

## Energy Deals for May 2022

Company Name	Description	Deal Synopsis
American Power (Mesa)	Provider of power transmission and distribution intended to serve investor-owned utility companies in Arizona and New Mexico. The company offers a complete range of transmission, substation and distribution construction services, thereby working in both energized and de-energized environments.	The company, a subsidiary of Clark Construction Group, was acquired by GridTek Utility Services, via its financial sponsor First Reserve, through an LBO on May 2, 2022 for an undisclosed amount.
ChooseEV	Provider of electric vehicle (EV) market awareness and education tools across North America. The company offers a digital toolkit of EV saving calculators, commute saving calculators, EV carbon reduction calculators, EV model review tools and EV incentive calculators, enabling companies to showcase the benefit of having EVs and help convert more clients.	The company was acquired by CLEAResult, via its financial sponsor TPG, through an LBO on May 10, 2022 for an undisclosed amount. The acquisition will expand CLEAResult's energy transition practice and provide utilities and businesses with customer-friendly EV education tools, easier implementation and technical assistance with charging and fleet electrification.
Consolidated Edison Solutions (Agawam Solar and Storage Project)	Solar and storage renewable project based in Agawam, Massachusetts. The solar plant has a 5.66MW capacity and storage cells have a 5.2MWh storage facility, providing clean power to commercial and industrial community subscribers in Western Massachusetts.	The Solar and Storage Project of ConEdison Solutions was acquired by Catamaran Renewables, via its financial sponsor Captana Partners, through an LBO on May 19, 2022 for an undisclosed amount.
Empyrean Services	Provider of consulting services focused on the commercial nuclear energy industry in North America and US Department of Energy (DOE) Complex facilities as well as non-nuclear industries. The company offers engineering, technical and project management services through a captive pool of nuclear technicians, engineers, scientists and executives, delivering services across the entire project spectrum.	The company was acquired by Consulting Solutions International, via its financial sponsor White Wolf Capital, through an LBO on May 18, 2022 for an undisclosed amount.

## Energy Deals for May 2022

Company Name	Description	Deal Synopsis
Enstor Gas	Owner and operator of natural gas storage facilities intended to support the availability and use of energy across the United States. The company offers a range of storage services including firm and interruptible storage, park and loan, swing, wheeling and pooling services, thereby helping natural gas market participants manage pipeline imbalances and daily and seasonal price volatility.	The company was acquired by JP Morgan Asset Management through an LBO on May 11, 2022 for an undisclosed amount.
Great Texas Compression	Provider of natural gas compression services across counties in South Texas. The company offers compression services required to move gas from well sites into gathering systems through a fleet of rental compressors.	The company was acquired by Park Energy Services, via its financial sponsor Rock Hill Capital, through an LBO on May 20, 2022 for an undisclosed amount. The transaction was supported by debt financing from Century Bank, Regions Financial, Third Coast Bank SSB and UMB Financial. The transaction further enhances Park Energy Services' strategic position in South Texas and provides additional service density throughout the existing operating footprint in the region.
Gulf Coast Express Pipeline	Operator of a natural gas pipeline project in Texas. The company transports natural gas through its pipeline originating at the Waha Hub near Coyanosa, Texas in the Permian Basin and terminating near Agua Dulce, Texas	Targa Resources sold its 25% stake in the company to ArLight Capital Partners for \$857 million on May 16, 2022.
Harvest Energy Services	Provider of operations and maintenance services intended for the renewable energy industry. The company offers services catering to maintenance, quality control and inspections, construction management and asset management, delivering benefits of reduced operating cost.	The company, a subsidiary of Workrise, was acquired by Takkion Holdings, via its financial sponsor Apollo Global Management, through an LBO on May 2, 2022 for an undisclosed amount. The addition of Harvest will grow Takkion's wind O&M presence in North America, meaningfully enhancing Takkion's ability to provide comprehensive solutions for the evolving needs of the renewable energy supply chain.
Howard (55.4 MW operating wind project)	Portfolio of 55.4 mega-watts operating wind project in New York, United States. The wind farm generates wind energy to power approximately 12,500 New York homes a year.	The Howard (55.4 MW operating wind project) was acquired by Greenbacker Group through an LBO of an undisclosed amount on May 5, 2022.

## Energy Deals for May 2022

Company Name	Description	Deal Synopsis
Kewaunee Power Station	A 566-megawatt nuclear power plant in Wisconsin, United States. The power plant has two 345 kV lines interconnecting it to the grid and involves the generation of power for industrial activities.	The nuclear power plant of Dominion Energy was acquired by EnergySolutions, via its financial sponsors Energy Capital Partners and TriArtisan Capital Advisors, through an LBO on May 19, 2022 for an undisclosed amount.
Land Information Services	Provider of enterprise land software and energy back-office outsourcing services for the oil and gas companies. The company offers a range of services such as lease records, division orders and owner relations alongside their software platform, thereby enabling clients to turn their data into meaningful information.	The company was acquired by WolfePak Software, via its financial sponsor Charlesbank Capital Partners, through an LBO on May 9, 2022 for an undisclosed amount.
Valiant Energy Services	Provider of construction services intended to serve the power, substation, transmission, distribution, storms and eco power sectors. The company specializes in building, servicing, testing and commissioning power systems, thereby delivering work on time, on schedule and without cost overruns or excessive change orders.	The company was acquired by The Goldfield Corporation, via its financial sponsor First Reserve, through an LBO on May 2, 2022 for an undisclosed amount. The transaction will fuel the company's expansion of electric distribution maintenance service offerings in the Northeastern and Southwestern U.S.
