operator of a dental group intended to provide oral healthcare and practice support services. The company offers clinical training in dental implant placement, molar endodontics, extraction of impacted third molars, and sedation techniques, providing dental patients and practitioners with oral healthcare, practice management, and operational support to improve clinical outcomes and efficiency. | |
| Morrow Family Dentistry | Provider of general and restorative dental services intended for families and local residents. The company offers dental fillings, crowns, bridges, routine cleanings, tooth extractions, and root canal therapy, enabling patients to maintain oral hygiene and restore dental function through comprehensive treatment planning and preventive care. | |
| Noble Biomaterials | Manufacturer of advanced materials designed for antimicrobial protection and electrical conductivity. The company engineers proprietary technology platforms that deliver odor elimination, infection prevention, and electromagnetic interference shielding, providing healthcare, aerospace, and defense markets with lightweight, flexible conductive materials for thermal and radar signature management. | |
| PANTHERx Rare | Manufacturer of a pharmacy company focused on specializing in rare and specialty diseases. The company's pharmacy offers medicine and cares for patients afflicted with diseases such as Aids, multiple sclerosis, hypophosphatasia, and sleep-wake rhythm disorder, thereby enabling patients to receive life-transforming therapies for their devastating diseases. | The company was acquired by Warburg Pincus and Abu Dhabi Investment Authority through an estimated $7 billion LBO on October 15, 2026. The transaction was supported by $3.41 billion of debt financing. |
| Peachtree Periodontics & Dental Implants | Provider of periodontal and dental implant services intended for dental patients. The company offers gum disease treatment, dental implant surgery, and conscious sedation, enabling individuals to preserve their natural teeth and restore missing ones through specialized surgical and restorative dental procedures. | |

| Company Name | Description | Deal Synopsis |
|---|---|---|
| Petsch Respiratory Services | Provider of respiratory care services intended to assist patients with home medical equipment needs. The company offers oxygen concentrators, portable oxygen tanks, positive airway pressure devices, nebulizers, mobility aids, and hospital beds, providing healthcare support to individuals requiring respiratory and home medical equipment for health management. | |
| Proficient Surgical | Distributor of medical devices and surgical equipment intended for healthcare providers. The company supplies products for neurosurgery, spine, ophthalmology, plastics and ENT procedures, while also providing equipment servicing, technical support and refurbished surgical microscopes. | |
| Q Surgical | Provider and distributor of medical devices and technical services intended for surgical teams and healthcare institutions. The company specializes in surgical microscopes, high-speed drill systems, bipolar forceps, cranial plating systems, aneurysm clips, and surgical headlights, enabling hospitals and ambulatory surgery centers to access advanced surgical visualization and precision instruments for complex procedures, as well as specialized technical support and equipment maintenance for operating room systems. | |
| Radon Medical Imaging | Supplier of medical imaging products and services, intended to offer advice and professional services to customers. The company offers a wide range of products and services, including selling, servicing, and installing a variety of new and pre-owned radiographic equipment, thereby offering customers viable services for complex medical imaging issues. | |
| Ronan Healthcare Compliance | Provider of healthcare compliance services intended to support private equity-backed healthcare platforms. The company offers outsourced compliance officers, risk assessments, program development, and merger and acquisition due diligence, providing regulatory oversight and strategic roadmaps, enabling healthcare executives to manage regulatory details while focusing on innovation and expansion. | |
| Sannova Analytical | Provider of a contract analytical laboratory intended to provide bioanalytical services and support drug development in the pharmaceutical industry. The company offers both Good Laboratory Practice (GLP) and non-GLP bioanalytical services, as well as Good Manufacturing Practice (GMP) and non-GMP analytical chemistry services, enabling pharmaceutical and biopharmaceutical companies to advance novel and generic therapeutics through regulatory compliance and CMC processes. | |

| Company Name | Description | Deal Synopsis |
|---|---|---|
| Simulations Plus | Simulations Plus Inc is engaged in the software industry. It develops and produces software for use in pharmaceutical research and education, and provides consulting and contract research services to the pharmaceutical industry. The company's operating segments include Software and services. The company offers software products for pharmaceutical research such as ADMET (Absorption, Distribution, Metabolism, Excretion, and Toxicity). It generates maximum revenue from the software segment. Maximum revenue is earned from USA following EMEA and Asia Pacific. | The company was acquired by Altaris through a $375 million public-to-private LBO on October 6, 2026. The transaction is supported by Debt financing. |
| SpaKinect | Provider of a telehealth practitioner network designed to approve patients for medical spa treatments. The company provides telehealth and cloud computing systems with advantages for wellness center medical professionals and clinicians, enabling users to reduce the cost of running medical wellness centers. | |
| Specnova | Developer of advanced pharmaceuticals products intended for the nutraceutical industry. The company untilizes biotechnolgy and offers noogandha ashwagandha extract, nordiccherry tart cherry extract, mitoheal currant extract, lipovantage liposomal ingredients, vitasomal-c and alphafen fenugreek extract, enabling supplement manufacturers to enhance product bioavailability and stability through proprietary liposomal and microencapsulation systems. | |
| Spectrum Solutions | Manufacturer of medical packaging containers intended for specimen collection. The company offers containers primarily used for scientific testing of the medical, organic health, and cosmetic sectors, enabling clients to reduce costs, simplify supply chain management, bolster quality control, and manage regulatory compliance. | |
| Validation Systems | Provider of validation and laboratory testing services intended for the life sciences industry. The company offers facility, utility, equipment, and process validation, alongside microbiological and chemical testing through an FDA-registered laboratory, enabling pharmaceutical, biotechnology, and medical device manufacturers to maintain regulatory compliance and ensure the quality of their mission-critical production environments. | |

| Company Name | Description | Deal Synopsis |
|---|---|---|
| Verix | Developer of commercial optimization software designed for the life sciences industry. The company's patented artificial intelligence platform utilizes machine learning and predictive modeling to integrate commercial, clinical, and market data through a semantic layer and business logic, providing pharmaceutical and biotech organizations with real-time insights for dynamic targeting, next-best-action recommendations, and omnichannel orchestration to enhance sales performance and marketing effectiveness. | |
| Weave (Lehi) | Developer of an integrated communications platform intended to help healthcare practices and small businesses automate tasks and manage patient communications. The company's platform combines software communication and analysis tools with cloud-based phone services, enabling dental and medical service providers to automate repetitive administrative tasks and manage all patient interactions from a single integrated system. | The company was acquired by Francisco Partners and Sixth Street Specialty Lending BDC through a $701.4 million public-to-private LBO on October 26, 2026. The transaction was supported by $240 million of debt financing. |
