The company's platform guides in directed pick and put away, food and temperature-control, custom labeling and reporting, business to customer fulfillment, kitting and assembly, appointment scheduling, fourth-party logistics, client portals, labor tracking, return order processing, thereby helping in speeding up clients' business operations.	The company was acquired by Made4net and Thompson Street Capital Partners through an LBO on June 9, 2022 for an undisclosed amount. The combination of the company and Made4net creates a world-class WMS software provider with innovative solutions tailored to the needs of the mid-market and now further enables both 3PL and non-3PL customers to modernize their supply chains through automation and real-time visibility.
